35. Damages
36. Memorial Day
37. Fo urth of July
38. Incidentals
39. Water Department
40. Interest and Discount
41. Reserve Fund

and to determine in each case how and under whose direction the money shall be expended and to impose any conditions and restrictions thereon which the Town may think fit, or take any other action in regard to the same.

Art. 2. To take any action that the Town may think proper upon the reports of the several town Boards and Committees and appoint or change any committee that the Town may think proper.

Art. 3. To see if the Town will vote to authorize its Treasurer, with the approval of its Selectmen, to borrow money in anticipation of the revenue of the current financial year.

Art. 4. To see if the Town will vote to authorize its Treasurer, with the approval of its Selectmen, on and after January 1st, 1929, to borrow money in anticipation of the revenue of the year 1929.

Art. 5. To see what Banks and Trust Companies the Town will designate as legal depositories of the moneys and securities of the Town, or take any other action in regard to designating or authorizing the designation of such depositories.

Art. 6. To see what sum of money the Town will vote to raise and appropriate for the payment of unpaid bills.

Art. 7. To see what sum of money the Town will vote from surplus for the use of the Assessors in determining the tax rate for the year 1928.

Art. 8. To determine in what manner taxes shall be collected the current year, and fix the rate of interest on all taxes remaining unpaid after the time fixed for paymnt.

Art. 9. To see what sum of money the Town will vote to appropriate for the erection of a new town office building, and for the furnishings of the same, for moving the records and other property of the Town from the present town offices into said building when completed, for grading and landscaping the grounds, including the

construction on said grounds of an open air auditorium and for any and all other incidental expenses connected therewith, and to determine the manner in which the money so appropriated shall be raised, whether by loan or otherwise, and to fix the terms and conditions of any loan or loans necessary to procure said funds, and to authorize the issue of bonds or notes therefor, or take any other action in relation thereto.

Art. 10. To see if the Town will adopt the recommendations of the Committee to which was referred the subject of a war memorial or memorials, and to see what sum of money the Town will vote to raise and appropriate for said purpose, or take any other action in reference thereto.

Art. 11. To see if the Town will instruct the Selectmen to terminate the Town's tenancy of the present Town Offices at such time as the new Town Office Building is ready for occupancy, or take any other action in reference thereto.

Art. 12. To see if the Town will authorize the Electric Light Committee to contract with the Weymouth Light & Power Company for the furnishing lights for the Town, or take any other action in reference thereto.

Art. 13. ON PETITION: To see if the Town will vote to raise and appropriate a sum of money to light properly Columbian Square, and direct the committee on Electric Lighting to carry the above into effect.

Art. 14. To see what sum of money the Town will vote to raise and appropriate to light properly Lincoln Square and direct the committee on electric lighting to carry out the above vote.

Art. 15. By request of the Chief of Police: To see if the Town will vote to appoint a committee of not more than five to consider the installation of a police signal system, and report at the next special or annual town meeting, or take any action relative thereto.

Art. 16. To see if the Town will appoint a committee to recommend a site and procure estimates for a new fire station in Ward 2, said committee to report at the next annual town meeting.

Art. 17. ON PETITION, To see what sum of money the Town will vote to raise and appropriate to install a fire alarm box at the corner of Pleasantview Avenue and Hibiscus Avenue.

Art. 18. To see if the Town willl accept the several reports of the Selectmen, laying out as Town ways the following designated private ways, or any of them, to wit:

Academy Avenue
Elinor Road
Fairlawn Avenue
Georgia Road
Kingman Street
Lakewood Road
Manatee Road
Nevin Road
Ocean Avenue
Orlando Avenue
Partridge Road
Pierce Road
Princeton Avenue

Roosevelt Road
Sagamore Road
Suwanee Road

and will authorize the Board of Selectmen to acquire by gift or take by right of eminent domain an easement for all purposes of a public street and highway in and over each of said streets as so laid out, or take any other action in relation thereto.

Art. 19. To see what sum of money the Town will vote to raise and appropriate for the working of each of the above named streets including the acquisition of the easements referred to in the preceding article.

Art. 20. To se if the Town will accept the several reports of the Selectmen relocating certain corners of each of the following streets, to wit:

The Northwesterly corner of Broad and Commercial Streets.
The Northwesterly corner of Cottage and Commercial Streets.
The four corners of Middle Street at its crossing Washington Street.

and will authorize the Board of Selectmen to acquire by purchase or take by right of eminent domain an easement for all purposes of a public way and highway in and over the land included in each of said streets as so relocated and widened, or take any other action in relation thereto, and to see what sum of money the Town will vote to raise and appropriate for the working of said streets as so laid out, or take any other action in relation thereto.

Art. 21. To see if the Town will vote to accept the report of the Selectmen on the lay out and widening of Pleasant Street from Lovells Corner to Pine Street, and will authoriz the Board of Selectmen to acquire by gift or purchase or take by right of eminent domain an easement for all purposes of a public street over the land included in said widening, or take any other action relative thereto, and to see what sum of money the Town will vote to raise and appropriate for said purpose including the acquisition of said easement.

Art. 22. ON PETITION: To see what sum of money the Town will vote to raise and appropriate to drain and repair Filomena Street, or take any other action relative thereto.

Art. 23. ON PETITION: To see if the Town will vote to raise and appropriate $700 to repair Carroll Street, or take any other action relative thereto.

Art. 24. ON PETITION: To see what sum of money the Town will vote to raise and appropriate for the purpose of constructing a permanent sidewalk on Washington Street in front of the property of Silas W. Newcomb to a point opposite the residence of William R. Martin, or take any other action relative thereto.

Art. 25. To see what sum of money the Town will vote to raise and appropriate for the building of a permanent silewalk on the west side of Washington Street between Richmond and Prospect Streets, or take any other action rlative thereto.

Art. 26. ON PETITION: To see what sum of money the Town will vote to raise and appropriate for the construction of a sidewalk on the easterly side of Main Street commencing at the junction of said Main Street with Middle Street and extending from that point northerly on said street to the residence of Effa P. Ellis, or take any other action relative thereto.

Art. 27. To see what sum of money the Town will vote to raise and appropriate to cover the drain and build a sidewalk on Tremont Street, or take any other action relative thereto.

Art. 28. To see what sum of money the Town will vote to raise and appropriate for the equipment and maintenance of a children's reading room at Tufts Library or take any other action relative thereto.

Art. 29. To see if the Town will vote to raise and appropriate $500 to be used in the levelling and rough grading of a portion of the playground adjoining the Bicknell School lot, for the purpose of increasing the area of the skating pond, or take any other action relative thereto.

Art. 30. To see what sum of money the Town will vote to raise and appropriate to purchase or take by right of eminent domain the parcel of land at the corner of Sea Street and the entrance to the Bicknell School lot now owned by George A. Walker, for the improvement of and protection to the school property, or take any other action in relation thereto.

Art. 31. ON PETITION: To see if the Town will vote to raise and appropriate a sufficient sum of money to grade the baseball field at the Lovells Corner playground, or take any other action in relation thereto.

Art. 32. ON PETITION: To see if the Town will vote to authorize the Board of Park Commissioners to acquire by purchase or take by right of eminent domain so much of the so-called Tirrell lot at the Northwesterly corner of Broad and Commercial Streets, as is not included in the relocation and widening spoken of in Article 20, or take any other action in reference thereto, and to see what sum of money the Town will vote to raise and appropriate for said purpose, including the acquisition of the said land.

Art. 33. To see if the Town will authorize the issuance of not to exceed $15,000.00 in bonds or notes for the construction of Water Mains of six inches or more in diameter, said bonds or notes to be payable within fifteen years of the date of issue and in accordance with Section 19 of Chapter 44 of the General Laws.

Art. 34. To see if the Town will authorize the appropriation of not to exceed $20,000.00 from the general fund of the Water Department for carrying on necessary work for private parties; payments for said work to revert to the General Fund.

Art. 35. To see if the Town will vote to authorize the Board of Water Commissioners to acquire by purchase or take by right of eminent domain under the provisions of Chapter 79 and Section 41 of Chapter 40 of the General Laws for the purpose of preserving the purity of the water supply, the whole or any portion of the land lying within the watershed of Weymouth Great Pond and not already owned by the Town, or authorize to be acquired under some other vote, such takings to be made from time to time as the said Board shall deem the interest of the Town require and no land to be acquired in excess of the amount which in the opinion of the Board can be acquired within the limits of the money appropriated from time to time for that purpose by the Town.

Art. 36. To see what sum of money the Town will vote to raise by loan or otherwise, and appropriate for the acquisition by purchase or eminent domain of the land referred to in the preceding articles, and

to determine by vote the manner in which the funds for said purpose shall be raised and the terms and canditions of any loan or loans necessary to procure such funds, and to authorize the issue of bonds or notes for same, or take any other action in relation thereto.

Art. 37. ON PETITION: To see if the Town will vote to raise and appropriate a sufficient sum of money to provide for the installing of a hydrant and the replacing of the present water main on Adams Place with one of greater capacity, or take any other action relative thereto.

Art. 38. ON PETITION: To see if the Town will vote to lay deep water mains, hydrants, gate valves, etc., in Lakewood Grove and Birches in accordance with plan prepared by the New England Insurance Exchange, and estimates submitted by Mr. Stevens of the Water Department, dated September 6th, 1927, and supplemental sheet in the sum of $50,338.40 and that assessments pro rata for half of this improvement shall be placed on the tax bills of all owners of property in three or more equal payments.

Art. 39. ON PETITION: To see if the Town will vote to raise and appropriate a sufficient sum of money to have the garbage and rubbish collected, or take any other action relative thereto.

Art. 40. To see what sum of money the Town will vote to raise and appropriate to build and maintain a bath house on the beach of Great Hill Park, or take any other action relative thereto.

Art. 41. To see if the Town will vote to accept from Frèderic Gilbert Bauer a deed of certain lots of land adjoining Weston Park, so-called, and will vote to place the same under the jurisdiction of the Park Commissioners, or take any other action in relation thereto.

Art. 42. To see if the Town willl vote to accept from Frederic Gilbert Bauer a deed of certain lots of land near Weymouth Great Pond and to determine what disposition the Town will make of same, or take any other action in reference thereto.

Art. 43. ON PETITION: To see if the Town will vote to raise and appropriate a sum of money to provide permanent quarters for Wessagussett Post No. 1399 of the Veterans of Foreign Wars of the United States, this is in accordance with Chapter 40, Section 9, General Laws.

Art. 44. To see if the Town will vote to take charge of any or all of the abandoned or neglected burying grounds in the Town and keep the same in good order, and to see what sum of money the Town will appropriate for said purpose under Section 18 of Chapter 14 of the General Laws, or take any other action in reference thereto.

Art. 45. To see what sum of money the Town will vote to raise and appropriate to care and keep in good order and to protect by proper fences any or all burying grounds within the Town in which ten or more bodies are interred and which are not properly cared for by the owners, or take any other action in reference thereto.

Art. 46. To see what sum of money the Town will vote to raise and appropriate for the copying, indexing, preservation and binding of the Town Records, or take any other action in regard to the same.

Art. 47. To see if the Town will authorize its Selectmen to sell any real estate of which it may be possessed and for which it has no further use.

Art. 48. ON PETITION: To see if the Town will vote to raise and appropriate a sufficient sum of money for the purpose of taking care of the surface water at the corner of Front Street and Ells Avenue, or take any other action.

Art. 49. To see if the Town will vote to authorize the Selectmen to sell at public auction or private sale on such terms and at such price as they may deem for the best interests of the Town all real estate of which the Town has possession or title for nonpayment of taxes, and will ratify any such sales already made, or take any other action in regard to same.

Art. 50. To see if the Town will instruct the Board of Selectmen to petition the General Court of the Commonwealth for legal action, authorizing the re-opening of certain awards made for the widening of Bridge Street, and to pay such amounts as may be awarded in revision, or take any other action in reference thereto.

You are further required to notify and warn said inhabitants of Weymouth qualified to vote in elections, to meet at the polling places in their respective precincts to wit: In Precinct 1, 3, 5 and 6, in the halls of the Fire Engine Houses located in those precincts respectively; in Precinct 2 at G. A. R. Hall; in Precinct 4 at the building of the Citizens' Association, Inc., on Front Street; in Precinct 7, at the Lovell's Corner Improvement Association Building on Washington Street; in Precinct 8, at the Weymouth Heights Club Building on North Street.

Monday, the 12th Day of March, 1928

at five o'clock and forty-five minutes in the forenoon, then and there to bring in to the wardens of their several precincts, their votes on one ballot, for the following named public offices, to wit:

Town Clerk for 3 years; Town Treasurer; 5 Selectmen; 2 Assessors for 3 years; 2 School Committee for 3 years; Collector of Taxes; I Park Commissioner for 3 years; 1 Water Commissioner for 3 years; 3 Trustees of Tufts Library for 3 years; I Member of the Board of Health for 3 years; Tree Warden; Annual Moderator; and for the election in Precinct 1 of 10 Town Meeting Members for 3 years; in Precinct 2 of 8 Town Meeting Members for 3 years; in Precinct 3 of 12 Town Meeting Members for 3 years; in Precinct 3 of 1 Town Meeting Member for 2 years to fill vacancy; in Precinct 4 of 4 Town Meeting Members for 3 years; in Precinct 5 of 12 Town Meeting Members for 3 years; in Precinct 6 of 10 Town Meeting Members for 3 years; in Precinct 7 of 4 Town Meeting Members for 3 years; in Precinct 8 of 3 Town Meeting Members for 3 years.

RETURN OF SERVICE

Commonwealth of Massachusetts

Norfolk ss. Weymouth, February, 14, 1928

Pursuant to the within warrant I have this day notified and warned the inhabitants of Weymouth aforesaid to meet at the respective places and times for the purposes set forth in said warrant, by posting true and attested copies of the same in two public places in each voting precinct in said town as therein directed seven days before the time for holding said meeting.

EDWARD F BUTLER
Constable of Weymouth

CERTIFICATE

I hereby certify that a copy of the above warrant was mailed to each Town Meeting Member according to the provisions of Section 3 of Chapter 61 of the Acts of 1921.

CLAYTON B. MERCHANT
Town Clerk

ANNUAL TOWN MEETING

Pursuant to the foregoing warrant the annual meeting of the inhabitants of the Town of Weymouth, represented by its duly elected Town Meeting Mmbers, was held at the hall of the Weymouth High School, East Weymouth, on Monday, the fifth day of March, A. D. 1928.

The meeting was called to order at 7.45 o'clock in the evening by George L. Barnes, Annual Modrator, 165 Town Meeting Members' names being checked by the police stationed at the entrances of the hall. The moderator requested the Town Clerk to read the warrant, after reading the call for the meeting, it was voted that the further reading be omitted, as every Town Meeting Member had a copy of the same mailed to him sevn days previous to the meeting.

The Town Clerk then read the last three paragraphs of the warrant and the attestation of the constable who served the warrant. Earl M. Hutchinson was sworn as a Town Meeting Member.

Voted unanimously: That the Town Treasurer with the approval of the Selectmen be and hereby is authorized to borrow money from time to time in anticipation of the revenue of the financial year beginning January 1, 1928 and to issue note or notes therefor, payable within one year; any debt or debts incurred under this vote to be paid from the revenue of said financial year.

Art. 4. Voted unanimously: That the Town Treasurer with the approval of the Selectmen be and hereby is authorized to borrow money from time to time in anticipation of the revenue of the financial year begining January 1, 1929 and to issue note or notes therefor, payable within one year; any debt or debts incurred under this vote to be paid from the revenue of said financial year.

money from time to time in anticipation of the revenue of the financial year begining January 1, 1929 and to issue note or notes therefor, payable within one year; any debt or debts incurred under this vote to be paid from the revenue of said financial year.

Art. 5. Voted: That no action be taken under this article.

Art. 6. Voted unanimously: To raise and appropriate the sum of $6,272.52 for the payment of unpaid bills as follows:

Preservation of Town Records	$112.03
Police	112.77
Health	2,896.12
Streets	1,307.83
Charities	1,843.77
	$6,272.52

Art. 7. Voted unanimously: To appropriate the sum of $65,000.00 from the surplus for the use of the Assessors in determining the tax rate for the year 1928.

Art. 8. Voted: That the salary of the Tax Collector be six mills of the dollar of taxes collected, and that the Selectmen be authorized and instructed to insure the Tax Collector in the sum of $15,000.00 hold-up insurance. The time of payment and rates of interest on unpaid taxes to be fixed in accordance with the provisions of Chapter 59, Section 57 of the General Laws.

Art. 9. Motion offered by the Appropriation Committee: To appropriate $11,267.35, this being the sum held as the proceeds of sale of real estate, and further to raise and appropriate the sum of $163,732.65 for the erection of a new Town Office Building and for any other incidental expenses connected therewith.

Mr. Joseph A. Fern moved indefinitely postponement of this article. The moderator appointed George E. Cuniff, Newland H. Holmes and Walter L. Bates as tellers, who were duly sworn as such.

The tellers reported 37 voting in the affirmative for indefinite postponment and 101 in the negative. The motion offered by the appropriation committee was then put before the meeting and it was so voted.

Art. 10. Voted unanimously: That the town adopt the recommendations of the committee to which was referred the subject of a war memorial and that the sum of $6,000.00 be raised and appropriated for the purpose of obtaining plans and estimates and the doing of other preliminary work.

Art. 11. Voted: That the town authorize and instruct the Board of Selectmen to take proper legal steps to terminate the town's tenancy of the present town offices at such time as the new town office building is ready for occupancy.

Art. 12. Voted: That the town authorize its Electric Light Committee to contract with the Weymouth Light and Power Co. for furnishing lights to the town for a period not to exceed one year, any contract to be subject to the approval of the Town Counsel before its execution.

Art. 13. Voted: That the subject matter of this article be referred to the Electric Light Committee.

Art. 14. Voted: That the subject matter of this article be referred to the Electric Light Committee.

Art. 15. Voted: That a committee be appointed by the moderator, one of whom shall be the Chief of Police, to consider the installation of a Police Signal System, said committee to report at a special or the next annual town meeting.

Art. 16. Voted: That a committee of six be appointed by said moderator, one of whom shall be the Chief of the Fire Department, to investigate the matter of a site for a new Fire Station in East Weymouth, they to report their recommendation together with estimates of costs, at the next annual town meeting.

Art. 17. Voted: To raise and appropriate the sum of $250.00 for the establishment of a fire alarm box at Pleasantview Avenue and Hibiscus Avenue.

Art. 18. Voted unanimously: Indefinite postponement as to Manatee Road and Pierce Road, and that the reports of the Selectmen laying out the other ways designated by this article be accepted, provided that no entry shall be made upon Lakewood Road, Ocean Avenue, Roosevelt Road and Sagamore Road until the abutters shall have given to the town releases from all damages, and no entry to be made on Fairlawn Road, Princeton Avenue and Orlando Avenue until the abutters shall have rounded the corners to conform to the town by-laws, and no entry to be made on Academy Avenue until the Town Counsel notified the Selectmen that the suit of Charles D. Sheehy, Administrator vs Inhabitants of Weymouth, No. 18412 Norfolk Superior Court has been settled or otherwise disposed of, and that the Selectmen be authorized to acquire by gift or take by right of eminent domain an easement for all purposes of a public street and highway in and over each of said streets as so laid out.

Art. 19. Voted: To raise and appropriate the following sums for the working of the streets accepted under article 18, including the acquisition of easements.

Academy Avenue	$2,160.00	
Elinor Road	711.00	
Fairlawn Avenue	1,675.00	
Georgia Road	711.00	
Kingman Street	600.00	
Lakewood Road	1,400.00	
Nevin Road	1,706.00	
Ocean Avenue	1,057.00	
Orlando Road	619.00	
Partridge Road	800.00	
Princeton 9venue	1,245.00	
Roosevelt Road	1,144.00	
Sagamore Road	1,200.00	
Suwanee Road	600.00	
		$15,628.00

Art. 20. Voted: That the Town accept the several reports of the Selectmen relocating certain corners of each of the following streets: the northwesterly corner of Broad and Commercial Streets, the northwesterly corner of Cottage and Commercial Streets, the four corners of Middle Street at its crossing with Washington Street, and that the Selectmen be authorized to acquire by gift or purchase or take by right of eminent domain an easement for all purposes of a public way and highway in and over the land included in each of said streets as so relocated and widened, and that for the acquisition of said ease-

ments and the working of said streets as so laid out, the following sums be raised and appropriated:

Northwesterly corner of Broad and Commercial Streets	$2,000.00
Northwesterly corner of Cottage and Commercial Streets	3,000.00
The four corners of Middle and Washington Streets	500.00

Art. 21. Voted: That no action be taken under this article.

Art. 22. Motion offered by the appropriation committee that no action be taken under this article.

Mr. Arthur A. Cicchese moved as a substitute motion:

That the Town raise and appropriate the sum of $700.00 to drain and repair Filomena Street. So Voted.

Art. 23. Voted: That the subject matter of this article be referred to the Street Department, the cost if any to be taken from the regular street department appropriation.

Art. 24. Voted: That no action be taken under this article.

Art. 25. Voted: That the subject matter of this article be referred to the Street Department, the cost if any to be taken from the Permanent Sidwalk Appropriation.

Art. 26. Voted: That the subject matter of this article be referred to the street department, the cost if any, to be taken from the regular appropriation of that department.

Art. 27. Voted: To raise and appropriate $600.00 for covering drain and building sidewalk on Tremont Street.

Art. 28. Voted: That no action be taken under this article.

Art. 29. Voted: To raise and appropriate the sum of $500.00 for leveling and rough grading of the playground adjoining the Bicknell School so as to increase the area of the skating pond, the same to be expended under the direction of the School Committee, provided however, that no work shall be done or liability incurred under this vote until the Town Counsel notified the School Department that final judgment has been entered in the action of Mary A. Donovan vs Inhabitants of Wymouth, No. 17234 on the current docket of the Superior Court of Norfolk County, or that in his opinion it is not necessary to retain the property in its present condition for reasons connected with said litigation.

Art. 30. The Appropriation Committee recommended no action be taken under this article.

Ernest L. Saunders moved as a substitute motion: That the Town Acquire by purchase or by the right of eminent domain a certain parcel of land now owned by George A. Walker and bounded substantially as follows:

Northerly by Sea Street.
Easterly by roadway to Bicknell School Lot.
Southerly by Bicknell School Lot.
Westerly by land now or formerly of Perkins.

and that the amount of $3,500.00 be raised and appropriated for the purpose of this article.

The tellers reported 140 voting in the affirmative and none in the negative, a unanimous vote.

Art. 31. Voted: That the subject matter of this article be referred to the Park Commissioners, the cost if any, to be taken from the regular appropriation of that department.

Art. 32. Voted unanimously: That the Board of Park Commis-

sioners be authorized to acquire by purchase or take by right of eminent domain for park purposes so much of the so-called Tirrell lot located at the northwesterly corner of Broad and Commercial Streets as is not included in the relocation of said corner under article 20; said land bounded and described as follows: Begining at the northerly corner thereof; thence running southeasterly by Commercial Street Eleven and 65-100 (11.65) feet; thence running in a general southerly direction by a curve whose radius is Forty-five (45) feet, One Hundred Eleven and 74-100 (111.74) feet to Broad Street; thence running northwesterly by said Broad Street Eighteen and 10-100 (18.10) feet, to land now or late of Priscilla E. Nash; thence running in a general northerly direction by said land of Nash Fifty (50) feet to land now or late of Robert W. Sheehan, Trustee; thence running southwesterly by said land of Sheehan Six and 60-100 (6.60) feet; thence running northeasterly by said land of Sheehan Forty-eight and 06-100 (48.06) feet to the point of beginning, containing 3842 square feet more or less and supposed to be owned by Julius J. Converse et al. and that the sum of Three Thousand Dollars ($3,000.00) be raised and appropriated for the acquisition of the portion of said land covered by this article.

The tellers reported 113 voting in the affirmative and none in the negative.

Art. 33. Voted unanimously: That the sum of $15,000.00 be raised by loan and appropriated for the construction of water mains of six inches or more in diameter, and that the Treasurer of the Town be and hereby is authorized, with the approval of the Selectmen, to borrow said sum of $15,000.00 for said purpose, and to issue bonds or notes of the town therefor, said bonds or notes to be payable in accordance with the provisions of Section 19 of Chapter 44 of the General Laws, so that the whole shall be paid in not more than fifteen years.

The tellers reported 136 voting in the affirmative and none in the negative.

Art. 34. Voted: To appropriate a sum not exceeding $20,000.00 from the general fund of the Water Department for the purpose of carrying on necessary work for private parties payment for said work to revert to said general fund.

Art. 35. Voted unanimously: That the board of Water Commissioners are hereby authorized to acquire by purchase or take by right of eminent domain for the purpose of preserving the purity of the Town's water supply under the provisions of Chapter 79 and of Section 41 of Chapter 40 of the General Laws of the Commonwealth, the whole or any part of the following described parcel of land adjoining Weymouth Great Pond with or without the buildings on said parcel.

Description

Beginning at a point on the easterly line of Weymouth Great Pond, on the division line between land of the Town of Wymouth and land of Percy W. Belcher, thence running easterly by said division line a distance of 7.00 feet to an iron pipe; thence continuing by the same course and still by land of the Town of Weymouth a distance of 37.75 feet to the northeast corner of said land of Percy W. Belcher; thence running southerly by said division line between land of the Town of Weymouth and land of Lizzie M. Hanscom, a distance of 215.12 feet;

thence by the same course and by land of Ernest L. De Willoughby land of Nathan Sternberg, land of Leroy L. Hall, land of Nathan Sternberg, land of Albert R. Doherty, and land of Nathan Sternberg, a total distance of 700.56 feet to the westerly end of th division line between lots 45 and 46 as shown on "Plan of Land in (South) Weymouth, Mass.", (lots on or near Swan Ave.) made for registration in the Land Court by Russell H. Whiting, Civil Engineer, dated Dec. 8, 1926; thence running southwesterly in a straight line a distance of about 485 feet, measuring approximately as follows: about 210 feet across land of said Hanscom and about 275 feet across land of Lucy M. Thomas to the northeast corner of land of Frank O. Houghton and Eveline D. Houghton; thence in a southeast direction by the division line between said land of Houghton and land of Susie E. Poland and land of Marion W. Zerega to a point on said division line between said Houghton and Zerega distant about 330 feet from Thicket Street; thence in a southwesterly direction a total distance of about 1120 feet measured approximately as follows: about 180 feet across land of said Houghton, about 190 feet across land of George H. Bloxham, about 185 feet across land of Sarah A. Russell and Katherine J. Negus and about 565 feet across land of Charles and Emilie Richter (2 parcels) to a point on the division line between land of said Richter and land of Thomas H. Hannaford distant about 360 feet, measured along said division line from the westerly line of Thicket Street; thence by said division line to its intersection with said westerly line of Thicket Street; thence by said line of Thicket Street southerly about 630 feet to its intersection with the division line between land of Thomas H. Hannaford and Edward E. Shaw; thence northwesterly and westerly by said division line to its intersection with the division line between land of Edward E. Shaw and land of Joseph F. Turner; thence southerly by said division line to its intersection with the westerly line of Thicket Street; thence southwesterly by said line of Thicket Street adjacent land of said Turner and land of Mary V. McPhail, a distance of about 600 feet; thence by an angle of ninety degrees to the right, a distance of 115 feet to a point; thence in a westerly direction, a total distance of about 620 feet measuring approximately as follows: about 145 feet across land of J. F. and W. H. Cushing Co. to a point on the division iine between two parcels owned by said Cushing, as shown on sheet 63 of the town survey sheets revised to April 1, 1927; thence southerly by said division line, a distance of about 540 feet to the westerly line of Thicket Street; thence southerly about 1850 feet along said line of Thicket Street to its intersection with the division line between land of Alan L. Wingate, Trustee and land of William J. Coughlan; thence by said division line, a distance of about 450 feet to its intersection with the division line between land of said Wingate and land of Thomas H. Hannaford; thence by an irregular course by said division line, by division line between land of said Wingate and land of parties unknown and by division line between said land of Wingate and land of Helen S. Tirrell to a corner of lands of Alan L. Wingate, Trustee, Helen S. Tirrell and James Tirrell and land of Helen S. Tirrell and by division line between land of Helen S. Tirrell and land of Wong Shase Tom, a total distance of 1500 feet more or less, to a corner of lands of Helen S. Tirrell, Wong Shase Tom, Isaac R. Jackson and Walter S. Stephens; thence by division line between land

of said Jackson and land of said Stephens to the Weymouth-Holbrook line; thence by said town line and adjacent lands of said Jackson, of owner or owners unknown, of Alonzo Hooker, of Maria R. Paine and of Edward L. Morrill to its intersection with the southerly line of Randolph Street; thence easterly, northerly and then easterly by said line of Randolph Street and adjacent lands of said Morrill, of Rachel F. Doty, of Elmer E. Blanchard, of William B. and Mary Louise Belcher, of Helen O. and John M. Downey, of Elmer E. Belcher et al. of Mary C. Granger, of Adin C. DeMary, of Elizabeth T. Swift and Sarah A. Clark to the intersection of said line of Randolph Street with the Shore line of Weymouth Great Pond; thence in a general southerly, easterly and northerly direction following the westerly, southerly and easterly shore line of Weymouth Great Pond respectively to the point of beginning, and in case any parcel not abutting on a public street are not acquired, to grant to the owners of such parcel with rights of way as may in their opinion be necessary for the convenient access to said parcels and not detrimental to the purpose for which the land is acquired, and to agree with the owners of such parcels upon restrictions thereof, and the Board of Selectmen are hereby authorized to execute in the name of the Town grants of such easements and agreements covering such restrictions, as the Board of Water Commissioners may approve as aforesaid. (This description covers all land on the shore of the pond from the southern end of the present taking at Swan Avenue to the place where the pond touches Randolph Street.)

The tellers reported 134 voting in the affirmative and none in the negative.

Art. 36. Voted unanimously: That there be appropriated the sum of $31,500.00 for the purpose of acquiring by purchase or right of eminent domain, the land described in the vote under article 35 and that to meet said appropriation there be taken from the revenue of the Water Department for the current year the sum of $16,500.00 and that the Treasurer with the approval of the Selectmen be and hereby is authorized to borrow a sum not to exceed $15,000.00, and to issue bonds or notes to be payable in accordance with the provisions of Section 19 of Chapter 44 of the General Laws, so that the whole loan shall be paid in not more than thirty years from the date of issue of the first bond or note or at such earlier dates as the Treasurer and Selectmen may designate.

The tellers reported 131 voting in the affirmative and none in the negative.

Art. 37. Voted: That the subject matter of this article be referred to the Water Department.

Art. 38. Voted: That no action be taken under this article.

Art. 39. Motion offered by the appropriation committee that no action be taken under this article.

Ernest L. Saunders moved as an amendment, That the Town raise and appropriate the sum of $14,000.00 for the collection and disposal of Garbage in the Town of Weymouth.

Stanley Heald moved as an amendment to the amendment that the words "Under the direction of the Board of Health" be added.

Joseph A. Fern moved as a substitute motion: That this question be referred to the Board of Health, they to report at the next Town Meeting.

The tellers reported 79 voting in the affirmative and 49 in the negative.

Art. 40. Voted: That no action be taken under this article.

Art. 41. Voted: To accept from Frederic Gilbert Bauer a deed or deeds of certain lots adjoining Weston Park so-called, to wit: Lots 5, 6 and 7 as shown on plan 5693-G on file with Certificate 8999 in the office of the Assistant Recorder of the Land Court for the Registry District of Norfolk County and lots 8-9-10-11-12 and 13 as shown on Plan 5693-J on file with Certificate 9371 in the office of the Assistant Recorder for the Registry District of Norfolk County and that the same when acquired be placed under the jurisdiction of the Board of Park Commissioners for use as a public park.

Art. 42. Voted: To accept from Frederic Gilbert Bauer a deed of certain lands lying easterly of the land whose taking was authorized by the Town under article 58 of the warrant for the annual Town Meeting held in March, 1927, and that the Board of Selectmen be authorized to sell or exchange the same or to convey the same in whole or in part release of any claim for land damages accruing by reason of said taking or otherwise dispose of the same as they may consider for the best interests of the Town.

Art. 43. Voted: That the Town raise and appropriate the sum of $600.00 to provide suitable quarters for Wessagussett Post, Veterans of Foreign Wars of the United States.

Art. 44-45. Voted: That the Board of Selectmen be authorized to take charge of and keep in good order any or all abandoned or neglected burying grounds within the Town and to keep in good order and protect by proper fences any or all burying grounds within the Town in which ten or more bodies are interred which are not properly cared for by the owners, in accordance with the provisions of Section 16 and 18 of Chapter 144 of the General Laws, and that the sum of $1,000.00 be raised and appropriated to be spent under direction of the Selectmen for the foregoing purpose.

Art. 46. Voted: To raise and appropriate the sum of $1,000.00 for the copying, indexing, preserving and binding of the Town Records.

Art. 47. Voted: That the Selectmen be and hereby are authorized to sell any real estate of which the Town is possessed and for which it has no further use.

Art. 48. Voted: That the subject matter of this article be referred to the Street Department, the cost, if any, to be taken from the rgular appropriation of that Department.

Art. 49. Voted: That the Selectmen be and hereby are authorized to sell at public auction or private sale and on such terms and at such price as they may deem for the best interests of the Town, all real estate for which the Town has possession or title for non-payment of taxes, and that any such sales heretofore made, be approved, ratified and confirmed.

Art. 50. Voted: That the Board of Selectmen be authorized and instructed to petition the General Court of the Commonwealth for legislation which shall authorize the opening of such awards heretofore made by the Department of Public Works of the Commonwealth, for the widening of Bridge Street as in the opinion of said Board of selectmen justice and equity may require to be reopened and authorizing the Town to pay the amount of said awards as so revised.

The Moderator made the following appointments of Committees under the foregoing articles:

Art. 1. Memorial Day Committee: Bradford Hawes, Waldo Turner and Patrick Slattery representing the Grand Army. William B. Chalke, Jr., Oberlin S. Clark, representing the American Legion and Frank M. Chubbuck representing the Veterans of Foreign Wars.

PATRICK E. CORRIDAN,
MARSHALL P. SPRAGUE,
EDWARD P. MURPHY,
CLAYTON B. MERCHANT,
Registrars of Voters.

A petition signed by John H. Moran and 164 others having been presented to the Selectmen, asking that a referendum vote be taken on the vote passed under article 9 of the warrant for the annual meeting of March 5, 1928, the Selectmen signed the following warrant as provided in Section 8 of Chapter 61 of the Acts of 1921, under which the Town of Weymouth is governed.

WARRANT FOR SPECIAL TOWN MEETING
COMMONWEALTH OF MASSACHUSETTS

NORFOLK, ss.

To the Constables of the Town of Weymouth in said County, GREETING:

In the name of the Commonwealth of Massachusetts you are

hereby required ot notify and warn the inhabitants of Weymouth, qualified to vote upon questions submitted to the voters at large to meet at the polling places in their respective precincts, to wit: In precincts 1-3-5 and 6 in the halls of the Fire Engine houses in those precincts respectively; in precinct 2 at G. A. R. hall; in precinct 4 at the building of the Citizens' Association, Inc. on Front St.; in precinct 7 at the Lovell's Corner Association building on Washington St.; in precinct 8 at the Weymouth Heights Club building on North street. Tuesday, the 27th day of March, 1928, at 2 o'clock in the afternoon, then and there to bring in to the wardens of their several precincts, their votes upon the following question, which is submitted to the voters at large under the provisions of Section 8 of Chapter 61 of the Acts of 1921.

"Shall the Town appropriate the sum of $11,267.35, this being the sum held as the proceeds of sale of real estate, and further raise and appropriate the sum of $163,732.65 for the erection of a new Town Office Building and for any other incidental expenses connected therewith".

.... The polls will be closed at eight o'clock in the evening.

You are directed to serve this warrant by posting a copy thereof attested by you in writing, in each of two public places in each voting precinct in said Town, seven days at least before the time for holding said meeting.

Hereof fail not, and make due return of this warrant with your doings thereon, to the Town Clerk of said Town, on or before the twenty-second day of March, A. D., 1928.

Given under our hands at Weymouth this nineteenth day of March in the year of our Lord nineteen hundrd and twenty-eight.

H. FRANKLIN PERRY,
WINSLOW M. TIRRELL,
FRED E. WAITE,
EDWIN R. SAMPSON,
WILLIAM B. CHALKE, JR.,
Selectmen of Weymouth.

A true copy, Attest:
EDWARD F. BUTLER,
Constable of Weymouth.

RETURN OF SERVICE
COMMONWEALTH OF MASSACHUSETTS

NORFOLK, ss.

Weymouth, March 19, 1928

I have this day served the within warrant by posting a true copy thereof attested by me in writing in each of two public places in each voting precinct in said Town of Weymouth seven days before the time of holding said meeting.

EDWARD F. BUTLER,
Constable of Weymouth.

RESULT OF THE REFERENDUM QUESTION, MARCH 27, 1928

"Shall the Town appropriate the sum of $11,267.35, this being the sum held as the proceeds of sale of real estate, and further raise and appropriate the sum of $163,732.65 for the erection of a new Town

Office Building and for any other incidental expenses conected therewith."

A true copy, Attest

CLAYTON B. MERCHANT,
Town Clerk.

Weymouth, May 30, 1928

The laying of the cornerstone of the new Municipal Town Office Building at the corner of Academy Avenue and Middle Street was held on the afternoon of Memorial Day, May 30, 1928. The various patriotic bodies assembled at the High School grounds and proceeded to a platform erected on the northeast corner of the proposed building where the cornerstone is located, upon the platform chairs were provided for the members of Reynolds Post, No. 58, Grand Army of the Republic, under whose auspices the exercises were conducted.

Colonel Frederic Gilbert Bauer, chairman of the building committee gave a few interesting remarks and turned the meeting over to Past Commander aldo Turner, acting as Commander of Reynolds Post, in place of Major Francis A. Bicknell, although present, but was not physically able to carry out the details of the exercises. H. Franklin Perry, chairman of the Selectmen of the Town of Weymouth was then called upon for a few remarks, and then the ritual of the G. A. R. for the laying of the cornerstone was read by the acting Commander, the flags of the various patriotic bodies being grouped upon the platform in back of the cornerstone. Major Francis A. Bicknell was then led to the stone and proceeded to spread the first trowel of mortar beneath the stone and he was followed by H. Frank-Perry, chairman of the Selectmen, Colonel Frederic Gilbert Bauer, chairman of the building commitee, Commander Oberlin Clark of the American Legion, Commander H. Harley Hartford of the Veterans of Foreign Wars Commander Luther S. Files of the Sons of Veterans, Arthur H. Pratt, Chief of Police of the Town of Weymouth. The stone was then placed in position upon the bed of mortar, spread by the above named persons and the acting Commander then declared the cornerstone placed in position as laid down under the ritual of the Grand Army of the Republic. A copper box was then placed in the aperture of the cornerstone by Past Commander Bradford Hawes, after which a slate slab was placed over the aperture and hermetically sealed to remain for perhaps generations to come.

The following is a true copy of a list of the contents of the box:

1. The Flag of the United States.
2. A certified copy of the Act of the General Court of Massachusetts, naming Weymouth, September 2, 1635.
3. Two stones from the shore of Weymouth, Dorset, England.
4. Affidavit of Percy Smallman, Esq., Town Clerk of Weymouth and Melcombe Regis, England, certifying the stones named above were picked up from the shores of Weymouth, England.
5. A copy of the History of Weymouth, Mass., printed in 1923, four volumes.
6. A copy of the Town Report of Weymouth, Mass., for the year of 1927.
7. A badge of the Grand Army of the Republic (made of captured Confederate cannon).
8. A list of the Officers, present members and Past Commanders of Reynolds Post, No. 58, Grand Army of the Republic.
9. United States coins for the year 1928.
10. Autographed list of Town Officers for the year 1928.
11. Autographed copy of the first report of the Building Committee.

12. A copy of the third report of the Building Committee.
13. A copy of the fourth report of the Building Committee.
14. A copy of the Weymouth Town Map of the year 1915.
15. A copy of the Weymouth Town Meeting Act, Chapter 61 of the Acts of 1921.
16. A copy of the Weymouth Gazette and Transcript of May 25, 1928.
17. A copy of the Weymouth Item of May 24, 1928.
18. A copy of two letters received from Percy Smallman, Esq., Town Clerk of Weymouth and Melcombe Regis, England.
19. A box containing earth from the graves of eight Weymouth boys who fought in the World War, whose bodies are now buried in France cemeteries, this earth was gathered by Vice-Commander Joseph Crehan, Fred Wright and Thomas McCarthy of Post No. 79, American Legion, during a convention held in France, September, 1927. Also a button of the American Legion. This box was endorsed on the outside by Oberlin S. Clark, Commander.

The following is a copy placed in the Box of a record of the General Court, with Attestation of Frederick W. Cook, Secretary of State of Massachusetts.

The Commonwealth of Massachusetts
Office of the Secretary
Boston, May 21, 1928

I certify the foregoing to be a true abstract from the Court Records

preserved in the Archives Division of the Commonwealth.

Witness the Great Seal of the Commonwealth

F. W. COOK

L.S. Secretary

Attestation of Percy Smallman, Esq., Town Clerk of Weymouth, England of the stones taken from the shore of Weymouth, England.

A list of the Officers, Present Members and Past Commanders of Reynolds Post, No. 58, G. A. R., of Weymouth.

After the box had been placed in position and sealed, Col. Frederic G. Bauer spoke and compared the laying of the cornerstone with that of Bunker Hill by Lafayette, who at that time referred to those veterans as the venerable gentlemen and he felt at liberty to call the members of the G. A. R. present as venerable gentlemen. He told of the hopes of the committee and said that it marked the culmination of the voters wish in having the building built.

Selections were rendered by the Weymouth High School Band, under the direction of James W. Calderwood, Supervisor of Music of Weymouth Schools. The exercises closed with the singing of the Star Spangled Banner by the audience, led by the Band.

CLAYTON B. MERCHANT,
Town Clerk.

ATTESTATION OF PERCY SMALLMAN

I, Percy Smallman, Solicitor, Town Clerk of the Borough of Weymouth and Melcombe Regis in the County of Dorset, England, DO SOLEMNLY AND SINCERELY DECLARE that the stones now produced and marked "A", "B" and "C" respectively were taken from a place as near as possible to the place where the Colonists embarked when leaving Weymouth, England for Weymouth, Massachusetts, U. S. A.

And I make this solemn declaration conscientiously believing the same to be true and by virtue of the provisios of the Statutory Declaration Act, 1835.

PERCY SMALLMAN.

Declared at Weymouth, England this Twentieth Day of April, 1928, before me.

PERCY A'COURT.

Justice of the Peace for the Borough of Weymouth and Melcombe Regis.

A true copy, Attest:

CLAYTON B. MERCHANT
Town Clerk

WARRANT FOR SPECIAL TOWN MEETING

COMMONWEALTH OF MASSACHUSETTS

NORFOLK, ss.

To the Constables of the Town of Weymouth in said County,

GREETING:

In the name of the Commonwealth of Massachusetts you are hereby required to notify and warn the inhabitants of Weymouth aforesaid qualified to vote in Town affairs to meet in the Hall of the

WEYMOUTH HIGH SCHOOL

Monday, September 24th, 1928.

at seven o'clock and forty-five minutes in the evening, then and there to act upon the following articles, namely:

Article 1. To see what additional sums of money the Town will vote to raise and appropriate for each of the following departments, to wit:

Legal Department
Elections and Registrations
Police Department
Highways
Charities
Soldiers' Relief
Water Department
Municipal Insurance
Uupaid Bills

and to determine in each case how and under whose direction the money shall be expended and to impose any conditions and restrictions thereon which the Town may think fit, or take any other action in regard to the same.

Art. 2. To see if the Town will instruct the committee on site for Fire Station, appointed at the last annual town meeting, to bring in plans and estimates for a new Fire Station in East Weymouth at the next annual Town Meeting, or take any other action in regard to to the same.

Art. 3. On Petition: To see what sum of money the Town will vote to raise and appropriate for a permanent side walk on Main Street from Independence Square to Fountain Square, or take any other action in regard to the same.

Art. 4. On Petition: To see what sum of money the Town will vote to raise and appropriate to place a permanent Police Officer at the junction of Bridge and Evans Streets from 4 P. M. to 12 Midnight or take any other action in regard to the same

Art. 5. To see if the Town will vote to raise and appropriate a sum or money to move and equip for use the portable school building now located on the Pratt school grounds to the Town lot at the corner of Middle and Washington Streets, or take any other action in regard to the same.

Art. 6. To see what sum of money the Town will vote to raise and appropriate for furnishing the new Town Office Building,for decorating the walls thereof, for grading and landscaping the ground adjoining the same and for the expense of removal of the Town

Offices thereto, including the expense of dedication exercises of the building.

Art. 7. To see what action the Town will take in reference to carrying fire insurance on the new Town Office Building and to see what sum of money the Town will vote to raise and appropriate for the foregoing purpose.

Art. 8. To see what sum of money the Town will vote to raise and appropriate for the payment of awards made by the Selectmen under provisions of Chapter 299 of the Acts of 1928, or take any other action in reference thereto.

Art. 9. To see what sum of money the Town will vote to raise and appropriate for the erection of a memorial for properly commemorating the services and sacrifices of the soldiers, sailors and marines of the Town in accordance with the plans submitted by the Building Committee, including the purchase of a chime of bells as a part thereof, or take any other action in regard to the same.

Art. 10. To see if the Town will vote to appoint a committee to consider participation in the celebration of the Massachusetts Bay Tercentenary in the year 1930, or take any other action in reference thereto

Art. 11. To see if the Town will vote to authorize the Board of Selectmen to acquire by purchase or take by right of eminent domain from the Estate of Henrietta L. C. Parkhurst a certain lot of land formerly belonging to said Henrietta L. C. Parkhurst and adjoining the Pratt School lot, and to see what sum of money the Town will vote to raise and appropriate for the foregoing purpose, or take any other action in regard to the same.

Art. 12. To see if the Town will vote to authorize the Board of Selectmen to acquire by purchase or take by right of eminent domain main for drainage purposes a certain parcel of land situated between Princeton Avenue and Standish Street, bounded Northeasterly by land now or late of Charles S. Payson, and Southwesterly by land now or late of Edward E. Hidgkins et al, said parcel containing 6000 square feet more or less and now or late owned by HoytH. Leland, and to see what sum of money the Town will vote to raise and appropriate for the acquisition and working of the said land.

Art. 13 To see if the Town will vote that all unexpended balances in appropriations made during the current year for the construction and working of new streets be transferred to the general highway appropriation, or take any action in reference thereto.

Art. 14. To see if the Town will vote to raise and appropriate $400. to enlarge the culvert across Evans Street near Brewster Road, or take any other action in regard to the same.

Art. 15. To see what sum of money the Town will vote to raise raise and appropriate for a Pumping Engine in Ward 3, or take any other action in regard to the same.

Art. 16. To see if the Town will vote to accept a deed from Prince H. Tirrell, surviving trustee, of land connecting Garey Street, so called, with Legion Memorial Field, for a nominal consideration, or take any other action in regard to same.

Art. 17 To see if the Town will vote to make the following changes in and additions to its by-laws as recommended by the committee to whom the subject matter thereof was referred:

Art. 18. To see if the Town will adopt the following additions and ammendments to its By-Laws or take any other action in regard thereto:

Section 304 is amended by adding thereto the following new Paragraphs:

"A member of a Committee may resign therefrom by a writing over his signature filed with the Town Clerk.

"Whenever through death, removal from the Town, resignation, or other cause, a vacancy occurs on any Town Commitee, the Moderator may appoint a suitable person to fill the vacancy. In the case of permanent Committees having a fixed term of office the person so appointed shall hold office for the unexpired term of the member whom he replaces."

Article V is amended by adding thereto a new section as follows:

Section 505. Before laying out any street for acceptance the Board of Selectmen shall refer the petition to the Town Engineer and Superintendent of Streets for report as to whether the requirements of these By-Laws have been compiled with"

Section 511 is amended by striking out in the first line thereof the words "on paper or". and by inserting in place thereof the words "done in ink on", and by inserting at the end of said section the words: "Such plan shall show the property lines for at least fifty feet from the line of the proposed street and the names of the respective owners as of a date not earlier than September first of the year in which the petition is filed. There shall be filed at the same time a duplicate of said plan, except that the scale may be reduced made in the manner and in some one of the sizes prescribed under Chapter 150 of the Acts of 1927 for record in the Registry of Deeds. Three blue-prints of each plan shall also be filed.

Section 507 and Section 508 are each amended by striking out the words and figures "Section 12" and inserting in place thereof the words and figures "Section 511."

Section 511 is further amended by adding after clause (e) the following new clause:

"(f) Unless the proposed street, either of itself or in connection with other private ways which are actually open and passable for travel and are laid out in accordance with these By-Laws and the rules of the Board of Survey constitutes a thoroughfare between two public highways, it shall at its end have a loop whose smallest exterior diameter shall not be less than 100 feet."

The following new article is inserted:

ARTICLE VIII

Section 801. The Seal of the Town shall consist of two concentric circles bearing between them on the dexter side an axe and spade crossed saltirewise, on the sinister side an Indian bow and

two arrows crossed saltirewise thereon, in the upper arc the words, and figures "Wessagusset 1622", and in the lower arc in heavier type the words and figures "Weymouth 1635"; the inner circle divided fesswise by a scroll bearing upon its central portion the word "est", upon a dexter flourish the word "Laborare' and upon a sinister flourish the word "vincere," in chief the Holy Bible above a sword and Indian knife crossed saltirewise, in base a two-masted schooner with the United States Flag at its main gaff, astern the contour of Grape Island, and above the word "Massachusetts", the devices all in their natural color and the outline and lettering in gold.

Secton 802. When used as an impression seal the design above described shall be outlined, but not blazoned or tricked.

Section 803.. The present Town Seal shall continue to be the legal seal of the Town so long as its use is continued, but representations of the seal made in the future shall conform strictly to the design herein prescribed.

Section 804. The flag of the Town shall be of Navy Blue having in its center the Seal of the Town above a light blue panel outlined in gold and bearing in gold letters the words "Weymouth, Massachusetts" and in four corners in gold the dates "1623" "1675" "1676" "1775"

ARTICLE

To see if the Town will amend the By-Laws of the Town by addition thereto of the following by-laws:

BUILDING LAWS

The appointment of Inspector of Buildings

Section 1. The board of selectmen shall annually, in April, appoint an inspector of buildings for the term of one year from the first day of May following, or until another is appointed in his stead. His salary or compensation shall be such as the Town from time to time may vote.

General Duties of Inspector

Section 2. The inspector of buildings shall keep a record of the business of said department; submit to the selectmen a yearly report of such business; ascertain all facts and make all returns which shall be required by law relative to steam boilers or other matters Connected with his department, and enter upon the premises wherein any fire has occurred, if necessary, in order to investigate the origin of the fire. He shall make a report to the chief inspector of buildings of the Commonwealth in the month of May, as provided in section 45 chapter 481, Acts of 1894.

Section 3. The inspector of buildings shall grant permits for the erection or alteration of buildings, and no structures or foundations shall be built or altered without such a permit, but no such permit shall be issued until the inspector has carefully examined the plans and specifications of the proposed building or alteration, and ascertained that the building has sufficient strength, and that the means of ingress and egress are sufficient. All structures hereafter to be erected of a description not specified in this ordinance shall be constructed in a manner that shall be satisfactory to the Inspector.

Section 4. A copy of the plans and specifications of every public building shall be deposited in the office of the Inspector.

Examination of Buildings Being Erected, Repaired, Etc.

Section 5. The inspector of buildings shall examine all buildings in course of erection, alterations or repairs as often as practicable,and for that purpose shall have the right of entry thereto, and shall make a record of all violations of this by-law, together with the location of the building where such violations are found, the name of the owner, lessee, occupants, architect and master mechanic, and all other matters relative thereto.

Buildings Reported Dangerous

Section 6. The said inspector shall examine all buildings reported dangerous, or damaged by accident or fire, and make a record of such examination, including the nature and estimated amount of such damage, with the location of the building, the name of the owner and lessee, and for what purpose occupied, and report the facts to the board of selectmen.

Buildings To Be Raised

Section 7. He shall examine all buildings under applications to raise, enlarge, alter or build upon, and make a record of the same These records shall always be open to the inspection of the engineers of the fire department and the selectmen of the town.

Alterations, Repairs, and Additions, Subject to This By-Law

Section 8. Any alterations, repairs or additions to any building already erected or hereafter to be built, except necessary repairs, not affecting the construction of the external or party walls, chimneys or stairways, shall, to the extent of such work, be subject to the regulations of this by-law.

Section 9. No building already erected, or hereafter built, shall be raised or built up in such manner that, were such buildings wholly built or constructed after the passage of this by-law, it would be in violation of any provision thereof.

Definitions

Section 10. In the construction of this by-law, if not consistent with the context the following terms shall have the respective meanings assigned to them:--"Alteration" shall mean any change or addition in any "Structure", "Cellar" or "Basement" shall mean a lower story, of which one-half or more of the height, from the bottom of the story to the under side of the floor joists of the story next above, is below the mean grade of all the streets, or the mean grade of the natural ground adjoining the building; provided that said grade of the ground is not below the grade of the street at the principal front.

A BUILDING is any structure of which any part is designated or used for human habitation, for a garage, barn or stable, for any manufacturing, industrial, or mercantile purpose, for a place or public resort or assembly or which is used in connection with the storage or sale of petroleum or any of its derivatives or any other structure not hereinbefore described which is more than one story in height or covers an area of more than 200 square feet.

A first class building shall consist of fireproof material throughout, with floors constructed of iron, steel or reinforced concrete beams

filled in between with terra-cotta or other masonry arches or with concrete or reinforced concrete slabs; wood may be used only for under and upper floors, windows and door frames, sashes ,doors, interior finish, hand rails for stairs, necessary sleepers bedded in the cement, and for isolated furrings bedded in mortar. There shall be no air space between the top of any floor arches and the floor boarding.

Second Class Buildings

All buildings not of the first class, the external and party walls of which are of brick, stone, iron, steel, concrete, reinforced concrete concrete blocks, or other equally substantial and fireproof material.

Third Class Buildings

Any building not of the first or second class.

FIRE WALL--A masonry division wall which extends through and at least two feet above the roof and in which all openings are protected by fire doors, or any wall dividing spaces within a building into limited areas for fire protection.

A SHAFT, whether for air, light, elevator, dumb waiter or any other purpose, is an enclosed space within a building, extending to the roof, and covered either by a skylight or by the roof. A vent shaft used solely to ventilate or light water closet compartments or bathrooms.

"External wall" shall mean every outer wall or vertical enclosure of a building, other than a party wall.

"Foundation wall" shall mean that portion of any external wall below the level of the street curb, and that portion of any party wall below the basement floor, and of any wall not on the street, that portion of the wall below the level of the ground, outside of the wall.

"Party wall" shall mean every wall used, or built in order to be used, as a separation of two or more buildings, and any two adjoining buildings shall have a party wall between them.

"Partition wall" shall mean any interior wall of masonry or other material in a building.

"Height of a building" shall mean the distance from the top of outside foundation wall on street to the highest part on roof.

"Repairs" shall mean any reconstruction or renewal of any existing part of a building, or of its fixtures or appurtenances, which does not lessen the strength or increase the fire risk of the building, and is not made in the opinion of the inspector, for the purpose of converting the building in whole or in part into a new one.

"Thickness" of a wall means the minimum thickness of such wall exclusive of air space.

"Under-pinning" means the brick or stone wall from the foundation wall to under side of sill.

Section 11. All roofs on buildings hereafter constructed or altered shall be covered with slate, tile, stone, asbestos shingles or other material approved by the United States Bureau of Standards as incombustible.

Notice To Be Filed of Intended Alterations

Section 12. Every person intending to build or to alter any structure or foundation shall before commencing the same, file an ap-

plication for a building permit with the inspector of buildings, together with the plans and specifications of the intended building or alterations. No permit issued by such inspector, whether for a new building or alterations, shall be in force for a longer time than one year. This shall be in addition to such permits as may be required by the laws of the Commonwealth for specified classes of buildings.

Applications for Lines and Grades

Section 13. In case of public streets or squares, where grade lines are established, any person proceeding to erect or make alteration in the location or grade of any fence, wall or building, which is to abut upon said public street or square, shall first apply to the selectmen for the lines and grade of the street or square upon which he proposes to operate; such application shall be made in writing, at least seven days before the work is to begin, and the selectmen shall within said time furnish the required lines and grade, without charge, if in their power so to do. In default of such application, such persons shall be held to have waived all claim to damages resulting from such default.

Encroachment Upon Street Lines

Section 14. Whenever the selectmen ascertain that any structure placed in violation of the preceding section, encroaches upon the limits of the street, lane, square or alley upon which said structure abuts, they shall forthwith issue an order to the party offending, directing that the structure be removed within the time specified there in, and in case of non-compliance, the selectmen shall cause the incumbrance to be removed at the expense of the delinquent.

Bay-Windows and Other Projections

Section 15. No bay-windows or otherstructure shall be placed on any building so as to project over any public way or square.

Piling

Section 16. When the nature of the ground requires it, all buildings shall be supported on foundation piles not more than three feet apart on centres in the direction of the wall, and the number, diameter and bearing of such piles shall be sufficient to support the superstructure proposed. The inspector shall determine the grades at which the piles shall be cut to insure constant immersion. There shall be not less than two rows under all external and party walls. All piles to be capped with concrete or block granite levellers not less than sixteen inches thick, each leveller having a form bearing on the pile or piles which it covers; under each pier for support of floor-bearing beams not less than three piles shall be used. The inspector may require any applicant for a permit to ascertain by boring the nature of the ground on which he proposes to build.

Section 17. Every wooden building hereafter erected (except where specified in section 21) or altered shall have all parts of sufficient strength to carry the weight of the superstructure; shall be built with sills halved at all intersections. Posts, girts, studs and plates shall be securely braced and nailed. The posts, sills, and girts shall not be less than four by six inches, plates four by four inches or its equivalent, and the studs two by four inches, not more than sixteen inches on centers. Floor-bearing partitions will have studs two by four inches, the bottom resting on girder of not less than six by eight inches, the stud to have a suitable cap, and the studs in the inter

mediate stories to have a footing on the cap. All door openings in excess of three feet will be trussed over same, as also all self-supporting walls and partitions above the first floor. The attic floor may be be supported by a ledger board, cut in the wall studs, but between the studs a two-inch plank, by the width of the stud, shall be cut in to prevent the passage of air. No ceiling timbers above top floor shall be less than 2 x 6. All timbers resting on brick wall shall be cut on a splay, and will have suitable anchor irons on the ends of timbers every ten feet, and a continuous tie made across the wall where the timbers meet by suitable irons, and the opposite end spiked to the outside studs. All headers and trimmers of all openings over four feet square, and all timbers under cross partitions shall have joists double other timbers. In all dwelling houses, the size of floor joists shall not be less than the following:

Clear span of 10 or 11 feet, size of joist 2 x 7.
Clear span of 12 or 13 feet, size of joist 2 x 8.
Clear span of 14 or 15 feet, size of joist 2 x 9.
Clear span of 16 or 17 feet, size of joist 2 x 10.
Clear span of 18 or 20 feet, size of joist 2 x12.

and be placed not more than sixteen inches on centres. All floors with a span of over 12 feet shall be cross bridged. No rafters less than 2 x6 shall be used and they to be laid 24 inches on centers.

Section 18. Every eighth course, at least, of a brick foundation shall be a heading or bonding course; the under-pinning may be bonded every eighth course with Flemish headers; where rubble stone is used one third of the wall shall be laid with through stone well bonded.

Section 19. All stone and brick work shall be laid in lime and cement mortar, no poorer than equal parts of lime and cement, with a proper proportion of sand as will secure thorough adhesion to the materials with which they are to be used, and the building inspector shall condemn all mortars not so made; all to well laid with well-filled joints. Brick when laid shall be wet or dry, as the building inspect- may direct; no light, hard or soft brick to be used. Foundation walls shall not be laid on frozen ground..

Wooden Buildings

Section 20,. Every wooden building hereafter erected, except when specified in section 21. shall have a foundation of rubble stone block granite, concrete, or brick, laid in mortar and carried to the surface of the ground. Every such foundation, if of brick, shall be at least twelve inches thick, with a footing eight inches wider than the wall, and stepped up one foot; if of granite block stone, shall be at least sixteen inches thick; if of rubble stone, shall be at least eighteen inches thick, shall be laid at least four feet below any surface exposed to the frost, and upon the solid ground. Every such wooden building hereafter erected or altered, the sills of which do not rest directly upon a foundation as above described, but on an under-pinning, shall have such under-pinning made of brick or stone or cement block, and if the building is not over two stories high above the highest street level of its principal front, the under-pinning, if of brick, shall be at least eight inches thick; and if the building is of greater height, the under-pinning if of brick, shall be at least twelve inches thick; and if of poured cement from cellar bottom up not less than 10 inches thick, if over two stories high 12 inches thick, every under-pinning, if of stone, shall be at least sixteen inches thick. No concrete

mixture shall be leaner than 1-3-6-,

Section 21. Every such wooden building hereafter erected on soft or marshy land, and used for a work-shop or other like purpose, or as a temporary structure may, if the building inspector approves, rest on mud-sills or blocks, or on piles cut to the height of grade. Wooden buildings to be used as stables, carriage-houses, for the housing of automobiles, or for hen, duck, rabbit or hare-houses, not covering over seven hundred square feet on the ground, and not exceeding fifteen feet in height, may be built without girts or tenoned studs and posts, but in a manner satisfactory to the inspector of buildings.

Section 22. Piers under girders, supporting floor timbers in basement, may be of Iron or Lally Columns or columns of similar type or red cedar, or chestnut of sufficient strength, or brick or concrete not more than nine feet apart; trimmers in the first floor over twelve feet in length shall be supported by a pier or column. Footings for all piers shall set on a firm foundation and have levellers one foot larger than the piers; footings to be not less than twelve inches thick. Piers under porches and piazzas shall have suitable foundations at least four feet below the grade.

Section 23. Wooden buildings built in blocks of two or more dwellings shall have brick walls, not less than twelve inches thick, with a footing course eight inches wider than the wall, and stepped up one foot, ;and carried up to the under side of roof boards; and there shall be a space of four inches between the timbers on each side of wall; the roof boards to be laid and embedded in mortar on wall. Fire-stops or mortar shall be required at the floor and ceiling in each story, on the brick party wall between and flush with the furring. The brick wall to be of merchantable hard bricks, and laid as required for foundation walls in section 19 of this by-law. These brick walls are to be built from the inside of outside wall boarding, and must be corbelled out to the cornice.

In case the projection of the cornice will not admit of corbelling out to make a thorough fire-stop, then the rafters on each side of the wall shall be covered on the sides, and over the planceer board and and back of the gutter fascia, with galvanized iron or zinc, and the space between filled in with non-combustible material. The spaces between such parts of floor joists as rest upon girders, partition heads or sills shall have the spaces filled in solid, between the studs, four inches above the floor, with bricks laid in mortar, or other fire-proof material; the spaces between stringers or stair-cases and joists of landings, unless unceiled, shall be stopped with some incombustible material at two places in every flight of stairs, so as to prevent the passage of air. Fire-stops must be put on each floor, between the floors and chimney. All channels and pockets for gas, water and soil pipes must be made smoke tight at each floor.

Section24. Any building intended for occupancy of more than two families or any building occupied by two families, a portion of which building is used for a store shop, or any mercantile business, shall be a first-class structure.

Section 25. If two or more stores or separate apartments used for any mercantile industry or manufacturing purposes are built in a range, there shall be a brick fire wall at least 12 inches thick and extending at least 8 inches above the roof, covered with a metal, cement or stone capping between each two such stores or apartments and at least each 60 feet as measured on the street line, provided,how-

ever, that where such a structure stands on the corner of two streets. this measurement shall be taken on one of said streets and no building shall have more than 4000 square feet of floor space unless the same is divided by brick firewalls, into units of not more than 4000 square feet, provided nevertheless, that this section shall only apply in cases where the laws of the Commonwealth do not impose the same or greater restrictions.

Section 26. Except as provided in the following section, no third class building shall be constructed within 10 feet of the side or rear line of the lot of land wherein the same is situated.

Section 27. Any building subject to these by-laws shall be set back at least 25 feet from the line of the street on which the same fronts except that in a business district a first or second class building may, by permission of the Board of Selectmen given after public notice of a hearing, be built at a less distance, and further providing that where a building constructed under the provisions of these by-laws is located between two other buildings, both of which were constructed previous to the adoption of these by-laws and which stand within 25 feet of the side-line and both of which are within 50 feet of the proposed building, such new building may be built at a less distance than 25 feet from the street line but no portion of said building may project nearer to the street line than a line connecting the two front corners nearest to each other of the adjacent buildings, and further provided that where a lot comes on the corner of two streets, both of which streets were accepted before the adoption of these by-laws, the Board of Selectmen may permit such building to be built within 5 feet of the sideline on a side opposite to one of said streets.

Section 28. Violation of any section of this article shall be punished by a fine of $100.

External and Party Walls of Brick Dwelling Houses

Section 29. The external walls of all brick dwelling-houses two stories high shall not be less than eight inches thick above the top of first floor ,and not les sthan one foot thick from the top of the foundation to the top of first floor. In all three-story buildings the external walls above the top of first floor shall not be less than one foot thick to top of second floor and sixteen inches thick from the top of foundation to top of first floor. If the buiding is more than sixty feet in height, from the sidewalk to ceiling upper story, the external walls shall not be ess than sixteen inches in the first story, and twelve inches thick above that story. Foundations if of brick shall be four inches thicker than the wal in first story; foundaitons if of block granite shall be six inches thicker than the wall above, and if of rubble stone, shall be ten inches thicker than the wall above, and shall have a footing course of large size stone eight inches wider than the wall; no round or boulder stone shall be used.

All party walls shall not be less than twelve inches thick. All roof or floor timbers entering the same party wall from opposite sides shall have at least four inches solid brick-work between the ends of said timbers.

The ends of all wooden floor or roof beams in dwellings with masonry walls shall enter the wall to a depth of at least four inches, unless the wall is properly corbelled so as to give a bearing of a least four inches; and the ends of all such beams shall be so shaped or arranged that in case of fire they may fall without injury to the wall.

Each floor in dwellings with masonry walls shall have its beams so tied to the walls and to each other with wrought iron straps or anchors at least three eighths of an inch thick by one and one-half inch wide, so as to form continuous ties across the building not more than ten feet apart. Walls running parallel or nearly parallell with floor beams shall be properly tied once in ten feet to the floor beams by iron straps or anchors of the size above specified. Every wooden header or trimmer more than four feet long, carrying a floor load of over seventy pounds per square foot, at connections with other beams, shall be hung in stirrup irons and joint bolted. All tail beams and similar beams of wood shall be framed or hung in stirrup irons. All iron beams shall have proper connections.

Cutting for piping or other purposes shall not be done so as to reduce the strength of the supporting parts below that required by the provisions of this act.

No part of any floor timbers shall be within two inches of any chimney. No studding or furring shall be within one inch of any chimney.

Every brick dwelling over three stories high shall have a sufficient fiire-stop at each floor, covering the whole floor of each story through all stud partitions, and extending to the masonry walls. Every air-duct, except vents, shall be effectualy stopped at each story. Every such fire-stop shall consist of a solid, air-tight cohesive layer, at least one inch thick, of tile, brick, terracotta or like fire-made material, plaster, cement, cinder or ashes, or of a combination of the same, or of equally non-inflammable, non-heat-conducting materials, laid between the upper and under floors, or occuping all the space between the timbers under the under floors. And in all brick dwellings above three stroies in height, and in all brick dwellings occupied as independent apartments or tenements by more than three families, all stairways shall be enclosed in said walls or shafts of non-inflammable material, and all openings in said walls or shafts shall be provided with metal-covered door hung to rabbeted iron frames with iron thresholds. The foot of each partition and of each tier of studding or furring shall be filled solid between the uprights to the full width thereof, and to the height of six inches above the floor, with the same incombustibles as above prescribed for fire-stops, or some combination thereof. The spaces between such parts of the floor joists as rest upon partition heads shall be filled with the materials above required. The spaces between stringers of stair-cases and joists of landings, unless unceiled shall be stopped with some of the incomubstibles above mentioned, at three places at least in every flight of stairs, as to prevent the passage of air.

All new or renewed roofs shall be so constructed as to bear safely, in addition to the weight of the material, twenty-five pounds per superficial foot of area, covered with proper additional allowance for a horizontal wind pressure of thirty pounds per square foot. All thin glass skylights upon roofs shall be covered by a wire netting when in the opinion of the inspector such protection is needed. The roof of every brick building hereafter built shall be covered with tin, iron, slate, gravel, composition, or like substantial roofing material not readily inflammable.

Section 30. All stone wall and brick-work shall be laid as described for foundations in Article 16, except that the external brick walls above the foundation, and the party walls above first floor, may be laid in best lime mortar, and if of face brick, by cutting the corners

and putting in diagonal headers. Fire-stops of mortar shall be required at the floor and ceilings in each story, on party and external walls between and flush with the furring.

Section 31. In no case shall a wood lintel support any brick-work. All window and door openings shall have suitable caps, segmental arches or iron beams. All lintels for store fronts supporting walls shall be of iron, the ends resting on an iron plate in full thickness of the wall. No wood posts shall support any iron beams. Iron posts for any support of walls shall have a bottom iron plate not less than twelve by twelve by two inches.

Openings in Brick Walls

Section 32. No opening or door-way shall be cut throug a party or partition brick wall of any building without a permit from the inspector. Such openings shall be provided with self closing doors of material satisfactory to underwriters hung to rebatted iron frames or to hinges in brick work or from an inclined track.

Construction of Chimneys

Section 33. All chimneys hereafter shall be built of brick, stone or other incombustible material, and shall have a footing of masonry or iron supported by iron or corbels of brick or stone. No chimney shall be hung to an 8-inch wall, or bear or rest upon wood. No chimneys corbelled from a wall shall project more than the thickness of the wall.

All smoke flues built of brick less than 8 inches thick shall be smoothly pastered both inside and outside except where said chimney is not conceaed, in such case plastering on inside will be sufficient, below any woodwork in basement to the entire height of the chimney. All brick vent flues shall be smoothly plastered or cement washed on the inside.

All flues shall be topped out at least four feet above the highest part of the roof at the point through which they pass, with brick or stone, and the topping out shall not have more than two inches projection, unless covered by a cap of improved incombustible material, properly secured; and in no case shall a nail be driven into the masonry of any flue. All woodwork in brick buidings shall be placed distant, one inch, and floor timbers, headers, trimmers, and girders, at least 1½ inches from the outside of every chimney flue. In chimneys with more than two flues the withes shall be constructed of brick laid flatways and bonded every eight courses.

Section 34. **Chimneys Passing Through Floors.** Where chimneys pass through floors they shall be held central in openings by one header projected out at each corner against openings, and there shall be fire-stops of tin, sheet iron or masonry to stop draft through openings and around chimneys on each floor.

Section 35. **Recess on Chimneys.** No chimney shall be corbelled out, but may be corbelled if thoroughly bonded to receive a thimble. All recesses shal be plastered and there shall be a space of not less than six inches between woodwork and thimble, or they shall be made safe in a manner satisfactory to the inspector.

No brick flue shall be built out of plumb beyond its center of gravity.

Section 36. **Flues Not on Foundation Walls, Etc.** Brick flues in dwellings not starting from foundation walls shall rest upon a continuous support of metal or masonry extending to the ground.

Brick flues necessary in buidings other than dwellings, and not starting from the ground, shall be supported in a manner approved by the inspector; and if other than brick, where they pass through the roofs, ceilings, closets, floors, or any woodwork, shall be guarded by a double collar or pipe, with at least three inches air space and holes for ventilation and made safe in a manner satisfactory to the inspector.

When smoke flues are connected with hot water or low pressure steam boilers having a grate area of over eight square feet, bakers ovens, hotel or restaurant ranges, the brick wall enclosing the flue linings shall not be less than eight inches in thickness. When smoke flues are connected with high pressure steam boilers, smelting furnaces and other apparatus which heat the fluest to a similarly high temperature, enclosing brick walls shall not be less than twelve inches in thickness and in pace of the lining, the inside four inches of such walls shall be of fire brick laid in fireclay extending for a distance of not less than twenty-five feet in any direction from the source of heat, and there shall be an air space of at least four inches within all walls not external to the building for the same distance as required for the lining.

Iron cupola chimneys or foundries shall extend at least ten feet above the highest point of any roof within a radius of fifty feet of such cupola, and be capped with a suitable spark arrester. No woodwork shall be placed within two feet of the cupola.

Section 37. **Notice in Case of Unsafe Chimneys, Etc.** If any chimney, flue or heating apparatus shall, in the opinion of the Inspector of Buildings, be unsafe by reason of endangering the premises by fire or otherwise, he shall at once notify in writing the owner, agent or other party having an interest in said premises, who upon receiving said notice shall make them safe, in pursuance of the terms of said notice.

Foundations for Fire-places, Ranges and Grates

Section 38. All hearths shall be supported by trimmer arches or brick. The brick jambs of every fire-place, range or grate opening, and the backs of such openings, shall be at least eight inches thick. All hearths and trimmer arches shall be a least twelve inches longer on either side than the width of said openings, and at least eighteen inches wide in front of the chimney breast. Brick-work fireplaces and grate openings shall be supported by proper by proper iron bars, or brick or stone arches.

Steam Pipes

Section 39. All steam pipes passing through floors or joists shall be procted by an incombustible ring or tube, or rest on iron supports, with air space three-fourths of an inch larger in diameter than the steam pipe.

Protection of Woodwork About Smoke Pipes

Section 40. No smoke pipe shall pass through any wooden partition, without a soapstone ring of the thickness of the partition and extending four inches from the pipe, or a double metal collar of the thickness of the partition, with a ventilated air space of not less than four inches around the pipe; nor shall a smoke pipe be placed within eight inches of any wood unless such wood is plastered and protected by a metal shield two inches distant from the wood. All smoke pipes passing through closets shall have ventilated air space pipes at least four inches larger than the smoke pipe.

Section 41. The smoke pipes of any hot-air, steam, hot-water or

other furnace passing beneath wooden beams or ceilings shall be kept at least eighteen inches therefrom or the wood-work shall be protected by a tin shield suspended at least two inches below said beams or ceiling, in which case the pipe may be placed within eight inches of the beam or ceiling.

Ash Depositories

Section 42. All receptacles for ashes, waste, and other substances liable, by spontaneous combustion or otherwise, to cause a fire, shall be made of incombustible materials, satisfactory to the Inspector of Buildings.

Electric Light Wiring

Section 43. All interior wiring must be made in accordance with the "National Electrical Code," of the National Board of Fire Underwriters.

Fees

Section 44. The following fees will be charged on all building permits issued by the Inspector of Buildings, for the erection and alteration of buildings within the limit of the Town of Weymouth:

First class buildings and second class buildings $15.00
Third class 5.00

Alterations of buildings and the erection of sheds, auto houses and like small buildings, valuation not exceeding $1,000, $1.00.

Fees to accompany the application; to be refunded if permit is not granted.

Selectmen of Weymouth

A true copy, Attest:

EDWARD F. BUTLER,
Constable of Weymouth

RETURN OF SERVICE

Commonwealth of Massachusetts

Norfolk ss. Weymouth, September 15, 1928

I have this day served the within warrant by posting a true copy thereof attested by me in writing in each of two public places in each voting precinct in said Town of Weymouth, seven days before the time of holding said meeting.

EDWARD F. BUTLER
Constable of Weymouth

CERTIFICATE

I hereby certify that a copy of the above warrant was mailed to each Town Meeting Member, seven days before the time of holding the above Town Meeting, according to the provisions of Section 3 of Chapter 61 of the Acts of 1921.

CLAYTON B. MERCHANT
Town Clerk

SPECIAL TOWN MEETING

Pursuant to the foregoing warrant a special meeting of the inhabitants of Weymouth, represented by its duly elected and qualified Town Meeting Members was held at the hall of the Weymouth High School, East Weymouth, on

Monday, the 24th day of September, 1928

The meeting was called to order at 7:45 o'clock in the evening by George L. Barnes, annual moderator in the chair with Emerson R. Dizer, Ass't Town Clerk acting Town Clerk. (148 Town Meeting Members were checked by the Police stationed at the entrances of the hall, 209 Town Meeting Members being elegible). The call for the meeting was read and it was voted: That the further reading of the warant be dispensed with, the Clerk then read the last 3 paragraphs and the attestation of the constable who served the warrant.

Art. 1. Voted that each item under this article be taken up seperately.

Voted: To raise and appropriate the following sums:

1	Legal Department	$300.00
2	Elections & Registrations	650.00
3	Police Department	1,900.00
4	Highways (Permanent Sidewalks)	695.00
5	Charities	2,200.00
6	Soldiers Relief	2,000.00
7	Water Department (Transfer from Revenue of Water Dep't.	3,300.00
8	Municipal Insurance	428.30

Under this item Charles A. Tobin offered the following motion: That all premiums including the above amount be apportioned equally among all agents doing business in the Town of Weymouth.

Charles H Chubbuck moved: That a committee of 3 be appointed by the chair to investigate the method and manner of placing insurance as compared by other towns and make a

report and recommendation at the next town meeting how the Town of Weymouth Insurance shall be placed and who shall participate in same.

George E. Cuniff moved: That a committee of 12 investigate whether or not the Town should carry its own insurance and determine the most advantageous method of carrying insurance on Town property.

Mr. William B. Dasha moved: That no member of the Committee be interested in the insurance business.

These motions were all voted for in the affirmative.

9 Unpaid bills 111.71

Art. 2. Voted: That no action be taken under this article.

Art. 3. Voted: To raise and appropriate the sum of $3,500.00 under this article, same to be expended under the direction of the Superintendent of Streets.

Art. 4. Voted: That no action be taken under this article.

Art. 5. Voted: On motion of William B. Chalke, Jr.,: To raise and appropriate the sum of $3,000.00 to move the portable school building now located on the Pratt School lot to the old Town House lot at the corner of Washington and Middle Streets, and to equip the same for school use.

Art. 6. Voted: To raise and appropriate the sum of $6,000.00 which shall be available for furnishing the new Town Office Building, for decorating the walls thereof, for grading and landscaping the ground adjoining the same, for insurance, and for the expense of dedicating exercises of the building, and care and custody until the Selectmen assume control of the building.

Art. 7. Voted: After completion of the building; That the committee on Town Office be instructed to maintain, until otherwise ordered by the Town, fire insurance upon the New Town Hall in the sum of $10,000, said insurance to be written without any co-insurance clause.

Art. 8. Voted: To raise and appropriate $900.00 for the payment of awards made by the Selectmen under provisions of Chapter 299 of the Acts of 1928, as follows:

Rufus W. Jones, Jr.	$300.00
Thomas Tighe	100.00
Leon Brooks	200.00
Ellen Ahearn	300.00

Art. 9. Voted: To indefinite postponement of the action of this article.

Art. 10 Voted: That the Committee on New Town Office and War Memorial be instructed to present at the Annual Town Meeting recommendations as to the Town's participation in the celebration of the Masaschusetts Bay Terrcentenary, and that until such time they be authorized to act in co-operation with the General Massachusetts Bay Tercentenary Committee, but without power to commit the Town to any expenditures.

Art. 11. Voted unanimously: That the Board of Selectmen be and hereby are authorized to acquire by purchase or take by emenent domain for school purposes a certain lot of land formely owned by Henrietta L. C. Parkhurst containing 59,600 square feet of land, more or less, situated easterly of the Pratt School lot, and bounded northerly by land now or late of Franklin B. and Electa A. Sherman, northeasterly and easterly by land now or late of John E. Inkley and Marg-

aret A. Miller, southerly by land now or late of Margaret A. Miller and westerly by the Pratt School lot belonging to the Town of Weymouth, including the interest of said deceased in the passageway leading to said land, and that the sum of $571.00 be raised and appropriated for the acquisition of said land.

Frank E. Loud and Prince H. Tirrell were appointed as tellers, they were sworn to the faithful of that performance by the moderator.

The tellers reported 119 voting in the affirmative and none in the negative.

Art. 12. Voted unanimously: To raise and appropriate $2,150 and authorize the Board of Selectmen to acquire by purchase or take by right of eminent domain, for drainage purposes and working of same a certain parcel of land situated between Princeton Avenue and Standish Street, bounded northeasterly by land now or late of Charles S. Payson and southwesterly by land now or late of Edward E. Hidgkins et al, said parcel containing 6,000 sq. ft. more or less and now or late owned by Hoyt H. Leland

The tellers reported 115 voting in the affirmative and none in the negative.

Art. 13. Voted: That the Town be authorized to transfer all unexpended balances in appropriations made during the current year for construction and working of new streets, to the general Highway Appropriation.

Art. 14. Voted: To raise and appropriate $400.00 to enlarge the culvert across Evans Street near Bewster Road.

Art. 15. Voted: To raise and appropriate $11,500.00 for a pumping engine in Ward 3 and that the present apparatus be retained for future needs of the Department.

Art. 16. Voted: To raise and appropriate $2.00 the cost of recording deed and authorize the Town to accept the deed from Prince H. Tirrell, surviving Trustee, of land connecting Garey Street, so-called with Legion Memorial Field.

Art. 17. Voted: To take up article 18 with this article.

Motion made that these articles be referred to the next Annual Town Meeting.

The tellers reported 62 in the affirmative and 64 in the negative.

Section 304 of the by-laws is amended by adding thereto the following new paragraphs: A member of a committee may resign therefrom by a writing over his signature filed with the Town Clerk.

Whenever through death, removal from the town, resignation, or other cause, a vacancy occurs on any town committee, the moderator may appoint a suitable person to fill the vacancy. In the case of permanent committees having a fixed term of office the person so appointed shall hold office for the unexpired term of the member whom he replaces.

Voted: These amendments be tentatively adopted.

Art. V. is amended by adding thereto a new section as follows: Before laying out any street for acceptance the Board of Selectmen shall refer the petition to the Town Engineer and Superintendent of Streets for report as to whether the requirements of these By-Laws have been complied with.

Voted: This amendment be tentatively adopted.

Section 511 is amended by striking out in the first line thereof the words "on paper or" and by inserting in place thereof the words "done

in ink on" and by inserting at the end of said section the words "Such plan shall show the property lines for a least fifty feet from the line of the proposed street and the names of the seperative owners as of a date not earlier than September first of the year in which the petition is filed. There shall be filed at the same time a duplicate of said plan, except that the scale may be reduced, made in the manner and in some one of the sizes prescribed under Chapter 150 of the Acts of 1927 for record in the Registry of Deeds Three blue prints of each shall also be filed.

Voted: That this amendment be tentatively adopted.

Section 507 and 508 are each amended by striking out the words and figures "Section 12" and inserting in place the words and figures "Section 511".

Voted: That this amendment be tentatively adopted.

Section 511 is further amended by adding after clause (e) the following new clause: (f) Unless the proposed street, either of itself or in connection with private ways are actually open and passable for travel and are laid out in accordance with these By-Laws and the rules of the Board of Survey constitutes a thoroughfare between two public highways, it shall at its end have a loop whose smallest exterior diameter shall not be less than 100 feet, provided that this requirement shall not apply to a street which does not extend more than 150 feet from its junction with the public highway or to one whose lay-out has been previously specially approved by the Town upon recommendations of the Board of Survey.

Voted: That this amendment be tentatively adopted.

The following new article is inserted:

ARTICLE VIII. SEAL AND FLAG.

Section 801. The seal of the Town shall consist of two concentric circles between them, on the dexter side an axe and spade crossed saltirewise, on the sinister side an Indian bow and two arrows crossed saltirewise thereon, in the upper arc the words and figures "Wessagussett 1622" and in the lower arc in heavier type the words and figures "Weymouth 1635"; the inner circle divided fesswise by a scroll bearing upon its central portion the word "est" upon a dexter flourish the word "Laborare" and upon a sinister flourish the word "vincere" in chief the Holy Bible above a sword and Indian knife crossed salterwise, in base a two-masted schooner with the United States Flag at its main gaff, astern the contour of Grape Island and above the word "Massachusetts", the devise all in their natural color and the outline lettering in gold.

Voted: That the above section be tentatively adopted.

Section 802. When used as an impression seal the above shall be outlined but not blazoned or tricked.

Voted: That the above section be tentatively approved.

Section 803. The present Town Seal shall continue to be the legal seal of the Town so long as its use is continued but representations of the seal made in the future shall conform strictly to the design herein prescribed.

Voted: That the above section be tentatively adopted.

Section 804. The flag of the Town shall be of Navy Blue having in its center the Seal of the Town above a light blue panel outlined in gold and bearing in gold letters the words "Weymouth, Massachusetts" and in four corners in gold the dates "1623", "1675", "1676", "1775".

Voted: That the above section be adopted.

(The above Sections 801-802-803-804 was approved by the Attorney General on December 17, 1928.)

Voted: To adjourn to Monday, October 1, 1928 at the same place, at 7:45 p. m.

EMERSON R. DIZER,
Ass't. Town Clerk

CERTIFICATE

I hereby certify that a notice of the adjournment of the Special Town Meeting was posted in ten places in said Town, also a notice of said adjournment was mailed to each Town Meeting Member at least twenty-four hours before the time of holding said meeting, as provided in Section 3 of Chapter 61 of the Acts of 1921.

CLAYTON B. MERCHANT
Town Clerk

ADJOURNED SPECIAL TOWN MEETING

Weymouth High School October 1, 1928

The adjourned Special Town Meeting of the inhabitants of the Town of Weymouth, represented by its duly elected and qualified Town Meeting Members, was called to order at 7:45 oclock, p. m. by the Town Clrek. Newland H. Holmes was elected Moderator pro-tem and he was sworn to the faithful performance of that duty by the Town Clerk. (109 Town Meeting Members names being checked at the entrance of the hall by police stationed at the doors.)

Frederick G. Bauer moved to reconsider Article 6 of the warrant. Allan C. Emery moved as an amendment that Article 9 be taken up in conjunction with Article 6. The tellers reported 38 voting in the affirmative and 49 in the negative, the motion was not carried. Frederick C. Bauer raised the question of a legal quorum, the tellers reported 108 Town Meeting Members being present, this being doubted a roll call was ordered and 109 Town Meeting Members reported to their names when called by the Town Clerk.

BUILDING LAWS

Article VII

The Appointment of a Building Inspector

Section 701. The Board of Selectmen shall annually, in April, appoint an inspector of buildings, who shall be a voter of the Town of Weymouth, for the term of one year from the first day of May following, or until another is appointed in his stead. Tis salary or compensation shall be such as the Town from time to time may vote.

Voted: That the above section be tentatively adopted.

General Duties of the Inspector

Section 702. The inspector of buildings shall keep a record of said department; submit to the Selectmen a yearly report of such business; ascertain all facts and make all returns which shall be required by law relative to steam boilers or other matters connencted with his department, and enter upon the premises wherein any fire has occurred, if necessary, in order to investigate the origin of the fire. He shall make a report to the chief inspector of buildings of the Commonwealth in the month of May, as provided in Section 45, Chapter 481, Acts of 1894.

Voted: That the above section be tentatively adopted.

Section 703. The inpsector of buildings shall grant permits for the erection or alteration of buildings, and no structures or foundations shall be built or altered without such a permit, but no such permit shall be issued until the inspector has carefully examined the plans and specifications of the proposed building or alteration, and ascertained that the building has sufficient strength, and the means of ingress and egress are sufficient. All structures hereafter to be erected of a description not specified in this ordinance shall be constructed in a manner that shall be satisfactory to the inspector.

Voted: That the above amendment be tentatively adopted.

Section 704. A copy of the plans and specifications of every public building shall be deposited in the office of the inspector.

Voted: That the above Section be tentatively adopted.

Examination of Buildings Being Erected, Repaired, Etc.

Section 705. The inspector of buildings shall examine all buildings in course of erection, alterations or repairs as often as practicable, and for that purpose shall have the right of entry thereto, and shall make a record of all violations of this by-law, together with the location of the building where such violations are found, the name of the owner, lessee, occupants, architect and master mechanic, and all other matters relative thereto.

Voted: That the above section be tentatively adopted.

Buildings Reported Dangerous

Section 706. The said inspector shall examine all buildings reported dangerous, or damaged by accident or fire, and make a record of such examination, including the nature and estimated amount of such damage, with the location of the building, the name of the owner and lessee, and for what purposes occupied, and report the facts to the Board of Selectmen.

Voted: That the above section be tentatively adopted.

Buildings to be Raised

Section 707. He shall examine all buildings under applications to raise, enlarge, alter or build upon, and make a record of the same. These records shall always be open to the inspection of the Engineers of the Fire Department and the Selectmen of the Town.

Voted: That the above section be tentatively adopted.

Alterations, Repairs and Additions, Subject to this By-Law

Section 708. Any alterations, repairs or additions to any building already erected or hereafter to be built, except necessary repairs, not effecting the construction of the extrenal or party walls, chimneys or stairways, to the extent of such work, shall be subject to the regulations of this by-law.

Voted: that the above section be tentatively adopted.

Section 709. No building already erected, or hereafter built, shall be raised or built up in such manner that, were such building wholly built or constructed after the passage of this by-law, it would be in violation of any provision thereof.

Voted: That the above section be tentatively adopted

Definitions

Section 710. In the construction of this by-law, if not consistent with the context the following terms shall have the respective meanings assigned to them:—"Alteration" shall mean any change or addition

in any "Structure"; "Cellar" or "Basement" shall mean a lower story, of which one-half or more of the height, from the bottom of the story to the under side of the floor joists of the story next above, is below the mean grade of all the streets, or the mean grade of the natural ground adjoining the building, provided that said grade of the ground is not below the grade of the street at the principal front.

A building is any structure of which any part is designated or used for human habitation, for a garage, barn or stable, for any manufacturing, industrial, or mercantile purpose, for a place of public resort or assembly or which is used in connection with the storage or sale of petroleum or any derivatives or any other structure not hereinbefore described which is more than one story in height or covers an area of more than 200 square feet.

First Class Buildings

A first-class building shall consist of fireproof material throughout, with floors constructed of iron, steel or re-infoced concrete beams, filled in between them with terra-cotta or other masonry aches or with concrete or re-inforced concrete slabs; wood may be used for under and upper floors, windows and door frames, sashes, doors, interior finish, hand rails for stairs, necessay sleepers bedded in the cement, and for isolated furrings bedded in mortar. There shall be no air space between the top of any floor arches and the floor boarding.

Second Class Buildings

All buildings not of the first class, the external and party walls of which are of brick stone, steel, concrete, re-inforced concrete blocks or other equally substantial fireproof material.

Third Class Buildings

Any building not of the first or second class.

"Fire Wall"—A masonary wall which extends through and at least two feet above the roof and in which all openings are protected by fire doors, or any wall dividing space within a building into limited areas for fire protection.

"A Shaft"—Whether for air, light, elevator, dumb waiter or any other purpose, is an enclosed space within a building, extending to the roof, and covered either by a skylight or by the roof. A vent shaft used solely to ventilate or light water closet compartments or bathrooms.

"External Walls" shall mean every outer wall or vertical inclosure of a building, other than a party wall.

"Foundation Wall" shall mean that portion of any external wall below the level of the street curb, and that portion of any party wall below the basement floor, and of any wall not on the street, that portion of the wall below the level of the ground, outside of the wall.

"Party Wall" shall mean every wall used, or built in order to be used, as a separation of two or more buildings, and any two adjoining buildings shall have a party wall between them.

"Partition Wall" shall mean any interior wall of wasonary or other material in a building.

"Height of Building" shall mean the distance from the top of the foundation wall on the street to the highest part on roof.

"Repairs" shall mean any reconstruction or renewal of any of the existing part of a building, or any of its fixtures, which does not lessen

the strength or increase the fire risk of a building, and is not made in the opinion of the inspector, for the purpose of converting the building in whole or in part into a new one.

"Thickness" of a wall means the minimum thickness of such exclusive of air space.

"Under-pinning" means the brick work or stone wall from the foundation to underside of sill.

Voted: That the above section be tentatively adopted.

Section 711. All roofs on buildings hereafter constructed or altered shall be covered with slate tile, stone, asbestos shingles or other material approved by the United States Bureau of Standards as incombustible.

Voted: That the above section be tentatively adopted.

Notice to be Filed of Intended Alterations

Section 712. Every person intending to build, or to alter any structure shall before commencing the same, file an application for a building permit with the inspector of buildings, together with plans and specifications of the intended building or alterations. No permit issued by such inspector whether for a new building or alterations, shall be in force for a longer time than one year.

This shall be in addition to such permits as may be reqquired by the Laws of the Commonwealth for specified classes of buildings.

Voted: That the above section be tentatively adopted.

Applications for Lines and Grades

Section 713. In case of public streets or squares, where grade lines are established, any person proceeding to erect or make alterations in the location or grade of any fence, wall or building, which is to abut upon said public street or square, shall first apply to the Selectmen for the lines and grades of the street or square upon which he proposes to operate; such application shall be made in writing, at least seven days before the work is to begin, and the Selectmen shall, within said time, furnish the required lines and grade, without charge, if in their power so to do. In default of such application, such person shall be held to have waived all claim to damage resulting from such default.

Encroachments Upon Street Lines

Section 714. Whenever the Selectmen ascertain that any structure, placed in violation of the preceding section, encroaches upon the limits of the street, lane, square or alley upon which said structure abuts, they shall forthwith issue an order to the party offending, directing that the structure be removed within the time specified therein, and in case of non-compliance, the Selectmen shall cause the incumbrance to be removed at the expense of the delinquent.

Voted: That the above section be tentatively adopted.

Bay Window and Other Projections

Section 715. No bay-windows or other structures shall be placed on any building so as to project over any public street or square.

Votde: That the above section be tentatively adopted.

Piling

Section 716. When the nature of the ground requires it, all build-

ings shall be supported on foundation piles not more than three feet apart on centres in the direction of the wall, and the number, diameter and bearing of such piles shall be sufficient to support the superstructure proposed. The inspector shall determine the grades at which the piles shall be cut to insure constant immersion.

There shall be not less than two rows under all external and party walls.

All piles to be capped with concrete or block granite levellers not less than sixteen inches thick, each leveller having a form bearing on the pile or piles which it covers; under each pier for support of floor-bearing beams not less than three piles shall be used. The inspector may require any applicant for a permit to ascertain by boring the nature of the ground on which he proposes to build.

Voted: That the above section be tentatively adopted.

Section 717. Every wooden building hereafter erected (except where specified in Section 721) or altered shall have all parts sufficient strength to carry the weight of the superstructure; shall be built with sills halved at intersections; posts and plates shall be securely braced and nailed. The posts, sills and girts shall not be less than four by six inches, plates four by four inches or its equivalent, and the studs two by four inches, not more than sixteen inches on centers. Floor-bearing partitions will have studs two by four inches, the bottom resting on girders of not less than six by eight inches, the stud to have a suitable cap, and the studs in the intermediate stories to have a footing on the cap. All door openings in excess of three feet will be trussed on the same, as also all self-supporting walls and partitions above the first floor.

The attic floor may be supported by a ledger board, cut in the wall studs, but between the studs a two inch plank, by the width of the stud, shall be cut in to prevent the passage of air. No ceiling timbers above the top floor shall be less than 2x6. All timbers resting on brick walls shall be cut on a splay, and will have suitable anchor irons on the ends of itmbers every two feet, and a continuous tie made across the wall where the timbers meet by suitable irons, and the opposite end spiked to the outside studs. All headers and trimmers of all openings every four feet square, and all timbers under cross partions shall have joists double other timbers. In all dwelling houses, the size of the floor joists shall not be less than the following:

Clear span of 10 or 11 feet, size of joist 2x7
Clear span of 12 or 13 feet, size of joist 2x8
Clear span of 14 or 15 feet, size of joist 2x9
Clear span of 16 or 17 feet, size of joist 2x10
Clear span of 18 or 20 feet, size of joist 2x12

and be placed not more than sixteen inches on centers. All floors with a span of over 12 feet shall be crossed bridged. No rafters less than 2x6 shall be used and they shall be laid 24 inches on centers.

Voted: That the above section be tentatively adopted.

Section 718. Every eighth course, at least, of a brick foundation shall be a heading or bonding course; under-pinning may be bonded every eighth course with Flemish headers; where rubble stone is used, one-third of the wall shall be laid with through stone well bonded.

Voted: That the above section be tentatively adoptde.

Section 719. All stone and brick work shall be laid in lime and cement mortar, no poorer than equal parts of lime and cement, with a

proper proportion of sand as will secure thoough adhesion to the materials with which they are to be used, and the building inspector shall condemn all mortars not so made.

Brick when laid shall be wet or dry, as the building inspector may direct; no light, hard or soft brick may be used. Foundation walls shall not be laid on frozen ground.

Voted: That the above section be tentatively adopted.

Wooden Buildings

Section 720. Every wooden building hereafter erected, except when specified in section 721, shall have a foundation of rubble stone, block granite, concrete or brick, laid in mortar and carried to the surface of the ground. Every such foundation, if of brick, shall be at least twelve inches thick, with a footing eight inches wider than the wall, and stepped up one foot; if of granite block stone, shall be stepped at least sixteen inches thick; if of rubble stone, shall be at least eighteen inches thick, shall be laid at least four feet below any surface exposed to the frost, and open upon the solid ground. Every such wooden building hereafter erected or altered, the sills of which do not rest directly upon a foundation as above described, but on an under-pinning, shall have such under-pinning made of brick or stone or cement block, and if the building is not over two stories high above the highest street level of its principal front, the under-pinning, if of brick, shall be at least eight inches thick; and if the building is of greater height, the under-pinning, if of brick, shall be not less than twelve inches thick; and if of poured cement from cellar bottom up not less than ten inches thick, if over two stories high twelve inches thick, every under-pinning, if of stone, shall be at least sixteen inches thick. No concrete mixture shall be leaner than 1—3—6.

Voted: That the above section be tentatively adopted.

Section 721. Every such wooden building hereaftre erected on soft marsh land, and used for a work-shop or other like purpose, or as a temporary structure may, if the building inspector approves, rest on mud-sills or blocks, or on piles cut to the height of grade. Wooden buildings to be used as stables, carriage-houses, for the housing of automobiles, or for hen, duck, rabbit or hare houses, not covering over seven hundred square feet on the ground, and not exceeding fifteen feet in height, may be built without girst or tenoned studs and posts, but in a manner satisfactory to the inspector of buildings.

Voted: That the above section be tentatively adopted.

Section 722. Piers under girders, supporting floor timbers in basement, may be of Iron or Lally Columns or columns of similar type or red cedar, or chestnut of sufficient strength, or brick or concrete not more than nine feet apart; trimmers in first floor over twelve feet in length shall be supported by a pier or column. Footings for all piers shall be set on a firm foundation and have levellers one foot longer than the pier; footings to be not less than twelve inches thick. Piers under porches or piazzas shall have suitable foundations at least four feet below the grade.

Voted. That the above section be tentatively adopted.

Section 723. Wooden buildings built in blocks of two or more dwellings shall have brick walls, not less than twelve inches thick, with a footing course eight inches wider than the wall, and stepped up one

foot, and carried up to the under side of the roof boards, and there shall be a space of four inches between the timbers on each side of the wall; the roofboards to be laid and embedded in mortar on wall. Fire-stops or mortar shall be required at the floor and ceiling in each story, on the brick party wall between and flush with the furring. The brick wall to be of merchantable hard brick, and laid as required for foundation walls in section 719 of this by-law. These brick walls are to be built from the inside of outside wall boarding and must be corbelled out to the cornice. In case the projection of the cornice will not permit of corbelling out to make a thorough fire-stop, then the rafters on each side of the wall shall be covered on the sides, and over the planceer board and back of the gutter fascia, with galvanized iron or zinc, and the space between filled in with non-combustible material. The space between such parts of floor joists as rest on girders, partition heads or sills shall have the space filled in solid, between the studs, four inches above the floor, with bricks laid in mortar, or other fire-proof material; the spaces between stringers or staircases and joists of landings, unless unceiled, shall be stopped with some incombustible material at two places in every flight of stairs, so as to prevent the passage of air. Fire-stops must be put on each floor, between the floors and chimney. All channels and pockets for gas, water and soil pipe must be made smoke tight at each floor.

Voted: That the above section be tentatively adopted.

Section 724. Any building intended for occupancy of more than two families or any building occupied by two families, a portion of which building is used for a store, shop or any mercantile business shall be a first-class structure.

Voted: That the above section be tentatively adopted.

Section 725. If two or more stores or separate apartments used for any mercantile industry or manufacturing purposes are built in a range, there shall be a brick fire-wall at least 12 inches thick and extending at least 2 feet above the roof, covered with a metal, cement, or stone capping between each two stores or apartmnts, and at least 60 feet as measured on the street line, provided, however, that where such a structure stands on the corner of two streets this measurement shall be taken on one of said streets and no building shall have more than 4,000 square feet of floor space, unless the same is divided by brick fire walls, into units of not more than 4,000 square feet, provided nevertheless, that this section shall only apply in case where the laws of the Commonwealth do not impose the same or greater restrictions.

Voted: That the above section be tentatively adopted, after amending the words (2 feet) instead of 8 inches as in the original section.

Distance from Lot Line

Section 726. No portion of a building, except the eaves of a roof, or water spout, of the third class hereafter erected, enlarged, or placed, shall be nearer (5) five feet to the boundary line of the lot on which it stands, or to any other building of the first or second class, or neaarer than (10) ten feet to any other building of the third class on the same lot, unless such wall is made of brick, cement, concrete or equally substantial and approved fire-proof material.

Voted: That the above section be tentatively adopted, after amending the original motion as printed in the warrant.

Secion 727. Any building subject to these by-laws shall be set

back 18 feet (amended from 25 feet in the warrant) from the line of the street on which the same fronts except that in a business district a first or second class building may, by permission of the Selectmen given after a public notice and hearing, be built at a less distance, and further providing that where a building constructed under the provisions of these by-laws is located between two other buildings, both of which were constructed previous to the adoption of these by-laws and stand 18 feet on the side line and both of which are within 50 of the proposed building, such new building may be built at a less distance than 18 feet from the street line, but no portion of said building shall project nearer to the street line than a line connecting the two front corners nearest to each other of the adjacent buildings, and further provided that where a lot comes to the corner of two streets, both of which streets were accepted before the adoption of these by-laws, the Board of Selectmen may permit such building to be built within 5 feet of the side line on a side opposite to one of said streets.

Voted: That the above section be tentatively adopted.

Section 728. Violation of any section of this article shall be punished by a fine of $100.

Voted: That the above section be tentatively adopted.

Voted: To adjourn to Monday, October 8, 1928 at the same place and at the same time as this meeting was called to order.

CLAYTON B. MERCHANT
Town Clerk

CERTIFICATE

I hereby certify that a notice of adjournment of the Special Town Meeting was posted in ten public places in said Town, also a notice of said adjournment was mailed to each Town Meeting Member at least twenty-four hours before the time of holding said meeting, as provided in Section 3 of Chapter 61 of the Acts of 1921.

CLAYTON B. MERCHANT
Town Clerk

ADJOURNED SPECIAL TOWN MEETING

Weymouth, October 8, 1928

The adjourned Special Town Meeting of the inhabitants of the Town of Weymouth, represented by its duly elected and qualified Town Meeting Members was called to order at 7:45 o'clock p. m. by George L. Barnes, annual moderator, (132 Town Meeting Members being present).

External and Party Walls of Brick Dwelling Houses

Section 729. The external walls of all brick dwelling-houses two stories high shall not be less than one foot thick from the top of the foundation to the top of first floor. In all three-story buildings the external walls above the top of first floor shall not be less than one foot thick to the top of second floor and sixteen inches thick from the top of foundation to top of first floor.

If the building is more than sixty feet in height from the sidewalk to the ceiling of upper story, the external walls shall not be less than sixteen inches in the first story, and twelve inches thick above that story. Foundations if of brick shall be four inches thicker than the

wall in first story; foundations if of block granite shall be six inches thicker than the wall above, if of rubble stone that it be ten inches thicker than the wall above, and shall have a footing course of large size stone eight inches wider than the wall; no round or boulder stone shall be used. All party walls shall not be less than twelve inches thick. All roof or floor timbers entering the same party wall from opposite walls shall have at least four inches solid brick-work between the end of said timbers. The ends of all wooden or roof beams in dwellings with masonary walls shall enter the wall to a depth of at least four inches, unless the wall is properly corbelled so as to give a bearing of at least four inches; and the ends of all such beams shall be so shaped or arranged that in case of fire they may fall without injury to the wall. Each floor in dwellings with masonary walls shall have its beams so tied to the walls and to each other with wrought iron straps or anchors at least three-eighths of an inch by one and one-half inch wide, so as to form continuous ties across the building not more than ten feet apart. Walls running parallel or nearly paralell with floor beams shall be properly tied once in ten feet to the floor beams by iron straps or anchors of the size above specified. Every wooden header or trimmer more than four feet long, carrying a floor load of over seventy pounds per square foot, at connections with other beams, shall be hung in stirrup irons and joint bolted. All tail beams and similar beams of wood shall be framed or hung in stirrup irons. All iron beams shall have proper connections. Cutting for piping or other purposes shall not be done so as to reduce the strength of the supporting parts below that are required by the provisions of this act. No part of any floor timbers shall be within two inches of any chimney. No studding or furring shall be within one inch of any chimney.

Every brick building over three stories high shall have a sufficient fire-stop at each floor, covering the whole floor of each story through all stud partitions, and extending to the masonary walls. Every air-duct, except vents, shall be effectually stopped at each story. Every such fire-stop shall consist of a solid, air-tight cohesive layer, at least one inch thick, of tile, brick, terra-cotta or like fire-made material, plaster, cement, cinder or ashes or of a combination of the same or of equally non-inflamable, non-heat-conducting materials, laid between the upper and under floors, or occupying all the space between the timbers under the under floors. And in all brick dwellings above three stories in height, and in all brick buildings occupied as apartments or tenements by more than three families, all stairways shall be enclosed in walls or shafts of non-inflamable material, and all openings in said walls or shafts shall be provided with metal-covered doors hung to rabetted iron frames with iron thresholds.

The foot of each partition and of each tier of studding or furring shall be filled solid between the uprights to the full width thereof, and to the height of six inches above the floor, with the same incombustibles as above prescribed for fire-stops, or some combination thereof. The spaces between such parts of the floor joists as rest upon partition heads shall be filled with the materials above required. The spacse between stringers of stair-cases and joists of landings, unless unceiled, shall be stopped with some of the incombustibles above mentioned, at three places at least in every flight of stairs, so as to prevent the passage of air. All renewed or renewed roofs shall be constructed as to bear safely, in addition to the weight of the material, twenty-five pounds per superficial foot of area, covered with proper additional allowance

for a horizontal wind pressure of thirty pounds per square foot All thin glass skylights upon roofs shall be covered with a wire netting when in the opinion of the inspector such protection is needed. The roof of every brick building shall be covered with tin, iron, slate, gravel, composition or like substantial roofing material not readily inflamable.

Voted: That the above section be tentatively adopted.

Section 730. All stonewalls and brick work shall be laid as described for foundations in Section 716, except that the external brick walls above the foundation, and the party walls above the first floor, may be laid in best lime mortar, and if of face brick, by cutting the corners and putting diagonal headers. Fire-stops of mortar shall be required at the floor and ceiling in each story on party and external walls and flush with the furring.

Voted: That the above section be tentatively adopted.

Section 731. In no case shall a wodd lintel support any brick work. All window and door openings shall have suitable caps, segmental arches and iron beams. All lintels for store fronts supporting walls shall be of iron, the ends resting on an iron plate the full thickness of the wall. No wood posts shall support any iron beams. Iron posts for any support of walls shall have a bottom plate not less than twelve inches.

Voted: That the above section be tentatively adopted.

Voted: On motion of William B. Dasha: That Section 727 be reconsidered.

Mr. Dasha moved as an amendment that the figures 15 be inserted in place of the figures 25 where appearing in this section.

Mr. Stanley Heald moved as a substitute motion that the set back in this section be such as established by Building Inspector, Town Engineer and Selectmen.

Mr. George E. Cuniff moved as an amendment that the set back in this section be 18 feet.

The tellers reported 32 voted in the affirmative and 67 in the negative.

After quite a discussion on this section Mr. Thomas J. Kelley, chairman of the Building Laws Committee moved that whenever the figures 25 appear in this section they be changed to read 18.

The tellers reported 80 voting in the affirmative and 14 in the negative.

Voted: That this section be tentatively adopted (see Section 727).

Openings in Brick Walls

Section 732. No opening or doorway shall be cut through a party or partition brick wall of any building without a permit from the inspector. Such openings shall be provided with self closing doors of material satisfactory to underwriters hung to rebatted iron frames or to hinges in brick work or from an inclined track.

Voted: That this section be tentatively adopted.

Construction of Chimneys

Section 733. All chimneys hereafter shall be built of brick, stone, or other incombustible material, and shall have a footing of masonary or iron suported by iron or corbels of brick or stone. No chimney

shall be hugn to an 8 inch wall, or bear or rest upon wood. No chimney corbelled from a wall shall project more than the thickness of the wall. All smoke flues of brick less than 8 inches thick shall be smoothly plastered both inside and outside except where said chimney is not concealed, in such case plastering on inside will be sufficient, below any woodwork in basement to the entire height of the chimney. All brick vent flues shall be smoothly plastered or cement washed on the inside. All flues shall be topped out at least from four feet above the highest part of the roof at the point through which they pass, with brick or stone, and the topping out shall have more than two inches projection unless covered by a cap of improved incombustible material, properly secured, and in no case shall a nail be driven into the masonary of any flue. All woodwork in brick buildings shall be placed, one inch, and floor timbers, headers, trimmers, and girders, at least 1½ inches frmo the outside of every chimney flue. In chimneys with more than two flues the withes shall be constructed of brick laid flatways and bonded every eighth course.

Voted: That the above section be tentatively adopted.

Chimneys Passing Through Floors

Section 734. Where chimneys pass through floors they shall be central in openings by one header projected out at each corner against openings and there shall be fire-stops of tin, sheet iron or masonary to stop draft through openings around chimneys on each floor.

Voted: That the above section be tentatively adopted.

Recess in Chimneys

Section 735. No chimney shall be corbelled out, but may be corbelled if thoroughly bonded to receive a thimble. All recesses shall be plastered and there shall be a space of not less than six inches between woodwork and thimble, or they shall be made safe in a manner satisfactory to the inspector.

Voted: That the above section be tentatively adopted.

Flues Not on Foundation Walls, Etc.

Section 736. Brick flues in dwellings not starting from foundation walls shall rest on a continuous support of metal or masonary extending to the ground. Brick flues necessary in buildings other than dwellings, and not starting from the ground, shall be supported in a manner approved by the inspector; and if other than brick, where they pass through the roofs, ceilings, closets, floors, or any woodwork, shall be guarded by a double collar or pipe, with at least three inches air space and holes for ventilation and made safe in a maner satisfactory to the inspector. When smoke flues are connected with hot or low pressure steam boilers having a grate area of over eight square feet, bakers ovens, hotel or restaurant ranges, the brick wall inclosing the flue linings shall not be less than eight inches in thickness. When smoke flues are connected with high pressure boilers, smelting furnaces and other apparatus which heat the flues to a similarly high temperature, enclosing brick walls shall not be less than twelve inches in thickness and in place of the lining, the inside four inches of such walls shall be of fire brick laid in fire clay extending for a distance of not less than twenty-five feet in any direction from the source of heat, and there shall be an air space of at least four inches within all walls not external to the building for the same distance as required for the

lining. Iron cupola chimneys or foundries shall extend at least two feet above the highest point of any roof within a radius of fifty feet of such cupola, and be capped with a suitable spark arrester. No woodwork shall be placed within two feet of the cupola.

Voted: That the above section be tentaitvely adopted.

Notice in Case of Unsafe Chimneys, Etc.

Section 737. If any chimney, flue or heating apparatus shall, in the opinion of the inspector of buildings, be unsafe by reason of endangering the premises by fire or otherwise, he shall at once notify in writing the owner, agent or other party having an interest in said premises, who upon receiving said notice shall make the same safe, in pursuance of the terms of said notice.

Voted: That the above section be tentatively adopted.

Foundations for Fireplaces, Ranges and Grates

Section 738. All hearths shall be supported by trimmer arches or brick. The brick jams of every fireplace, range or grate opening, and the back of such openings, shall be at least eight inches thick. All hearth and trimmer arches shall be at least twelve inches longer on either side than the width of said openings, and at least eighteen inches wide in front of the chimney breast. Brick-work over fireplaces and grate openings shall be supported by proper iron bars or brick or stone arches.

Voted: That the above section be tentatively adopted.

Steam Pipes

Section 739. All steam pipes passing though floors or joists shall be protected by an incombustible ring or tube, or rest on iron supports, with air space three-fourths of an inch longer in diameter than the steam pipe.

Voted: That the above section be tentatively adopted.

Protection of Woodwork About Smoke Pipes

Section 740. No smoke pipe shall pass through any wooden partition, without a soapstone ring of the thickness of the partition and extending four inches from the pipe, or a double metal collar of the thickness of the partition, with a ventilated air space of not less than four inches around the pipe; nor shall a smoke pipe be placed within eight inches of any wood unless such wood is plastered and protected by a metal shield two inches distant from the wood, in which case the smoke pipe shall not be less than six inches from the wood. All smoke pipes passing through closets shall have ventilated air space pipes at least four inches longer than the smoke pipe.

Voted: That the above section be tentatively adopted.

Section 741. The smoke pipes of any hot-air, steam, hot-water or other furnace passing beneath wooden beams or ceilings shall be kept at least eighteen inches therefrom, or the woodwork shall be protected by a tin shield suspended at least two inches below said beams or ceiling, in which case the pipe may be placed within eight inches of the beam or ceiling.

Voted: That the above section be tentatively adopted.

Ash Depositories

Section 742. All receptacles for ashes, waste, and other substances liable, by spontaneous combustion or otherwise to cause a fire shall be

made of incombustible materials, satisfactory to the Inspector of Buildings.

Voted: That the above section be tentatively adopted.

Electic Light Wiring

Section 743. All interior wiring must be made in accordance with the "National Electric Code" of the National Board of Fire Underwriters.

Voted: That the above section be tentatively adopted.

Fees

Section 743. The following fees will be charged on all building permits issued by the Inspector of Buildings, for the erection and alterations of buildings within the limits of the Town of Weymouth:

First Class Buildings and Second Class Buildings	$15.00
Third Class Buildings	5.00
Alterations of Buildings and the erection of sheds, auto-houses and like small buildings, not exceeding $1,000.	1.00

Fees to accompany the application; refunded if permit is not granted.

Voted: That the above section be tentatively adopted.

Board of Appeal

Section 745. A Board of Appeal is herby created and shall consist of three residents of the town appointed by the Board of Selectmen who shall designate the chairman, including always one Selectman, the Town Counsel and the Town Engineer. Vacancies shall be filled in the same manner in which the original appointments are made. Any person applying for a building permit who desires to be relieved from the operation of any of the provisions of this code may make application in writing to the Inspector of Buildings, specifying in detail what exceptions are desired and the reason therefor. Said application with the written explanations, specifications, maps etc, relating thereto shall be submitted, by the Inspector of Buildings, to the Board of Appeal; and if unanimously approved by them, the Inspector of Buildings shall issue a permit for the same. If disapproved by any one of the above named officials then the application with the dissenting officials reason shall be submitted to the Selectmen, which body by vote of two-thirds of its members present and voting shall approve or disapprove the application.

Voted: That the above section be tentatively adopted.

Mr. William B. Dasha moved to reconsider section 701.

Mr. Dasha then moved that the Inspector of Buildings shall be a resident of the Town of Weymouth.

Mr. John MacDonald amended the above motion that the Inspector of Buildings shall be a registered voter of the Town of Weymouth, the motion as amended was so voted (as recorded under section 701).

Mr. Melville F. Cate moved and it was so voted: That when approved by the Attorney General of the Commonwealth, the Selectmen appoint an Inspector of Buildings until the first day of May following.

Voted: That these By-Laws as amended and recorded above be adopted by the Town of Weymouth.

Voted: That the numbering of these sections be from 701 to 745 inclusive, Article 7 of the By-Laws of the Town.

Meeting adjourned.

Attest: CLAYTON B. MERCHANT
Town Clerk

SPECIAL PRIMARY

COMMONWEALTH OF MASSACHUSETTS

NORFOLK, ss.

To either of the Constables of the Town of Weymouth.
GREETING:

In the name of the Commonwealth of Massachusetts you are herby required to notify and warn said inhabitants of Weymouth quafified to vote in primaries, to meet at the polling places in their respective precincts, to wit: In precincts 1-3-5 and 6 in the halls of the fire engine houses located in those precincts rspectively; in precinct 2 at G. A. R. hall; in precinct 4 at the building of the Citizens' Association, Inc., on Front Street; in precinct 7 at the Lovell's Corner Improvement Building on Washington Street; in precinct 8 at the Weymouth Heights Club Building on North Street,

TUESDAY, THE TWENTY-THIRD OF OCTOBER, 1928

at Three o'clock p. m. for the following purpose:

To bring in their votes to the Primary Officers for the nomination of a Candidate of Political Parties for the following office:

Representative in Congress (to fill vacancy) for the 14th Congressional District.

The polls will be open from 3 to 8 p. m.

And you are directed to serve this warrant by posting attested copies thereof seven days at least before the time of holding said meeting as directed by vote of the town.

Hereof fail not and make return of this warrant with your doings thereon to the Town Clerk of said town on or before the nineteenth day of October, A. D., 1928.

Given under our hands this 15th day of October, A. D., 1928.

H. FRANKLIN PERRY,
WINSLOW M. TIRRELL,
FRED E. WAITE,
EDWIN R. SAMPSON,
WILLIAM B. CHALKE, Jr.,
Selectmen of Weymouth.

A true copy, Attest:
EDWARD F. BUTLER,
Constable of Weymouth.

RETURN OF SERVICE

COMMONWEALTH OF MASSACHUSETTS

Weymouth, October 15, 1928.

NORFOLK, ss.

Pursuant to the within warrant I have this day notified the inhabitants of Weymouth aforesaid to meet at the respective places and times for the purpose set forth in said warrant by posting true and attested copies of the same in each precinct as therein directed.

EDWARD F. BUTLER,
Constable of Weymouth.

WARRANT FOR A STATE ELECTION
COMMONWEALTH OF MASSACHUSETTS

NORFOLK, ss.

To either of the Constables of the Town of Weymouth.

GREETING:

In the name of the Commonwealth of Massachusetts you are hereby required to notify and warn the inhabitants of Weymouth aforesaid, qualified to vote in elections, to meet at the polling places in their precincts to wit. Precincts 1-3-5 and 6 in the halls of the Fire Engine Houses located in those precincts respectively; in Precinct 2, G. A. R. Hall; Precinct 4 at the building of the Citizens' Association Inc., on Front Street in Precinct 7, at the Lovells Corner Improvement Association Building on Washington Street; Precinct 8, at the Weymouth Heights Club Building on North Street, on

TUESDAY THE SIXTH DAY OF NOVEMMER, 1928

at 10 a. m. then and there to bring in to the election officers their votes on one ballot for the following named public officers, to wit:

Eighteen electors of President and Vice-President; Governor, Lieutnant-Governor, Secretary, Treasurer, Auditor, Attorney-General, Senator in Congress, Congressman, Congressman (to fill vacancy), Councillor, Senator, Representative in General Court, County Commissioners (2), County Commissioner (to fill vacancy), Clerk of Courts and Register of Deeds and also, to vote "Yes" or "No" on the following Question:

Referendum Question. Shall the proposed law which provides that it shall be lawful in any city which accepts the act by vote of its city council and in any town which accepts the act by vote of its inhabitants, to take part in or witness any athletic outdoor sport or game, except horse racing, automobile racing, boxing or hunting with firearms, on the Lord's day between 2 and 6 P. M. that such sports or games shall take place on such playgrounds, parks or other places as may be designated in a license issued

by certain licensing authorities; that no sport or game shall be permitted in a place other than a public playground or park within one thousand feet of any regular place of worship; that the charging of admission fees or the taking of collections or the receiving of renumeration by any person in charge of or participating in any such sport or game shall not be prohibited; that the license may be revoked; and that in cities and towns in which amateur sports or games are permitted under existing law such amateur sports or games may be held until the proposed law is accepted or the provisions of the existing law fail of acceptance on resubmission to the people, which law was disapproved in the Senate by a vote of 9 in the affirmative and 22 in the negative, and in the House of Representatives by a vote of 93 in the affirmative and 110 in the negative, be approved?

The polls will be open at ten o'clock in the forenoon and close at eight o'clock in the evening.

And you are directed to serve this warrant by posting attested copies thereof seven days at least before the time of holding said meeting as directed by vote of the town.

Hereof fail not and make return of this warrant with your doings thereon to the Town Clerk of said town on or before the second day of November, in the year of our Lord 1928.

H. FRANKLIN PERRY,
WINSLOW M. TIRRELL,
FRED E. WAITE,
EDWIN R. SAMPSON,
WILLIAM B. CHALKE, Jr.,
Selectmen of Weymouth.

A true copy, Attest:
EDWARD F. BUTLER,
Constable of Weymouth.

RETURN OF SERVICE
THE COMMONWEALTH OF MASSACHUSETTS

Weymouth, October 29, 1928

NORFOLK, ss.

Pursuant to the within warrant I have this day notified the inhabitants of Weymouth, aforesaid to meet at the respective places and times set forth in said warrant by posting true and attested copies of the same in each precinct in said town as therein directed.

EDWARD F. BUTLER,
Constable of Weymouth.

CLAYTON B. MERCHANT,
Town Clerk.

PETITNON FOR RECOUNT

December 7, 1928.

To the Board of Registrars:

We, the undersigned voters of Weymouth, Mass., represent that we have reason to believe and do believe that the returns of the Election Officers of the said Weymouth, Mass., of the votes cast at the Election on November 6, 1928, for the office of Governor are erroneous in this respect: that Frank G. Allen was credited with more and Charles H. Cole with less votes than were actually cast for them; and we believe a recount of the votes in the said Ward or Town will effect the election of one or more candidates at such election. We therefore ask that the votes cast for said office of Governor as aforesaid be recounted.

Thomas J. Terry, 269 Middle St, East Weymouth
Daniel P. Sullivan, 236 Randolph St., South Weymouth.
M. Frank McCarthy, 39 Lakeside Ave., East Weymouth
Mabel T. Sullivan, 236 Randolph St., South Weymouth
Helen E. Hart, 239 Randolph St., South Weymouth
Cornelius S. Daley, 112 Union St., South Weymouth
Matthew O'Dowd, 26 Reed Ave., South Weymouth
Francis A. Gunn, 54 Union St., South Weymouth
John W. Campbell, 343 Pleasant St., South Weymouth
John E. Horace, 76 Reed Ave., South Weymouth
John D. Walsh, 11 Union St., South Weymouth
Thomas J. Kelly, 62 Shawmut St., East Weymouth
Winfred Bonney, 1336 Commercial St., East Weymouth
Nicholas J. Grant, 32 Linden Pl., East Weymouth
Dennis F. Reidy, 19 Shawmut St., East Weymouth

THE COMMONWEALTH OF MASSACHUSETTS

Weymouth, Nov. 9, 1928

NORFOLK, ss.

Then personally appeared Daniel P. Sullivan, one of the above subscribers and made oath that the above statement by him subscribed is true, to the best of his knowledge, information and belief. Before Me

EARL C. FOWLER, (L.S.)
Notary Public.

Received Nov. 9, 1928, 10:16 A. M.

CLAYTON B. MERCHANT,
Town Clerk.

CERTIFICATE

I hereby certify that a notice was sent by registered letter (with return request) to Frank G. Allen, Charles H. Cole and Daniel P. Sullivan, of a recount of the votes cast for Frank G. Allen and Charles H. Cole as petitioned by Thomas J. Terry and 14 others, that the Registrars of Voters would recount the votes cast for said Allen and Cole, at the Town Office, on Thursday, the 15th day of November, 1928, commencing at 9 o'clock in the forenoon.

CLAYTON B. MERCHANT,
Town Clerk.

Notice was received in regular form from Charles H. Cole, appointing Thomas J. Terry to represent him at the recount, also from Frank G. Allen appointing Kenneth L. Nash and Newland H. Holmes as agents to represent him at the recount.

The Board of Registrars met at the Town Office on Thursday, Nov. 15, 1928, and proceeded to recount the votes cast for Frank G. Allen and Charles H. Cole, candidates to the office of Governor, with the following result, which result was forwarded to the Secretary of the Commonwealth as provided by law.

Precinct	1	2	3	4	5	6	7	8	total
Frank G. Allen	928	547	734	339	1180	455	363	291	4837
Charles H. Cole	446	479	743	204	434	734	177	90	3307

Making a loss to Allen of 19 votes and a gain to Cole of 15 votes from the returns given in by the election officers of the several precincts November 6, 1928.

CLAYTON B. MERCHANT,
Clerk of the Board of Registrars.

LIBRARIAN

Christine E. Evarts

ASSISTANT

* Phyllis E. Palmer

BRANCH LIBRARIANS

Mary M. Dingwall
Martha J. Hawes

JANITOR

Thomas E. Shea

* Deceased January 13, 1929.

INFORMATION

Library Hours:

Main Library: 2 to 8 P. M. daily, except Wednesday, 2 to 5 P. M., and Saturday, 2 to 9 P. M.

Summer Hours: July and August, 2 to 6 P. M.; Wednesday and Saturday as above.

Branches: 2 to 5 P. M. and 7 to 8 P. M. daily, except Wednesday.

The library and the branches are not open Sundays, Legal Holidays and the 17th of June.

The library is for the use of all residents of Weymouth.

Temporary residents are entitled to the same privileges as permanent residents.

Each card issued to an adult entitles the holder to one book of recent fiction (a book published within the last year), one current periodical, and any reasonable number of other books.

Children under Senior High School age are entitled to a card if the application is signed by a parent or guardian. Cards issued to children entitle the holders to two books, only one of which may be fiction.

All books from the circulating department, including the new fiction, may be kept for fourteen days. At the request of the borrower any book not in popular demand will be charged for one month, subject to recall after two weeks if requested by other borrowers. Recent numbers of magazines are limited to seven days with no renewal privilege.

The vacation privilege allows a borrower to take books which are not recent publications for an extended time.

A book cannot be transferred from one card to another, but may be renewed at the library, by mail, or by *telephone, unless stamped THIS BOOK CANNOT BE RENEWED. The date due, the author and title of the book, and the borrower's name should be stated when the request for renewal is made.

A fine of two cents a day will be incurred for each day's detention of a book after it is due. When a book is sent for by the librarian it will be at the expense of the borrower.

Cases of contagious diseases are reported to the library by the Board of Health and all books which have been exposed to contagion are burned.

For the convenience of residents living in different parts of the town, books are exchanged through the delivery stations once a week as follows:

Lovell's Corner	W. B. Chalke & Sons	Tuesday
South Weymouth	Fogg Memorial Library	Tuesday
South Weymouth	Alfred S. Tirrell	Tuesday
East Weymouth	East Weymouth Branch	Thursday
North Weymouth	North Weymouth Branch	Friday
Weymouth Heights	Smith's Market	Friday

Application for borrower's cards may be made at the Delivery Stations as well as at the Library and Branches.

The library publishes a bulletin of new books several times during the year. This will be distributed through the library and its agencies, and sent to any resident upon request.

* Telephone, Weymouth 0989W.

PHYLLIS E. PALMER

Since the writing of this report, and just before it goes to press, the Tufts Library and the Town of Weymouth have lost the loyal and competent service of the Assistant Librarian, Miss Phyllis E. Palmer, who died of pneumonia at the Weymouth Hospital on Sunday morning, January 13th, 1929.

Miss Palmer has been on the Staff of the Tufts Library since 1918, and her generous and efficient service will be greatly missed by the library's many friends, as well as by her co-workers.

The Trustees wish to go on record, expressing their deep regret over her untimely death, and extending their heartfelt sympathy to the bereaved family.

FIFTIETH ANNUAL REPORT

The fiftieth annual report of the Tufts Library is herewith respectfully submitted.

The period of time covered by the history of this library coincides with that of the greatest development of library service in the history of the entire movement. Fifty-two years ago last October a group of librarians gathered from all over the United States at Philadelphia, to exchange their ideas on library methods and to share their visions of library service. The public library movement was spreading rapidly. Little libraries were being started first in one town and then in another, and each one was working independently. This group of the foremost workers in the profession met in the city famous for many momentous conferences, and discussed the need of having a common standard and a common vision for the profession, and the American Library Association was born.

Two years from the following March a group of earnestly interested men met here in the town of Weymouth, and the first Board of Trustees of the Tufts Library was organized. A grant of $1000.00 had been made for the establishment of a public library, provided an additional $2000.00 could be raised by private subscription for the same purpose. By October of that year, 1879, the money was in hand, and soon thereafter books were purchased and a room fitted up for library purposes. From the start this library kept in touch with the national organization, and as the library profession has grown, and developed standards of excellence and of greater service, the Tufts Library too has grown in size and in service, and into an ever more vital place in its community. Today it makes its fiftieth annual report of this progress.

The year 1928 marks the completion of the long and devoted service as Librarian of Miss Abbie L. Loud, but not the completion of the fruit of her labors, which like all genuine service is cumulative, and will be felt in the community while the books she selected are read and the services she inaugurated are enjoyed. Among these services are notably the opening of the stacks to the public, and the establishment of the two Branch Libraries. One measure of her service to the community during her twenty years as librarian, is found in the growth of the circulation of books, which in that space of time has more than doubled. Her resignation took effect on July 15, 1928, when she was succeeded by Miss Christine E. Evarts of Milton, Massachusetts. Miss Evarts is a graduate of Boston University, College of Liberal Arts, 1915, and of Simmons College, 1917. She was an assistant in the Milton Public Library, Milton, Massachusetts for nearly six years, when she left to take a graduate course in Library Science at Simmons College.

The increase in circulation is steadily growing, and in 1928 there was a total gain of 13,695 over the previous year. Somewhat over half of this gain, or 7,905, was made at the Main Library, while the North Weymouth and East Weymouth Branches showed gains of 3,620 and 2,170 respectively. Although the branches have been established only a few years, they have grown rapidly and the East Weymouth Branch is already seriously cramped for room. Both branches need increased reserves of books if they are to adequately meet the needs of their communities.

Three years ago a complete re-registration was made, and as the expiration period of the cards of those who registered at that time came during this year our registration statistics for 1928 show an unusually large number of expired registrations. All those who are constantly

using the library have re-registered, however, and many more will do so, and as each card issued carries library privileges for a three year period, re-registration will hereafter be done continuously rather than periodically. This method, begun by Miss Loud three years ago, will, when it has been in operation for a few more years, distribute the work fairly evenly over the year, and avoid the congestion of work incident upon periodic re-registration.

The Tufts Library was founded before modern systems of library classification were developed, and many years ago it outgrew the book classification which it had adopted. Those working with the books recognized this handicap, but had neither the time nor resources necessary to make a change. This year, however, Miss Loud accomplished the re-classification of the reference books — a very great undertaking in addition to the regular work, — and the present librarian is using the same modern system in classifying the new books. This will allow for indefinite growth within the library, but eventually the whole library should be re-classified and brought into one uniform system.

There has been one resignation other than that of the librarian during 1928. On May first Miss Barbara Senior left the service of the library to be married to Mr. Elliot Thayer. No appointment has yet been made to fill this vacancy, but Miss Alice Gowdy is doing the work of a junior assistant, and Miss Rachel Bodine is carrying the work with the children. An additional assistant is greatly needed, as it is impossible to do much more than cover the desk schedule with the present staff, and the preparation and care of books for circulation is seriously handicapped. This need is evident when we realize that the minimum standard for efficient library work, as indicated by a study made by the American Library Association, is one assistant for each 20,000 books circulated in a year. At present the Tufts Library has one assistant for each 32,500 books circulated. With a new assistant it will still be below the standard, but will be in a position to give far better service than it can at present. In the budget for 1929 the Trustees are asking for the salary of another assistant beginning with March, when the year's appropriation will be determined.

The open space at the rear of the book-stacks has been impossible to supervise, and therefore impossible advantageously to utilize for the public. This space has now been closed to the public, and is in use as a much needed working space for the cataloging of books, with a small space curtained off as a Staff Room.

Shelf room has been one of the pressing problems of the library. This has been temporarily relieved by the transference of the children's books to the floor below, and by the discarding of books which have ceased to be of value, or which are too worn to keep any longer on the shelves. The library has benefited by the help of Miss E. Louise Jones, Field Secretary of the Division of Public Libraries of the Massachusetts State Commission, whose expert knowledge of the value of the books made inestimable her help in weeding out books which have ceased to be of value to the library.

The most outstanding accomplishment of the past year is the realization of a project which those working for and in the interests of the library have long had at heart. The children's room is now an accomplished fact, and its enthusiastic use by the small citizens of Weymouth is evidence of its value and of its opportunity. It was opened to the children on Tuesday, November 13th. November 12th to 17th was observed nationally as "Good Book Week for Children", and the opening of the children's room during this week gave the

Tufts Library an exceptional opportunity for its effective observance. Miss Bodine, the children's librarian, had previously visited every elementary school in the town, and talked with the teachers, and in some schools to the pupils.

Many people contributed to the success of the opening. The janitor gave interested and arduous service in the physical work of transferring the books. With one man to help him, he lowered approximately 2,800 books out of one of the library windows. These were taken in through a window in the children's room, and placed on the shelves. The entire task was accomplished in one day, and even on that day, partial service was given to the children. There was no interruption of service to adults.

The art department of the High School made posters for the story hours, and to advertise the special features of Good Book Week, and seven Camp Fire girls spent one morning at the library making special posters for Thanksgiving.

The very lovely pictures on the walls of the children's room are the gift of the Rev. John B. Holland, and add greatly to the interest and attractiveness of the room. A quaint pitcher for flowers was sent to the room by Miss Nina C. Brotherton, Associate Professor of Library Science at Simmons College. Miss Brotherton is a specialist in library work with children, and has recently visited the new children's room of the Tufts Library.

A very beautiful bunch of yellow and white chrysanthemums came for the opening. On the card enclosed was written: "With congratulations to the boys and girls of the Tufts Library, from Miss Abbie L. Loud." Thanks are also due to Mrs. David Hyams of Milton who made the curtains, and to Mr. and Mrs. Harlan H. Sweetser, who donated the gold-fish which are a constant source of pleasure to the children.

As a special observance of "Good Book Week" Miss Judith Stromdahl, Librarian of the Boys' and Girls' Room of the Lynn Public Library, gave a talk to parents and teachers on "Good Books for our Children." Thirty adults were present, and four little girls in storybook costumes acted as ushers. Attractive editions of standard books for children were on display throughout the week. On Saturday morning the first story-hour was held and the library swarmed with 216 eagerly receptive little folks. Three story hours were held that day in order that every child might hear the promised stories. Subsequent story hours have seen large attendance, although there has not again been as large an attendance as on the first day. The average attendance has been seventy, a number which compares very favorably with story hour attendance in other libraries.

During its first month and a half the activity of the children's room is shown by a record of 80 new registrations, and a total juvenile circulation of 3,040. Three exhibits have been loaned. One, a sand table scene, illustrating pioneer life in this country, was placed in the window of the children's room by Mrs. Irving Tirrell of Weymouth Heights; dolls and toys from Peru, South America, were loaned by Mr. Malcolm G. Shurtleff; and Mexican toy dishes have been on display. All of these are of interest and educational value to the children, who are directed from the exhibits to books telling about the countries and times represented. Two story tellers outside the library staff have given their services, Miss Genevieve Perkins of North Weymouth, and Mrs. Harlan Sweetser. A Christmas tree, and new Christmassy books displayed in the window, and other seasonable decorations, made the

room especially attractive at that time.

With the establishment of a children's library came the necessity for differentiating between the cards for the children and those for adults. The Trustees favored an extension of privileges to adults, and the charging system was modified and simplified to accomplish this purpose. The new system gives all adults the opportunities and privileges formerly granted only on the issuance of special cards. Many have expressed appreciation both of the extended privileges and of the simplification.

Some new equipment has been added during 1928. The bookcase with glass doors which was purchased to shelve the books given by Mr. Laban Pratt holds the most valuable of the books in that collection. The beautiful bindings of the books show to advantage behind the glass, and the case is a real addition to the furniture of the reading room. A file has been purchased for the pamphlet material which is such a valuable addition to the resources of a library, and which can now be made more readily available for use; and a business file has been purchased for the office. There is a new catalog case for cards at the North Weymouth Branch, and one new section of shelving at the East Weymouth Branch. A stair-way and book-lift, connecting the adult and juvenile departments of the Main Library are urgently needed, and the floor in the children's room needs protection of some kind. Either cork tiling or battleship linoleum would be excellent for this purpose.

The Tufts Library acknowledges with thanks the gifts of flowers made by Miss Alice Blanchard, and Mr. Thomas E. Shea. It also takes this opportunity to express its thanks for the bulletins and reports received from other libraries, and for several books which have been donated by individuals. Other gifts, notably those of the children's room, have been acknowledged elsewhere in this report.

In June the library published the first number of a bulletin of new books. This will appear several times during the year, and will be freely distributed throughout the town. A file of these bulletins will furnish a list of the additions to the Tufts Library, and will take the place of Appendix B formerly published with the annual report.

Through the suggestion of one of the Trustees, a plan has been worked out whereby the ladies of the Literary Committee of the Monday Club are cooperating with the librarian in reviewing the new books. Good reviews are published from time to time in the Weymouth Gazette and Transcript, a feature which greatly aids the library in advertising its new and more worth-while books.

Building on the splendid foundation that has been laid through the past fifty years, the Tufts Library looks forward to a future of increased service to the Town of Weymouth. It asks your cooperation that its resources may be sufficiently adequate to meet its opportunity, and it acknowledges gratefully the loyal support given it in the past.

Respectfully submitted,

C. P. WHITTLE, Chairman.

By order and in behalf of the Trustees.

EMERSON R. DIZER,
Town Accountant.

Weymouth, Dec. 20, 1928.

REPORT OF POLICE SIGNALING COMMITTEE

The undersigned Committee appointed by virtue of the vote at the Annual meeting in March last, begs leave to report that it has held several meetings and has considered; first, the needs of such a signaling system in the town; second,the advantages of such systems; and third, the cost of installation and maintenance thereof.

The need of such a system in the town will become more urgent as the town grows and the calls upon the Police Department, which are already many and varied, increase. Such a system in the town will increase the efficiency of the Department and the success and effectiveness of its work

There is one police signaling system which is preeminently best and which we think is the only system the town should consider installing. The Committee refers to the Gamewell system, which is manufactured and installed by The Gamewell Company, located at Newton Upper Falls. Mass.

The Gamewell Company is ready to contract with the town, to furnish and install the system as hereinafter described, for the sum of $25,000. This price includes police central office desk equipped with various circuits, test panel, flash-light transmitter, recording set and telephone equipment. It is the standard police central office desk now in general use in municipalities having such a system.

At the outset it will have one official circuit, one primary flashlight panel,one secondary flashlight panel and one flashlight transmitter. Provision is made in the desk so that additional panels may be installed and the service extended as the needs require. Its total capacity will be three flashlight panels having the capacity for seven circuits, six patrol box signaling and telephone panels, seven official telephone panels and two test panels.

The operating equipment for each police circuit consists of a green pilot light which operates in conjunction with a buzzer in response to telephone signals; also, a two-position key, one position for listening, the other for transmitting humming signals manually to the boxes for the purpose of calling the patrolmen; also, a two-position key, one position to be used for the purpose of intercommunicating by telephone with any of the official or police signal lines, and the other for the purpose of automatically transmitting humming signals to the boxes; also, a two-position key, one position for cutting out of the circuit the recording apparatus and the other position for the purpose of connecting the test panel into the circuit for testing the line battery and recording apparatus.

The operating equipment also contains flash-light and audible signals mounted upon panels similiar to the battery circuit panels.and arranged for operation over a separate set of series upon circuits; the first panel to be equipped with a white pilot light to indicate when audible or flashlight signals are being transmitted; a one-key position, for permitting the intermittent manual of the flashlight signals; a two-position key for testing for grounds on any of the flashlight lines; also, a key for controlling the operation of the flashlight signals for one circuit.

The equipment also includes an electro mechanical transmitter consisting of a spring driven transmitter and removable signal wheels for operating the flashlight or audible signals, the function of which would be to transmit signals giving the number of the signal, station, patrolmen, or other officer or party with whom it is desired to communicate, the mechanism being arranged to be operated from one to four rounds as desired, and provided with devices wherewith the instrument may be readily set to transmit the number of rounds required.

The official circuit contains one white pilot light which operates in conjunction with a buzzer in response to the removal of the receiver from the hook of the telephone set in the line; one combination listening and calling key; one combination key for intercommunicating telephone service providing for connection to any of the boxes or other official circuits; also one key for cutting the circuit into the testing panel.

The equipment contains a test panel and emergency circuit, upon which panel is mounted the equipment required to make all necessary tests of the patrol and official circuits and instruments, containing readings of the battery current and battery voltages, also with necessary switches for ground testing. On the panel is mounted a red pilot light arranged to respond, in conjunction with a vibrating bell, to all emergency signals; a two position key, one position for the purpose of restoring the emergency light and bell to normal conditions and the other position for cutting the telephine buzzer out of the circuit; also a two- position key for the purpose for transmitting ringing current over the various circuits when such features are required, and the other position for cutting out vibrating bell.

The desk also contains a master clock for controlling and operating the automatic time and date stamp on the recording equipment. The recording equipment consists of four circuit triangular puncturing register, automatic time and date stamp and paper take-up reel, the register having capacity to receive and record signals from all box circuits simultaneously. The master clock controls an adjustable automatic time stamp contact controlling the time stamp circuit for the timing and dating of the signals.

The electrical energy at the central office desk is supplied by storage batteries. From the central station, a general description of which is given above, radiates the signal and telephone wires for the various circuits, the present installation contemplating four circuits.

The initial installation contemplates the placing of fourteen patrol boxes, fourteen signal lights and four horns. It contemplates that the town shall furnish permission to occupy the necessary polls for the wires, (your Committee sees no reason why the wires cannot be carried on the polls that the fire alarm wires are now carried upon) and it contemplates that the town shall furnish the electrical current small in voltage, for the transmission of signals and messages over these wires, in a way similar to the manner in which the current for our fire alarm system is now furnished.

The proposed system is so arranged that additional boxes, signal lights and horns may be attached and the circuits extended with the minimum expense.

The design of the police box is the usual one, the outer door being opened by a key.

The contract provides that the Company will guarantee all workmanship and materials for a period of a year from the acceptance by the town, and that at the Company's own cost and expense to make good any defect, fault or damage due to any carelessness, neglect, omission or use of any improper methods or materials.

The care of this system could readily be placed in the conrol of the Superintendent of the Fire Alarm system. The maintenance cost should not exceed $800. Per Annum.

With this system installed Police Headquarters will be able to communicate with any or all patrolmen who are on duty and direct their concentrating to any given point, or communicating of other directions. The system automatically records the date, hour and minute of each signal and the box from whence it comes, and of course, will expedite the transportation of persons under arrest or persons needing the services of the ambulance in cases of emergency, and in general it will constitute an additional protection to the citizens of the town.

Chief Arthur H. Pratt informed this committee that the installation of this system would not require any additional man in his department.

The Committee, therefore recommends that there be appropriated the sum of $25,000-- $5,000 of said sum to be raised in the levy of current year, and to pay the balance of said appropriation, to wit,- $20,000, the Treasurer, with the approval of the Selectmen, be and hereby is authorized to borrow a sum not exceeding $20,000, and to issue bonds or notes of the town therefor,payable in accordance with Section 19 of Chapter 44 of the General Laws, so that the whole of said loan shall be due and payable in not more than five years from the date of issue of the first bond or note ,or at such earlier dates as the Treasurer and Selectmen may decide.

REPORT OF THE SUPERINTENDENT OF ALEWIVES FISHERY

44 High Street, East Weymouth, Massachusetts,Jan. 1, 1929.

Honorable Board of Selectmen of the Town of Weymouth,

East Weymouth, Massachusetts.

Gentlemen:

I herewith submit my fourth annual report as Superintendent of the Alewive Fisheries in the Town of Weymouth for the year ending December 31, 1928.

Work was started on March 29th and continued until approximately one hundred and twenty thousand (120,000) alewives were deposited in Whitman's Pond for spawning.

The run this year was very good and, as in the previous three years, was operated without any expense to the Town.

The young fish came down to the salt water the latter part of season in endless numbers, as did many of the older ones.

The condition of the building is in fairly good condition but the concrete sluiceway will need some repairing and I think that this can be taken care of out of the yearly appropriation.

In closing my report, I wish to extend my sincere thanks to you, Honorable Board of Selectmen, to the Weymouth Light and Power Company and to the Weymouth Wool Scouring Company for the help and co-operation given me during the season.

Respectfully submitted,

F. H. MAGUIRE, Jr.,

ANNUAL REPORT OF TOWN COUNSEL

To the Honorable Board of Selectmen:

The following cases against the Town have been disposed of during the year:

Mary A. Donovan vs. Inhabs. of Weymouth, No. 17,234, Norfolk Superior Court. This was a petition for the assessment of damages for land taken for the Bicknell School playground. The jury on June 4, 1928. rendered a verdict for $2713.01, and this amount has been paid by the Town.

Charles D. Sheehy, Adm. vs. Inhab. of Weymouth, No. 18,412, Norfolk Superior Court. This was a petition for the assessment of damages for land now forming part of the High School site. The jury,on May 28, 1928, rendered a verdict for $9570.00. and the case is now pending on exceptions before the Supreme Judicial Court.

Stanley Marple vs. Inhabs. of Weymouth, No. 18.799, Norfolk Superior Court This was an action of tort under the highway act to recover for an alleged defect in North Street, near the Weymouth Heights bridge. The case has been settled by the payment of $350.00.

Selectmen of Weymouth, Petitioners. This was a petition before the County Commissioners for a discontinuance of a portion of Front Street. The Commission rendered a decision authorizing the discontinuance on February 7, 1928, and the street has been discontinued accordingly.

Annie E. Richards vs. Inhabs. of Weymouth, No. 18,010, Norfolk Superior Court. Edgar C. Linn vs. Inhabs. of Weymouth, No. 18,011, Norfolk Superior Court. These were petitions for the assessment of consequental damages growing out of the Weston Park taking. In the Richards case the matter was settled by what amounted to the purchase of the land in question, pursuant to votes passed at the last Annual Town Meeting. In the Linn case the land was deeded to the Town on payment of an amount equal to the taxes which had accrued against the property.

The other cases enumerated in my annual report for 1927 are still pending.

During the year the Town has brought the following action at law:

Inhabitants of Weymouth vs. Inhabitants of Easton, Norfolk Superior Court, No. 19,343. This is an action of contract to recover support furnished a person alleged to have a settlement in the defendant Town.

The following cases have been brought against the Town during the year:

Julius J. Conviser et al vs. Inhabitants of Weymouth, No. 19,519, Norfolk Superior Court. Same vs. Same, No. 19,520. These are petitions for the assessment of damages for the taking of the land at the junction of Broad and Commercial Streets.

Alice P. Jewell vs. Inhabs. of Weymouth, No. 19,934, Norfolk Superior Court. This is a petition for the assessment of damages for taking of the land opposite the High School.

Norfolk Realty Company vs. Inhabs. of Weymouth. No. 20.050. Nrrfolk Superior Court.

Fannie A. Sternberg, Conservator, vs. Inhabs. of Weymouth, No. 20,203, Norfolk Superior Court.

These last two are petitions for the assessment of damages for land taken at Great Pond, for preserving the purity of the water supply.

The Town is also interested in the following case still pending:

Standard Oil Co. of New York, Petitioner for a gasoline permit, pending before the State Fire Marshall. Under instructions from your Board, I represented the interests of the Town at these hearings.

In a Town developing as rapidly as ours, it is to be expected that the number of land-damage cases will continue to increase. It is a matter of congratulation, and one showing the efficient management of the Street Department, that we have so few highway cases. I doubt if any other Town in the State, having our population and length of roads, can show such a good record. My plan, ever since I have been Town Council, has been to keep in touch with the public business of the Town in its early stages so as to avoid any acts which might result in litagation, and it is worthy of note that, as a result of this policy, no litigation has been brought against theTown growing out of the acts of Town officials.

With the completion and occupancy of the new Town Hall, the Town for the first time is in possession of adequate accommodations for its law library where Town officials having occasion to consult the books in connection with their official duties can do so. In order to make this library available, I have purchased from the regular appropriation the Mass. Digest, Shepard's Mass. Citations,and certain other books which are a necessity if the law library which the Town owns is to be available for reference. For the first time, also, the Town has quarters in which the law department can do its work and maintain its records in an official building instead of having the records carted about to and from the private law office of the Town Counsel. In my opinion, it would be advisable for the Town Counsel to keep certain office hours each week in the Town Hall, and I intend to try this plan as soon as the various Town departments get thoroughly settled in the new building.

The new building laws and the duties imposed upon him as an ex officio member of the Board of appeal will materially increase the work of the Town Counsel during the coming year.

I desire to thank your Board and the other Town officials the co-operation and assistance they have rendered me in the discharge of my official duties.

Respectfully submitted,
FREDERIC GILBERT BAUER
Town Counsel.

REPORT OF THE COMMITTEE ON TOWN BY-LAWS.

January 1, 1929.

To the Honorable the Board of Selectmen:

Certain amendments to the by-laws were adopted at the Special Town Meeting last October, but with the exception of those relating to the Town flag and Town seal the amendments are still pending approval by the Attorney General. As soon as the Attorney General acts on the amendments now before him, including the building laws, the Committee will complete its work and then recommends that the entire code be published for the information of our citizens.

Respectively submitted,
For the Committee,
FREDERIC GILBERT BAUER
Chairman

PARK COMMISSIONER'S REPORT

To the Honorable Board of Selectmen of the Town of Weymouth:

Gentlemen:

BEAL'S PARK

The grass moved, walks kept trimmed and flowers set out in the flower bed on the lower end of the park.

There was some new equipment put in the park this year in the line of playground equipment and I wish at this time to thank the Home and School Association for the $50.donated to the Park Commissioner's, which was used to purchase a swing-horse for the children on the park.

There was much interest displayed in the line of playground work this summer at Beal's Park as will be shown in the report of the playground instructor and we would suggest that another playground teacher be had in the North part of the town this coming summer.

BAILEY GREEN

The grass was cut regularly and shrubbery trimmed during the summer.

WEBB PARK.

Webb Park still continues to be used quite extensively for base-ball where it affords an ideal location, the grounds were taken care of and a new flag-pole erected to replace the old one.

GREAT HILL PARK

This park is coming more into prominence each year, not only from the sight-seers point of view;but from the bather's standpoint We had the bathing beach cleaned of all the larger stones, and had a portion of it sanded which we believe was very successful, a sea-wall was built nearly the whole length of the beach, it was surprising to see the number of bather's that used the beach from far and near this last summer where they had a sandy beach and good, clear, clean water. There were many days when the beach would be crowded with bathers.

There has been quite a lot of criticism of the actions of the young people and others in Great Hill Park. The Park Commissioners will do all in their power to make this place what it should be ,as far as our money goes. It is a beautiful place and Weymouth people should be proud to own such property, and if such is the case, the Police should be able to take care of any actions not in accord with common decency.

WESTON PARK

This park as you remember in our last report was merely in the rough, and there were a number of unsightly places which were a menace. We have raised it from these conditions this past year,put in new drains, have filled some of the unsightly holes with tons of filling, thus making some good playground for the children under the shade of the beautiful trees, where they now have swings, slides,, sand-boxes, teter-boards and other playground equipment.

It is not only an asset to the children but for the older people where the underbrush has been trimmed out and beautiful walks built connecting different points of the park, and connecting links between Washington, Broad and Front Streets.

There has been built also a good sized skating pond for the children which is not dangerous as lots of the larger ponds and is very central. Our next move is for some lights along the park walks, and would also lighten the skating pond for the children at night.

JACKSON SQUARE GREEN

The Plot in Jackson Square was taken by eminent domain and has been put in good condition. We are asking for a sum for its care.

RUFUS CLARK PARK

A retaining wall was built along the easterly side of the park, and the grounds cared for, grass mowed, etc.

LOVELL'S CORNER PLAYGROUND

The base ball diamond at Lovells Corner playground was graded with the $300.00. specially appropriated for that purpose. New equipment put in Hawes Grove. There is untold possibilities in this gift of Mr. BradfordHawes. The Park Commissioners are asking for $500.00. for the purpose of cleaning up this grove. it is full of small

pines but needs cleaning out and thinning of the pines.The playground is becoming more popular each year, and is without doubt used more than any other ground in town. The new flying horse has been popular with the children, as also the flying rings and the trapese. Band concerts were held by the Veteran of Foreign Wars band all summer on Tuesday nights. The usual Fourth of July celebration was a success, and made it possible for the people to donate to the Park Com. $32.00 to be used on the playground. A party from a Dorchester church made a donation of $10.00. to the Park Com. TheA. C. football club had the grounds illuminated 2 evenings a week for practice making it possible for them to win the Championship of this section. We hope to be able to keep the grounds mowed and in better condition another year.

Through the kindness of Mr. Heald the park opposite the Stetson factory was available for playground work during the summer.

POND PLAIN PLAYGROUND

A playground has been established at Pond Plain. As there was no place available in Pond Plain the Improvement Society offered their land, but it was not in condition for playground purposes, but arrangements were made for a ten year lease for playground work $700.00. was obtained from the reserve fund for the purpose of grading the land, and, to buy equipment such as sand boxes, Swings,Teterboard, rings and slide. Shelters were put up by the society, and everything done to make it a success.These people are very appreciative and will cooperate in every way. We hope to get some more equipment this year.

Our Supervisor of playground work Mr. MacIntosh, has won the commendation of the Park Com. as well as the people in general, and with his able teachers has done great work. It is thought by the Park Com. that this should become a part of the regular school work.
Weymouth is an enterprising Town and it ought to be going ahead, as it is, with its Park programme. Plymouth has four or five bath houses and miles of water front. Weymouth has 500 to 600 ft. of water front belonging to the Town, and we want to make the most of it. We hope that the appropriation asked by the Park Com. will be approved by the Town that we may keep this department as it should be. ground.

Respectfully submitted,
FRANCIS W. REA.
CHARLES W. BURGESS.
JOSEPH KELLEY
Park Commissioners.

REPORT OF PLAYGROUNDS

Enthuisiasm and increase in attendance shows that the playground movement is gaining.

This year a new playground was added at Pond Plain and the

one held at Nevins School Grounds last year was transferred to Stetson Field, making a total of six in the town with a teacher at each

The director with the help of an assistant had special activities and arranged inter-playground competitions.

New playground equipment was installed at Weston Park and Pond Plain, Hobby Horse swings were added to the equipment at Lovells Corner and Beals Park.

All playgrounds were equipped with quoits, volley ball and net, basket ball, croquet set, bats, baseballs, bean bags, ring toes, coping saws and a sand box.

Before the playgrounds were officially opened a marble tournament was held with the co-operation of the school department. Elimination meets were held in all parts of the town and at the finals,Donald Cleary of No. Weymouth was chosen Marble Champion of Weymouth.

The playgrounds opened with nearly 500 children taking advantage of the opportunity. A special activity day was held each week which was eagerly looked forward to. Some of these were: Stunt Day Track Meet. Doll Carriage Parade Horrible Parade,Character Representations, Quoit Contest and Croquet Tournament.

During the season 19 inter-play ground baseball games were played by the Junior and Senior teams.

The older girls had fast Volley Ball Teams which afforded keen competition.

Four Croquet contestants were sent to the grand finals at Stetson Field where the winners from each class were chosen.

Many practical and useful articles were made in the handwork periods. The girls enjoyed making and wearing folded paper belts. Wood- craft was popular with the boys and girls and many attractive door stops and book ends were made. Embroidery and soap carving were both popular.

Access of the Manuel Training Room at the Hunt School and the basement of the Community House at Pond Plain was greatly appreciated and made use of on stormy days.

ATTENDANCE

	First Day	Last Day
Hunt	155	300
Humphrey	88	196
Beals Park	90	250
Stetson Field	32	110
Pond Plain	30	125
Lovells Corner	68	196

The generosity and co-operation of the townspeople have helped to make the past season a successful one. The gifts of many private citizens and the following organizations made it possible to serve approximately 1200, children ice cream andcake during the final week.

No. Weymouth Home and School Association
Sons of Italy
Firemen of Station 3
Lovells Corner Improvement Association
Precinct 4 Citizens Association

Pond Plain Community Association

The Weymouth Gazette and the Weymouth Item were very liberal with paper space which was a great help in publicity work and notifying the children of coming Events.

Respectfully submitted,
EVERETT J. McINTOSH
Director of Playgrounds

REPORT OF THE CHIEF OF THE FIRE DEPARTMENT

East Weymouth, Mass., January 9, 1929

To the Honorable Board of Selectmen:

The following is a report of the Fire Department for the year ending December 31, 1928.

We have been fortunate in not having but one serious fire this past year.

While we have had plenty of activity, due to a large number of Alarms the loss has been kept down to small figures due to the quick response of the members of the Department.

Case after case might be recalled when a few minutes delay would have meant a serious fire but not one instance can be recalled where you have not the instant response of your Permanent force, and though small in numerical strength it leaves nothing to be desired in genuine effort to protect the Town in time of danger by fire.

Too much cannot be said of the Call Members of the Department for their response and willingness to co-operate with the permanent men. I wish to impress upon the Citizens of the Town that in the call members of the Fire Department they have a set of men who are willing, day and night to leave their homes or business and report to fires with the sole idea of helping their neighbors and friends without one thought of the small amount of pay attached to this duty.

We have been deeply gratified this year by the purchase by the Town of two 750 gallon Triple Combinations which have proven by Underwriters' tests to be able to give considerably more capacity than specified in contract.

It is my intention this year to equip the replaced Combination at Ward Three with a Deluge set for heavy duty and also a Foam Generator for the handling of oil fires. This truck to be ready as an emergency outfit to respond on a second or general alarm or to answer special calls at any time.

In accordance with the report of the Committee of 1927 to look into the needs of the Fire Department we expect to replace Combination One with a 750 gallon Triple Combination.

It is my sincere hope that the Town will at the next meeting, appropriate sufficient funds to build a new Fire Station at East Weymouth. To all who are acquainted with conditions at the present Station it would seem that the time has come to build an up to date Station and Fire Alarm Station attached.

I have been in consultation during the past year with one of the best known Architects of Fire Stations in New England if not in the

Country and am prepared to place before the Town Meeting, plans and specifications for its consideration. These plans are mare in consultation with engineers of the Gamewell Company on equipment for a Fire Alarm Station amply able to take care of the Town for the next fifty years.

The Station at Ward Three was found on delivery of the new Pump to be unsafe on account of a weak floor support and we were compelled to take steps to reinforce it temporarily and plan to fill in the space underneath and put in a cement floor this year.

Your Fire Department has made friends this past year by its businesslike way of response to calls, no matter of what nature and I think we have proved to your satisfaction that the appointing of permanent men is a decided success. This year I would like the privilege of appointing a few more men and bringing the wages up to a reasonable amount to compensate the members for the efforts they stand ready to show to the Citizens of the Town.

The following is a summary of the activities of the Department:

Combination	One	Total Runs	80
"	Two	" "	117
"	Three	" "	125
"	Five	" "	86
Ladder One, Total Runs			52
Ladder Two, Total Runs			77
Forest Fire Truck No. 5, Total Runs			43
Forest Fire Truck No. 3, " "			59

Inspections made and permits granted:

Fireworks Permits	15
Oil Heaters	35
Garage	20
Removal of Tanks	5
Inspection of New Tanks	5
Blasting Permits	2
Storage of Inflammables	1
Fire Prevention Inspections	91
Property at Risk	$142,980.00
Damage	25,574.71

(Colonial Inn fire involving $43,000 not yet adjusted).

Please accept my sincere thanks for the many courtesties extended by your Board and by the members of the various other Departments who have at all times shown a willingness to assist us during the past year.

JOHN Q. HUNT,
Chief W. F. D.

East Weymouth, Mass., Jan. 1, 1929.

To the Chief of the Fire Department, Weymouth, Mass.

The following is the report of the present state and needs of the Fire Alarm that is respectfully submitted:

The number of Bell Alarms in the past year are as follows:

Ward One	44
Ward Two	77
Ward Three	24
Ward Five	42

I would like to state that the system is in a very good condition as most of the old wire has been replaced. Last year a new circuit was put in commission (using about fifteen miles of wire) in the South part of the Town. That makes the fifth circuit in the system.

In the North part of the Town the present circuit should be divided which would make two circuits. This would last that part of the Town a number of years. But the Repeater Switchboard, and Protector Board that is at present in use has no space on which this work could be carried out until we have New Equipment and more space for batteries.

With ten miles of wire this year the system could be made as good as new on the outside. The upkeep has been large this year due to the large number of new poles that have been replaced by the Telephone and Electric Light Company.

Owing to the High Votage that is being carried on the same poles as the Fire Alarm I recommend it proper to install Ground Rods for the Safety of the Public.

In conclusion I wish to extend my thanks and appreciation to all those who co-operated with me in any way during the past year.

Respectfully submitted,

C. F. COOLIDGE,
Supt. Fire Alarms, W. F. D.

REPORT OF COMMITTEE ON SITE FOR A FIRE STATION

To the Honorable Board of Selectmen:

The committee appointed by the moderator of the last annual Town Meeting to investigate the matter of a site for a new Fire Station in Weymouth, organized with the choice of John F. Dwyer as chairman and Edwin R. Sampson as clerk.

Th e committee have held several meetings and, as individuals, given considerable consideration to the problem. After the investigation of a number of sites the committee reports unanimously in favor of recommending the present Franklin School lot on Broad Street as first choice and the so-called Farmer lot at the corner of Maple and Middle Streets as second choice.

Respectfully submitted,

JOHN F. DWYER, Chairman
ELMER E. LEONARD
MATTHEW O'DOWD

POLICE DEPARMENT

Weymouth, Mass., anuary 15, 1929.

To the Honorable Board of Selectmen of the Town of Weymouth:

Gentlemen:

I herewith submit the annual report of the services rendered by the Police Department for the year ending December 31, 1928.

Causes for Arrests

Crimes against the person:		
Assault and Battery		32
Attempt to assault with dangerous weapon		1
Assault on police officer		3
Manslaughter		2
Murder		1
Threats		1
Railer and brawler		1
		41
Crimes against Property:		
Breaking and Entering		12
Larceny		37
Attempt to commit larceny		3
Malicious injury to building		1
Breaking glass		4
Malicious mischief		3
Concealing leased property		4
Trespass		2
Receiving		1
		66

Crimes against Chastity and Good Order

Bastardy	4
Default	1
Disturbing the Peace	15
Drunkenness	354
Failing to pay wages	16
Idle and disorderly	2
Lewd and Lascivious	2
Neglect of family	18
Non-support	4
Neglect to support minor child	1
Neglected children	7
Neglect to support parents	2
Desertion of family	1
Peddling unlicensed	1
Violation of motor vehicle laws	481
81 of which are for operating under the influence of intoxicating liquor	
Unlawful taking of automobile	1
Larceny of automobile	4
Violation of labor laws	1
Violation of health laws	3
Violation of probation	3
Stubborn child	2
Obscene literature	3
Fugitive	3
Suspicious person	2
Keeping unlicensed dog	1
Violation of fish and game laws	15
Pauper	3
	950

Violation of Liquor Laws:

Deserter	2

Recapitulation:

Crimes against the person	41
Crimes against property	66
Crimes against chastity and good order	992
Crimes against public justice	1
Crimes against government	2
	1102

Out of town arrests	249
Total arrests for year	1351

Miscellaneous report:

Property recovered	$9,343.00
Twenty raids for intoxicating liquor	
Complaints investigated	666
Buildings found open and secured	683
Street lights reported out	81
Patrol wagon calls	214
Ambulance calls	96
Dogs killed	63
Fires reported	12
Fines imposed in lower court	$10,398.00
Fines imposed in Superior court	$470.00

During the year one patrolman was advanced to the rank of lieutenant and three patrolmen to the sank of sergeant. A sergeant is assigned to both night patrols.

I would recommend that the report of the committee on the installation of the Gamewell system be accepted.

During the fall four men were sent to Camp Perry with the coach of the pistol team, Dr. John L. Bastey, all expenses having been obtained by subscription and sponsored by the Weymouth Chamber of Commerce. The team finished next to New York City police department.

I wish to thank the Honorable Board for their assistance they have given, and to all members of the Department for the faithful performance of their many duties.

Respectfully submitted,

ARTHUR H. PRATT,
Chief of Police.

South Weymouth, Mass., Jan. 1, 1929

To the Honorable Board of Selectmen of Weymouth:

I hereby submit my report for the year 1928 as Inspector of Animals:

Number of places inspected	106
Number of Cows	440
Number of Young Stock	220
Number of Bulls	10

So. Weymouth, Mass.

Jan. 1, 1929

To the Honorable Board of Health of the Town of Weymouth.

I herewith submit the following report as Milk and Dairy Inspector, also for the issuing of permits for the sale of Oleomargarine for the year ending Dec. 31, 1928.

Total Number Permits issued	216
Milk Licenses	189
Oleomargarine Registrations	27

Respectfully submitted,

MERTON L. LOUD

Inspector.

REPORT OF THE SEALER OF WEIGHTS AND MEASURES

North. Weymouth, Dec. 31, 1928.

To the Honorable Board of Selectman of the Town of Weymouth;

Gentlemen:

I herewith submit my annual report for the year 1928. and with the increased number of gasoline pumps and with more stores sell- the different commodities has increased the sealing fees to the amount of $364.08.

During the year 28 Fish, Fruit, and Vegetable Licenses were granted at $10. each; 11 Junk Licenses at $25. each.

My general work for the year was as follows:

Sealed	3871 Articles
Not sealed	97 Articles
Condemned	14 Articles
Gas Pumps	186 Articles
Reweighings	275 Articles

Respectfully submitted,

CHARLES W. BURGESS.

Sealer of Weights and Measures.

REPORT OF THE PLANNING BOARD

To the citizens of Weymouth:

Frank A. Pray and Arthur I. Negus were elected for two years and Allen C.Emery and Thomas J. Kelly for three years as members of the Weymouth Planning Board.

At our first meeting Mar. 23, 1928. Frank A. Pray was again chosen as Chairman and Ralph H. Haskins as clerk & treasurer.

We have held monthly meetings at each of which some special topic regarding the interest of the town was considered. the more important ones in our judgment being ,Traffic lights, the taking of the so called "Common Land" at Weymouth Heights, the location of a new street connecting Commercial & Middle Streets following the general line of the present street, thereby forming a triangle bounded by Commercial, Middle and the proposed street.

The improvement at the corner of Commercial & Cottage streets by the removal of the hedge and the substituting of a retaining wall has much improved conditions both as to looks and for safety, and while the expense was some what in excess of what was anticipated we feel that it was a good investment for the town.

At one of our first meetings the matter of installing two traffic lights on trial was taken up and arrangements made for their installation.

These lights have been on trial for seven months and while they have been in working condition only part of the time. We are fully convinced that had some other company furnished the lights and equipment they would have proved very satisfactory.

In support of our belief that the town should install traffic lights an article has been inserted in the town warrant calling for the installing of (4) four lights, one at Central Square, one at the junction of Washington and Middle Streets, one at Lovell's Corner and one at Nash's Corner.

The question of the collection of garbage was considered by us and in order to get first hand information we invited Mr. Bailey of Braintree to meet with us. He is chairman of the committee who has charge of the collection of garbage in that town and he gave us much valuable information relative to their experience and cost of collecting.

At a later meeting we invited Mr Creig of Milton who has the contract for the collection of garbage and ashes in Milton, to look over our town and give us an estimate of the cost of collecting garbage for Weymouth.

He gave the Planning Board a figure at which he would collect the garbage of the entire town, taking the garbage out of the town and give a bond, thereby safe guarding the town for the fulfillment of his contract.

We would therefore recommend that the (town) advertise for bids for the collection of garbage.

The Planning Board opposed the granting of a permit on Union St.South Weymouth, as we felt that another gasoline station in that locality was not needed and furthermore the value of taxable property in that vicinity would be very much reduced.

The Planning Board were unanimous in their endorsement of the building laws for the town.

The annual meeting of the State Planning Boards was held at New Bedford in October.

The matter of sewerage for the town is still in the hands of a committee who report progress.

The Planning Board recommends that the corner of Madison Street at the junction of Commercial Street be widened. We also recommend that the water department continue the purchase of land on the water shed of great pond.

Respectfully submitted,
FRANK A. PRAY, Chairman
RALPH H. HASKINS, Clerk & Treas.
RUSSELL H. WHITING
ARTHUR I. NEGUS
ALLAN C. EMERY
THOMAS J. KELLY
LEWIS W. CALLAHAN

TOWN OF WEYMOUTH
OFFICE
TREE WARDEN AND MOTH SUPERINTENDENT

South Weymouth, Mass.,January 1, 1929.

TO THE HONORABLE BOARD OF SELECTMEN OF THE TOWN OF WEYMOUTH

Gentlemen.

Herein please find my report as Moth Superintendent for the year 1928...

Speaking from the Gypsy & Brown tail standpoint I claim to have as clean a town as there is in this section. Not one Brown tail and while we have some few gypsys scattered all over town we have-no stripping. We have quite an infestion of satin moths on willows & poplars.

Our Orchard work was as satisfactory as I could wish as the weather was against us most of the season. I trust that we shall not have two seasons like the last two for spraying.

C. L. MERRITT.
MOTH SUPERINTENDENT.

TOWN OF WEYMOUTH
OFFICE OF
TREE WARDEN AND MOTH SUPERINTENDENT

TO THE HONORABLE OF SELECTMEN OF THE TOWN OF WEYMOUTH

Gentlemen.

Herein please find my report as Tree Warden, for the year 1928.

Owing to the scarcity and exorbitant price of trees fit to set out on our streets we have not spent much of the quite liberal sum appropriated for that purpose. This will account in a large measure for the return of so large an amount to the treasury. There must be a large number of trees set as soon as they are available. This shortage is caused by the lack of starting of maple trees during and following the war period and the great demand for street trees since then.

Aside from the lack of young trees I feel that our department is in very good shape.

C. L. MERRITT
TREE WARDEN

REPORT OF TOWN ENGINEER

To the Honorable Board of Selectmen of the Town of Weymouth,
Gentlemen:—

I submit herewith my twenty-second annual report showing the surveying or engineering work done for the town during 1928.

Primarily each year is the necessary revision of the sixty-five Assessor's sheets covering the town, each full sheet comprising an area of approximately 200 acres.

On this work all transfers of land in Weymouth for the preceding year ending April 1st inclusive are copied; all buildings moved, razed, destroyed by fire or otherwise changed or eliminated are noted; all new taxable buildings erected during that period are measured and located; and all plans of new streets or of new land subdivisions are obtained and inspected.

With this information at hand the original tracings are revised and corrected to the date of assessment, (April 1st), each year. This requires many erasures, changes in property lines, the addition of new streets, of new subdivisions or developments, of all new buildings, and the making of all changes of whatsoever nature affecting buildings, boundary lines, areas, or ownership. This is the necessary routine work that is done each year.

For the year ending last April about 1380 parcels of land in Weymouth were conveyed. A parcel conveyed may require simply the erasure of the old owner and the substitution of the new; in many cases however, it means a subdivision of an existing parcel, various erasures, the addition of the new property lines, the addition of the new areas and the names of the new owners.

Of the above number of parcels about 112, or an increase of 38% over the previous year, were registered in the Land Court. For the same period approximately 351 houses, 349 other taxable buildings, both of these figures a material increase over previous years, the new wing on the Weymouth High School, the new Pratt school building, a portable school and about 115 additions to existing buildings were measured, located and entered on the tracings.

The increase in transfers from year to year, and sepecially the increase in the number of buildings erected each year is a fair index of the growth of the town, and this growth is also shown in the increased valuation of the town from year to year.

After these revisions and corrections have been made, negatives are taken from the tracings and a complete set of prints furnished the assessors.

All of the above together with other minor work appurtenant thereto comes under the head of the town survey, so-called, and is charged to that appropriation. I would recommend an appropriation of $2500. for this purpose for the year 1929.

I would once more call attention of all persons to the desirability of promptly recording all deeds, all mortgage releases or discharges, and all plans relative to any land owned by or conveyed to them; in many cases such data is invaluable in future years, and a present small recording fee may mean a substantial saving to them or their successors in surveying or legal work made necessary by lack of information to properly fixed boundary lines.

During the year the sale of 95 town survey sheets, including one complete set, and of several lithograph maps of the town resulted in a small profit to the town.

As in former years an appropriation of $500. for use in purchasing and setting stone bounds on town streets was made and bounds have been set on the following streets: Squanto road, Pilgrim road, North

street, Commercial street, Fiske avenue, Roosevelt road, Washington street and Thicket street. Also bounds moved or dug out have been corrected or replaced. This work should be continued each year.

In addition 79 stone bounds were set on newly accepted streets, including Ocean avenue, Fairlawn road, Orlando avenue, Princeton avenue, Sagamore road, Academy avenue, Nevin road, Georgia road, Elinor road, Lakewood road, and Partridge road, the cost of this latter work being taken from the appropriation made for such streets.

The taking of profiles of streets for use in the study of a sewerage system for Weymouth, with the establishment of accompanying bench marks along the route traversed, has been continued and practically all of the town has been gone over and the results are being plotted on a map of the town streets at this writing.

Supplementary to the recent system of street numbering, various new streets have been numbered.

The general routine work for the town during 1928 covered the following: survey, staking, and setting stone bounds along line of the staking east of Weymouth Great Pond for the Water Department; design for grading of the Pratt School lot, and staking same; design, staking, taking profile and giving grades for drive on the Dunn (school) lot; taking levels and making estimate for grading the Nevin School grounds; grades for pond on the Bicknell School grounds; locating and staking portable school building at Washington and Winter streets; the last five being done for the School Department; survey, elevations and preliminary plan showing a suggested relocation of Pleasant street starting from a point at or near land of Bradford Hawes and running northerly by a route easterly of its present location to Lovell's Corner, together with a preliminary plan showing a suggested widening of the present location from land of Bradford Hawes to Lovells' Corner; staking and giving grades for newly accepted, and for other streets; descriptions of streets recommended to the town for acceptance; staking street lines for abutters when so instructed by your Board; examination of street lines on plans filed for registration in the land court; surveys, staking and grades for permanent construction of Pleasant street; giving lines and grades for curbstone and for permanent sidewalk construction and measurement of the latter when completed; taking profiles, staking and giving grades for town drains; surveys for and court attendance on land damage cases; staking entrance to Weston Park; survey and plan of a proposed junction of Middle and Commercial streets at the northerly end of Legion Field; and other work for various committees and departments of the town.

Perhaps the most important of this latter work was the design and construction for the High School building committee of a septic tank 3 feet long, 14 feet wide and 9 feet deep (inside dimensions) or reinforced, waterproof concrete, with all necessary appurtenances, connecting with a sewer nearly 1-4 mile in length skirting the meadow on the easterly side of Middle street; this tank was designed for 800 pupils and will probably care for 1000 if necessary. About 135 tons of concrete and 3 2-3 tons of steel were used in its construction.

Later a smaller tank to accommodate 100 persons was designed for the new town office building and connected with the above mentioned sewer.

I wish in closing to extend my thanks to your Board, to other town officials, and to many citizens of the town, for assistance rendered and for courtesy shown to me or my assistants in our work throughout the town.

Respectfully submitted,

RUSSELL H. WHITING,
Civil Engineer.

REPORT OF THE BOARD OF HEALTH

To the Citizens of the Town of Weymouth
Gentlemen,

The Board of Health organized March 16 with the same members as last year.

J. E. Ludden was appointed inspector of plumbing and Geo. Marshall deputy inspector.

M. L. Loud inspector of milk and dairies.

James Menchin inspector of slaughtering.

Catherine Pratt tuberculosis nurse and Jeremiah Donovan care of the dumps.

Much time and labor has been expended in gathering data on the collection of garbage and the various methods of disposal investigated.

The following is a report of our investigations:—

To the Selectmen of the Town of Weymouth:

In pursuance of a vote passed at the annual Town Meeting held in March, 1928. that the Board of Health report at the next annual Town Meeting, an expression of their opinion relative to the collection and disposal of garbage, this report and recommendations are submitted to you for consideration.

There seems to be some differences in the understanding of the terms, garbage, swill, refuse, and waste. There are many complaints made of the mal treatment of garbage, when refuse and waste are the disturbing elements. Let us consider garbage to be the animal and vegetable waste matter produced wherever food is handled or prepared for consumption, and not the waste and refuse such as crates, cartons, papers, tin cans, and the like.

The collection of the garbage would not clean our streets of the refuse and waste that adorn many a road side, and, therefore, a simple system of garbage collection would not be adequate. For this reason the Board of Health recommends that these two problems be considered as one, and now present a plan for such improvement.

This collection and disposal of garbage and refuse may be either a private or municipal enterprise. If it is to be undertaken by a private contractor, it is essential to the Town of Weymouth that an agreement, like the one appended, be made and properly signed. If it is to be a municipal endeavor, it should be placed in the hands of the Public Works Department, so that the advantages to be gained by unified control, e.g., supervision, garages, trucks, chauffeurs, and labor, may be appreciated.

COLLECTION:

Let us first consider collection. In most of the towns in Massachusetts the collection is attended to by the Health Department, but in the cities, the Street, Highway or Public Works Department is generally held responsible.

The Massachusetts Department of Public Health states that the collection and handling of garbage should be under what corresponds to the Department of Public Works rather than the Board of Health because of the fact that the other resources of the Public Works Department, such as surplus equipment and labor, make for efficiency in handling garbage at times of pressure and at times following heavy snowstorms, but the department felt that it was important that the transportation of garbage on the highways should be subject to regulations by the local Board of Health. The Collection and transportation of garbage is a matter of traction rather than health, and is seems preferable that the work should be done by the Street, Highway, or Public Works Department. It is inevitable, however, that complaints will be made to the Board of Health, and it would seem advisable that the local Board of Health should maintain some supervision over the collection of garbage.

In the recent reorganization of various local Boards of Health the tendency has been to give these Boards of Health power to supervise the collection of garbage. The Board of Health should be authorized to inspect the work of garbage collection and its results, particularly as regards the suppression of odors and nuisances, in order to protect the public health.

REGULATION FOR HOUSEHOLDERS:

Certain definite regulations would need to be made for guidance of householders in obtaining most satisfactory service, such as uniformity in size and type of containers, their proper placing for collection accessibility, draining and wrapping in paper before depositing in container, etc.

If the garbage is to be fed to swine, much more stringent regulations must be enforced, such as forbidding use of disinfectants in containers and the placing of glass, crockery, razor blades, nails, cans, etc., with the garbage. If the material is to go to an incinerator, the latter restrictions are unimportant.

COST OF COLLECTION:

The cost of collection is dependant, first, on the total amount handled; second, the frequency of collections and third, the length of the haul to disposal stations.

TOTAL AMOUNT:

Considering, first, the total amount of garbage, we find that the Massachusetts Department of Public Health reports as follows on municipalities in Massachusetts:—

18 municipalities under 25,000 pop.—143 lbs. per capita per year
8 municipalities 25,000 to 50,000 pop.—223 lbs. per capita per year
11 municipalities over 50,000 pop.—196 lbs. per year

It is to be expected that in the case of small towns a considerable portion of the garbage is never collected, but is fed to hens or buried or burned in back yards; also, in the smaller towns, a relatively large proportion of the population is located in the sparsely settled portions and is not served by garbage collectors.

And the Boston Society of Civil Engineers, in a comprehensive survey of the same subject, states that the following average values are characteristic of the quantity of garbage collected in New England:

Quantity of garbage, 250 lbs. per capita per year
Seasonal variations:
Minimum month (spring), 75 per cent of average.
Maximum month (fall), 130 per cent of average.
Average weight per cubic foot, 40 to 50 lbs.

Assuming a Weymouth population of 20,000 we have therefore a yearly collection of 2500 tons, or a daily collection of about 8 tons. Rubbish and refuse would probably run 2 to 3 tons per day, or an average total of 10 tons per day, with seasonal variations.

FREQUENCY OF COLLECTION:

Frequent collections increase costs very materially, as they result in longer hauls. Such increased costs have to be balanced against the greater satisfaction to those served.

The questions of frequency of collection, size of household containers and complaints are closely related. By providing sufficient containers of ample size, and by keeping them clean, householders can obviate the necessity for undue frequency of collection and at the same time will have less cause for complaining about the service. The size and care of household garbage pails seem to be matters that might well be regulated by municipal ordinance. Many complaints about frequency of collection are undoubtedly due to the failure of the householder himself to provide enough pails, or pails of sufficient capacity, to hold the garbage accumulating between collections.

The general practice in Massachusetts seems to be two collections a week from residences. In many cases one collection per week is made during the colder months.

In the case of restaurants, hotels and markets, daily collections appear to be very generally in effect, because of the large quantities of garbage produced. Here frequent collection does not involve as heavy costs as in residental districts, due to the fact that the business district is usually of limited extent, and the amount of time, labor and haul involved is relatively small. Such collections are frequently made by crews and equipment specifically assigned to that duty.

While it is impossible to lay down any hard and fast rule relating to the frequency of collection, it does seem desirable to have not less than two collections weekly in summer and not less than one in winter from residences, and daily collections from hotels, restaurants and markets.

METHOD OF COLLECTION:

Collection can be made either by private contract system or by the town itself.

The disadvantages of the contract system are:-

(1) Tendency to sacrifice sanitation to profit.
(2) Slowness in responding to complaints of the public, and therefore.
(3) Disinclination of the public to co-operate.
(4) Difficulty in dealing with emergencies with a limited equipment. This includes the handling of complaints.

(5) Difficulty on the part of public officials of obtaining data
(6) Difficulty in determining qualifications of bidders.
(7) Tendency of Contractor to cut corners on a losing contract.
(8) Difficulty in anticipating changed labor or commodity conditions.

Whereas the advantages of municipal collection are.:

(1) The governing motive is sanitation, not profit.
(2) Public officials having direct control respond more readily to the demands or complaints of the public, and therefore -
(3) The public co-operates more readily.
(4) The service is more flexible, since other city departments can aid; this flexibility is important in emergencies.
(5) Facility in obtaining data.

It is significant that nearly all the larger municipalities in this country have adopted municipal collection, and we recommend it for Weymouth.

COST OF COLLECTION

Cost per ton. Because of the fact that very few municipalities record the quantity of garbage collected, the data available in regard to cost of collection per ton of garbage are very meager. The cost per ton ranges from $2.26 at Pawtucket, R. I. (1926) to $8.13. at Lynn(1925.

Municipal collection in Brookline, where the service is quite satisfactory, cost $4.48 per ton in 1924 and $5.62 per ton in 1926. using motor trucks.

The average cost of garbage collection in five New England Municipalities for 1925, was $5.23 per ton, and the corresponding figure for seven municipalities in 1926 was $5.05 per ton.

Based on 2500 to 3000 tons per year, the cost of collection for Weymouth might be expected to approximate $15,000 per year.

DISPOSAL:- Feeding or Incineration.

The two most common methods of disposal in the smaller municipalities are by feeding to swine and by incineration.

Hog feeding has the advantage of reducing the municipal cost thru the sale of garbage collected, or its utilization by the town for feeding if it wishes to engage in the business of swine raising. It has the disadvantages, first, that feeding garbage to swine may creat very unsanitary conditions.

Conditions at some piggaries are objectional, due to such causes as low ground, poor drainage, improper cleaning, storage of surplus garbage in unfit places, accumulation of waste garbage and manure, lack of water supply, and careless, unsanitary methods. Many piggeries are located too close to the main highways or to building developments.

Second, that length of haul and passage through other municipalities may involve sanitary as well as economic difficulties.

Third, that existence of danger from hog cholera, from epidemics of hoof and mouth disease and other diseases, and from harmful substances found in garbage.

Fourth, that part of garbage is unsatisfactory as hog feed.

Coffee grounds, grape fruit and orange skins, melon rinds, dry sweet-corn husks and cobs, celery tops and potato parings are bulky and practically worth less for hog-feeding.

Fifth, that production of manure and accumulation of uneaten garbage involve many problems of sanitation that are difficult of solution.

All these objectionable features are eliminated by incineration, which has the further and great advantage of destruction, at the same time, of all rubbish and refuse. The mixed refuse from cities and towns contains enough combustible material to develop a temperature sufficiently high to destroy the garbage without the production of odors in the flue gases. Temperature above 1200 degrees F. are commonly required.

In many municipalities, such as Portsmouth, N. H., the combustible rubbish is sufficient in quantity to wholly consume the entire collection of garbage, and in other municipalities but a small amount of additional fuel is required. Naturally, the economy of operation is largely dependant on the type of incinerator installed and the care given to its operation.

The cost of disposing of garbage by incineration would not be more than one ton of coal a day, plus the labor of one man for each incinerator. If properly cared for it should not be that. For the average garbage contains sufficient amount of combustible material to maintain a degree of heat sufficient to destroy itself. In fact, an incinerator after a day's operation holds its heat from 24 to 36 hours, therefore, rekindling it not usually resorted to if the plant is used daily.

By adopting this method of garbage and waste disposal Weymouth is taking the first steps toward the removal of ashes, which subject has been under consideration.

The Board of Health believes that within a year, at the cost of $20,000 annually, the Town would provide for its care and operation of its incinerators, collect its ashes, and begin to fill many of the mosquito breeding low places, thus improving its scenic and sanitary condition.

We recommend the building of two incineration plants, one at, or near Middle St. and Washington Street; and one at or near Commercial Street between East and North Weymouth. These locations would materially cut the length of haul and lessen cost of equipment and collection. These incinerator plants should have an initial capacity each of 5 to 6 tons per 8 hour day, with provision for an additional unit in each, doubling its capacity. Plants of this character are obtainable of a design requiring the services of but one attendant for each plant, at a cost of approximately $12,000 per plant suitable housed.

The recommendation of the Board of Health is that $45,000. be raised for this improvement.

One hundred and seven complaints have been investigated and taken care of. A large percentage of these complaints were where cess pools were overflowing and in some cases flowing down the gutter.

At the beginning of the School year there was quite an extensive epidemic of measles, 145 cases being reported. There were 10 cases of dog bites reported. as compared to one last year, there were 20 cases of tuberculosis as to 16 in 1927 and 2 cases of antirio poliomyetitis as to 12.

On Dec. 1 a case of small pox was reported to the Board. The report was received the middle of the after-noon and the case sent to the contagious hospital that evening, the house quarantined and all contacts vaccinated.

The following is the list of contagious diseases reported during the year

Chicken Pox	19
Antirio Poliomyetitis	2
Diphtheria	10
Dog Bite	10
Influenza	13
Pneumonia	5
Meningitis	1
Measles	145
Mumps	10
Scarlet fever	78
Septic sore throat	1
Small pox	1
Tuberculosis ,	20
Typhoid fever	2
Whooping cough	19
Sleeping sickness	1

Respectfully submitted,

GEO. E. EMERSON
JOSEPH CREHAN

TOWN OF WEYMOUTH..
Office of the
BOARD OF HEALTH
East Weymouth, Mass., Dec. 31, 1928.

REPORT OF INSPECTORS OF PLUMBING

To the Honorable Board of Health of the Town of Weymouth, Gentlemen:

We herewith submit our report for year ending Dec. 31, 1928.

There has been issued from this office 449 permits for installing plumbing together with 6 left over from 1927, of this number 453 have passed inspection and 2 remains left over for 1929.

There has been installed in old and new buildings the following fixtures: (575) closets, (504) lavatories, (418) bathtubs, (428) sinks, (346) trays, (11) showers, (1) cellar drainer, (2) washing machines, (14) drinking fountains, (40) urinals, (2) ice chest wastes, making a total of 2341 fixtures the value of which was $182,005.00.

The number of old and new buildings in which plumbing was installed are as follows: (320) new one family houses, (79) old one family house, (24) old two family house, (1) old three family houses, (1) new school, (7) new two family houses, (2) new dance halls and eating houses, (1) old six tenement house, (1) new garage, (3) old offices, (1) old church, (14) new stores,(1)old 7 family house, (1) new greenhouse, (1) new town office building, (1) gas station, (2) old schools, (1) old factory, (1) old restaurant, (1) new office and store room, (1) new barber shop, (1) new parish hall, (1) old town barn.

Respectfully submitted,

JOSEPH E. LUDDEN
Inspector of Plumbing
GEO. MARSHELL
Deputy Inspector.

REPORT OF COMMITTEE ON NEW TOWN HALL AND WAR MEMORIAL

Weymouth, January 15, 1929.

To the Honorable the Board of Selectmen:

Our new Town Office Building, so urgently needed and so anxiously awaited by our Town Officials who for many years have done their work under serious handicaps, is finished and the Town Departments moved into it on Monday, December 24th, 1928. By vote of the Board of Selectmen the Building is to be officially known as the WEYMOUTH TOWN HALL, and the formal dedication exercises will take place on Friday 22nd, 1929.

The Committee is glad to be able to report that in spite of some unforeseen expenses, not allowed for in the original estimates, which the Committee felt it necessary or advisable to assume, we have kept within our appropriation and have done more in the way of equipping the building and fixing up its grounds than we originally planned to do out of this year's appropriation.

The building and its appointments have met the hearty and enthusiastic approval of the Town Officials who have to do business in it, and the work has been highly praised by officials of other towns, who have expressed surprise at our being able to accomplish so much for so little money. Architectural magazines have commented upon it as one of the outstanding achievements of the year in municipal building and planning, and it has been held up to other towns as an example of what a Town can do in this line.

The full beauty of the building will not be evident until the "new" appearance of the bricks has worn off by one or two years' exposure to the weather, the lawn has developed, and the trees and foundation planting for which the landscape plans call, have been set out and had a chance to grow. The parking space between the building and the High School should also be constructed, proper entrances and exits to it provided and the space surrounded by shrubbery.

Now that the building is completed the proper decoration of its walls should receive consideration. National and Town flags, the banner presented by Weymouth, England, and photographic copies of the muster rolls of the companies which went from the Town in the Revolution, the War of 1812 and the Civil War ,and other documents of historic interest to the Town have been framed and hung on the walls. In the central rotunda there are four spaces left for mural paintings of scenes in the Town's history. Since any painting will take a year or more to execute, the matter of filling these spaces should be taken up and an appropriation made to engage an artist for the purpose.

In our report submitted last October and in that of the Appropriation Committee it was stated that "it is impossible to tell definitely what will be needed for the various miscellaneous items until the Town officials move into the building and learn from experience what is needed." At the date of this report it is too soon to tell just what more will be needed in the line of furniture and equipment, but from present indications it will be very little. With the two months' experience which will intervene before the Annual Town Meeting, the various Town Departments can tell what if any further equipment they will need, and the facts with appropriate recommendations will then

be submitted to the Appropriation Committee and the voters.

The Committee desires to thank the several Town officials for their helpful suggestions and co-operation in the work of planning and furnishing the building. These have enabled us to meet their needs as we should never have been able to do, had we not had throughout the benefit of their ideas, and the result is a building which we confidently believe, with the provisions for expansion contained in the building itself, will meet the needs of the Town for at least a century. Thanks are also due to the Weymouth Chamber of Commerce, whose Secretary, Mr. Negus, is a member of this Committee. With their consent he has taken the necessary time to give personal supervision to the details of construction and furnishing, and his experience in construction work has been of great value to the Committee and the Town.

Mrs. Jennie B. Worster has presented to the Town a clock to be placed in the central rotunda of the building in memory of her son, the late Russell B. Worster. It is probable that there are others who may wish to make memorial gifts or to place in the rooms articles of furniture which will be in keeping with the colonial character of the building. If so, they should communicate at once with the Town Clerk who will inform them what articles can be used.

OPEN AIR THEATRE

One of the reasons which led this Committee to recommend the construction of the civic centre on the grounds adjoining the High School was the unique opportunity which the terrain in the centre offered for an open air auditorium at very small expense. The High School has long ago outgrown its present hall, and needs such an auditorium for its graduation exercises and other public functions. This in turn offers an excellent opportunity to utilize the street side of the wall back of the stage for tablets with the names of the men who have gone from Weymouth to serve their country in time of war. Weymouth is almost the only town of any size which has no commemorative list. At the last Annual Town Meeting this plan was unanimously approved, and an appropriation made for plans estimates and preliminary work. One of the uses to which this appropriation has been put is to make up correct lists of the men whose names are to appear on the tablets. The difficulties encountered in doing this have only served to emphasize the necessity of accomplishing the task without more delay, while the Committee can still avail themselves of the personal knowledge of the families and comrades of the men concerned. This is well illustrated by our experience with the Civil War list. At the close of the war each Town in Massachusetts was obliged to compile a book with the military record of each man who had served to the creditof the Town. We expected that compiling this list would involve only copying and arranging the names from this book. As a matter of precaution we had each record checked by the original rolls in the office of the Adjutant General at Washington, and found to our surprise that not only were names and ranks wrong in a considerable number of cases, but that the data as to some of the men who laid down their lives for their country were incorrect. One man was recorded in the Town Records as having died in a rebel prison who as a matter of fact was released on parole and sent home. These difficulties are of course increased in the case of other wars, where no offi-

cial Town list was kept, and we must ascertain whether a man lived in Weymouth or not. As one means of checking this we are having copies made of the census lists of Weymouth families from 1790 to 1850. The value to the Town in the present and future generations of having these lists made up and checked by the original government records can not be overestimated . When they are finished Weymouth will have records on this subject which for accuracy and completeness will not be surpassed by those of any Town in the United States.

The Civil and Spanish War lists are herewithprinted. It is, of course, possible that there may be ommissions or typographical errors, The most likely case of an ommission is that of a man who, though living in Weymouth, enlisted from some other place, as there is no way of checking this fact from the official records. The citizens of the Town are accordingly requested to examine these lists carefully, and notify the Town Clerk at once in writing of any error or ommission which they think exists, giving the documentary or other authority for their belief.

It was unfortunate that when the Special Town Meeting was called last October, your Committee was obliged to act with such haste in order to make its recommendations to the Town Meeting that it was impossible to have available the details of the plans, with the result that many members did not understand the project, which had been approved by unanimous vote of the Town Meeting in March last, and consequently no action was taken at that time. The plan of your Committee was to build the open air theatre by taking the dirt away from around the Town Hall, thereby "killing two birds with one stone", so that the only special expense of grading around the Town Hall would have been the finishing and surfacing. The failure to appropriate for the theatre at that time made it impossible for the Committee to do this as under the head of grading for the Town Hall, only the surfacing had been considered, and the Town would have been subjected to a large extra expense beside the possibility of the basement of the Town Hall being injured by drainage during the winter, had it not been for the timely and public spirited action of the School Department. The Building Committee of the new wing of the High School recognized the necessity of saving this dirt and placing it where it would be needed for the future development of the grounds. This was a part of the grading of the School grounds, which they could properly undertake, and, having money available for the purpose, they in a fine spirit of co-operation for the interest of the Town moved the dirt and placed it where it will be needed in connection with the plan for the open air theatre already approved by the Town. We feel that the thanks of the Town are due them for their action, which has resulted in a material saving of money to the Town.

Although the War Memorial appropriation at our disposal would have permitted us to do more, we have not felt at liberty under the head of "preliminary work" to go further that to prepare the ground for the execution of the plan which the Town has endorsed. By arrangement with the School Building Committee we have put in the foundations of a wall to retain the dirt where they have placed it, and have graded the ground down to the street and put in the flagpoles, in order to comply with the law regarding the display of the national flag on school grounds and to display the Town Flag in close proximity to the Town Hall. We have also arranged for the moving of

certain trees to sites where they are needed for symmetry, thereby improving the view of the buildings from the street. This work will expedite the building of the theatre and wall, and yet commits the Town to nothing beyond the present appropriations, for the work could be made the basis of a terraced treatment of the grounds, so that little or nothing would be wasted.

We recommend an appropriation of $16,000.00 for the construction of the theatre and wall and the placing of the commemorative tablets. Even if the work is commenced immediately it is doubtful if the turf will be sufficiently established so that the theatre can be used before the Spring of 1930, so if it is to be available for the use of the school in that year, no further time should be lost.

WAR MEMORIAL TOWER

One of the chief reasons which led us to recommend placing the Town Hall on its present site was the opportunity offered by the knoll Easterly of the South Wing of the High School to erect to the men of Weymouth who have laid down their lives for their country, a suitable Memorial in a place where it would balance the Town Hall and where the coming generations of school children would see it and learn its significance. Without such a structure to balance the Town Hall the entire group of buildings looks one-sided. As this plan was unanimously approved by the Town at its last Annual Town Meeting, we recommend that it be proceeded with without further delay. From figures we have we estimate the cost of a tower at $20,000.00, and we have definite figures of $19,900.00 for a chime of 15 bells in the key of E-flat, which after hearing several chimes we recommend as the one best suited to our needs. There will be a small expense also to grade and embellish the grounds. We expect to have more definite figures before the Town Meeting. In view of the Massachusetts Bay Tercentenary in 1930, when millions of visitors from all over the country will come to our State, civic pride demands that we have this entire group ready to show at that time.

PARTICIPATION IN MASSACHUSETTS BAY TERCENTENARY

Weymouth is the oldest settlement in the Massachusetts Bay Colony, the 300th anniversary of the transfer of whose government from England to America will be fittingly observed throughout our Commonwealth in 1930. Nearly all the historic Towns of Massachusetts are planning to participate in this celebration, even though they themselves were not settled until after 1630. In view of Weymouth's unique position in the Bay Colony and the fact that William Blackstone, the first white settler of Boston, went there from Weymouth, we certainly cannot afford to let pass this opportunity of calling attention to our Town.

By vote of the Board of Selectmen, the General Society of the War of 1812, an organization founded in 1814 by veterans of that war after the heroic defense of Baltimore and Fort Henry, which gave us our national anthem, and now perpetuated by their descendants, has been invited to hold its biennial meeting in 1930 in our New Town Hall, and the invitation has been unanimously accepted. After conference with the Massachusetts Bay Tercentenary Committee, and a consideration of all the factors involved they recommend and we concur in the recommendation that this meeting be the centre of our celebration. We feel that the Town should not spend a large sum of money, and accordingly with the approval of the general tercentenary committee

we recommend that Weymouth's part in the celebration take the following form:

1. An exhibit in some public building, open two or three days a week, for at least a month, of articles illustrating the life and industries of colonial days. Carding, spinning, weaving, rag braiding and the old methods of cookery by the open fire can be illustrated. Specimens of the clothing, books, implements and furniture can be collected and shown. An investigation made in 1926 showed that there are many such articles in Town which people will be willing to loan if they are assured of proper protection from fire, theft and injury. Such an exhibit will not only be an attraction to visitors, but will be most interesting to our own townspeople.

2. An old time military encampment or muster of the time of the Revolution or War of 1812, lasting four or five days, with drills and ceremonies each afternoon. There are many historic organizations dating back to the 18th century, who would no doubt be glad to send detachments to such a celebration, clad in their historic uniforms. Such a feature would be unique and impressive, and the expense would be small. This feature should, of course be held so as to include the date of the convention of the Society of the War of 1812.

3. Possibly a pageant in our open air theatre, illustrative of Weymouth's history.

We accordingly recommend that a committee be appointed by the Moderator, to include representatives of the Sons and Daughters of the American Revolution, the Society of the War of 1812, and the Weymouth Historical Society, and a member of the Board of Selectmen, to proceed with the plans for such a celebration, and that the sum of $300.00 be appropriated for committee expenses.

Respectfully submitted,

REPORT OF SUPERINTENDENT OF STREETS

To the Honorable Board of Selectmen of the Town of Weymouth:

Gentlemen:

I herewith submit my thirteenth annual report of the Street Department for the year ending December 31, 1928.

The total amount expended on streets, including special appropriations was $196,971.77 as compared with $245,947.99 expended in 1927. The amounts of the various items are shown in the summary of expenditures at the end of this report. The regular highway appropriation was divided to cover the different activities of the department and as in the past general repairs and oiling were the two large items.

The maintenance of all streets is included under General Repairs, such as the scarifing and reshaping of gravel roads that are injured by frost or traffic. The more extensive jobs under this heading were the widening and resurfacing of Central Street from White to Union Streets, covering the car tracks on Union Street, gravelling portions of West, Front, Ralph Talbot and Forest Streets. About 330 feet of Fogg Road was excavated, filled with gravel and a six inch bituminous top laid. At Weymouth Landing a portion of Broad Street near No. 248 was excavated and gravel filled and a new bituminous top laid. Considerable surface treatment work with gravel was done on Front, Winter, Federal, Summer and Idlewell Streets. Work in East Weymouth consisted of repairs to Lake, Spring, Essex, Middle Maple, Whitman, Broad, Commercial, High, East and Carroll Streets. At North Weymouth repairs were made to Evans, Beal, Green, Standish, Sea, Bayview, Leonard Road, Monatiquot and Birchbrow Streets.

The cost of snow removal the past year was less than it has been for some years past, although the saving was offset by the damage done, due to the open winter with alternate freezing and thawing.

The crusher was operated as it has been for the past few years at Keith's gravel pit at East Weymouth and the following is a statement of costs:

SUMMARY OF CRUSHER ACCOUNT

Labor	$6,410.05
Power	405.24
Repairs and supplies	433.04
Gravel	431.82
Cost of operating—Total	$7,686.15
Tons crushed	12,780
Cost per ton	$0.60

More money was expended on gravel sidewalks than for several years, many walks being reshaped and surfaced with stone dust.

A new loading machine for handling gravel and crushed stone was purchased which has proved satisfactory and economical. A two ton Graham Truck was also purchased to replace one of the old Netco trucks.

Surface oiling work was extended, taking in several new streets so that practically every accepted street was treated.

Many signs and fences are broken by automobiles running into them and it has been rather difficult to collect from the parties causing the damages. $2534.97 was expended for signs and fences.

The department building on Commercial Street was painted on the outside and minor repairs made to the interior.

SPECIAL APPROPRIATIONS

The appropriation for permanent construction was $25,246.71 and the amount expended was $23,725.79. The work consisted of six inch asphalt macadam, both base and top courses being penetrated with asphalt. The west side of Pleasant street from Lovell's Corner north, 1315 feet was completed so that from Lovell's Corner to Water Street the pavement is all asphalt macadam. Due to the fact that the question of widening Pleasant Street from Lovell's Corner south was undecided, work from Columbian Square south was done for a distance of 930 feet. This stretch took in Nash's Hill which has been a source of trouble for many years. The old surface was excavated to the depth of two feet or more and replaced with gravel and then a six inch asphalt macadam surface laid. Three new catch basins were

built and the existing drain enlarged so that the surface water is now properly taken care of. On Union Street near Bates Avenue two short pieces were excavated and resurfaced. The entire appropriation was not expended, due to the lateness of the season.

Permanent sidewalks, consisting of tar concrete were laid as follows: Pleasant Street east side, between Park Avenue and Ralph Talbot Street, 922.93 sq. yards; Torrey Street, north side, 656.14 sq. yards; Middle Street, west side from Central Square north to Town Hall, 771.53 sq. yards; Middle Street from Academy Avenue to Commercial Street, 648.9 sq. yards; North Street, west side, from Church Street to Street Railway turnout, 1388.1 sq. yards; Commercial Street from Rhines Lumber to Tufts R. R. crossing 658.9 sq. yards; Front Street, east side, from Franklin Street towards Washington Square, 656.2 sq. yards; Main Street from Middle, northerly, 763.8 sq. yards; Main Street, corner of Pleasant, 77.7 sq. yards; Cottage Street adjacent new wall, 159.6 sq. yards; Commercial near Station, 98.9 sq. yards. 210 sq. yards of cement concrete was laid at Jackson Square. Main Street sidewalk from Independence Square south was a special appropriation and 737.61 sq. yards were laid. The total amount expended for permanent sidewalks, including Main Street sidewalk was $19,286.79. This type of sidewalk is greatly appreciated and should be extended. At present there are a number of old tar concrete walks that should have a resurface coat before they get beyond repair.

WORKING NEW STREETS

To go into detail regarding the construction of all new streets accepted last year would undoubtedly be of little interest. Practically all of them were of gravel construction with tarvia surface treatment. The following is a list of the streets worked and amounts expended:

Academy Avenue	$2086.56
Fairlawn	1606.12
Kingman	598.22
Nevin Road	1686.77
Orlando Avenue	619.00
Elinor Road	651.16
Georgia Road	885.28
Lakewood Road	1390.95
Ocean Avenue	1099.20
Partridge Road	788.99
Princeton Avenue	1117.95
Sagamore Road	1110.41
Filomena Street	691.48
Roosevelt Road	1144.00
Suwanee Road	600.93
Total	$15,385.54

Widening the corner of Broad and Commercial Streets:

This work included the widening of the so-called Austin Tirrell lot at Jackson Square which the Town has procured for Park purposes. The lot was regraded and a new concrete sidewalk and curb set, making a decided improvement in the Sqquare as well as providing additional parking space. $1,000 was expended for this work.

Filomena Street: $691.48 was expended on this street and the work included grading and resurfacing, also the construction of three catch basins to properly care for the drainage. A fence was also built along Madison Street.

Tremont Street Drain and Sidewalk:

This work included the covering of the existing drain and the construction of a sidewalk on the north side. $559.69 was expended.

Princeton Avenue Drain:

$2150.00 was appropriated to purchase a lot of land between Princeton Avenue and Standish Street, to lay a drain and construct three catch basins to care for the surface water on Princeton Avenue. This surface water was conducted from the catch basins to an existing drain at the corner of Standish Street and Johnson Road, a distance of about 550 feet. The lot of land purchased was staked out for a roadway and subgraded. This will be finished early in the spring and will make a much needed short cut to Standish Street.

Evans Street Drain: Due largely to the increase of water discharged from Bridge Street by the State enlarging their drainage system, it was necessary to rebuild the drain across Evans Street near Brewster Road. The two 10 inch corrugated iron pipes were replaced by a 30 inch reinforced concrete pipe and extended to Brewster Road. Considerable quicksand was encountered which made the work difficult, the cost was $1175.00.

Idlewell Bridge Approach: Idlewell Street from Commercial to the new bridge was widened, regraded and surfaced, also treated with a light coat of crushed stone making a much needed improvement to this new development.

Grass Plots: The work of caring for small grass plots at the intersections of streets was cared for by an unexpended balance from 1927. The plots at the junction of Elm and Pleasant Streets, Thicket and Pond and at Pond and Hollis Streets were curbed and seeded, making a much more attractive appearance. There are several other plots that should be treated in this way.

SUMMARY OF STREET APPROPRIATIONS

Regular Highway Appropriation 1928

Superintendent	$3,450.00
General Repairs	39,365.63
Maintenance of trucks	3,484.94
Crusher	7,680.15
Signs and fences	2,534.97
Street cleaning	6,266.38
Equipment and supplies	10,076.62
Bridges	900.00
Gravel sidewalks	5,018.67
Maintenance of department building	691.83
Drains and catch basins	3,216.34
Snow removal	6,790.11
Sundries	272.79
Oiling	32,877.32
Two ton Graham Truck	2,181.00
Exchange on Dodge	1,143.00
Total	$125,949.75
Appropriation March Meeting, 1928	$117,520.00
From Reserve Fund Dec. 1928	1,250.00
Crushed Stone	2,109.27
Use of Trucks	3,288.33
Use of rollers	1,160.50
Use of Bear Cat	552.75
Use of Tractor	12.75

Gravel	150.97
Total available Funds	$126,044.57
Balance to Treasury	94.82

HIGHWAY SPECIAL APPROPRIATION

	Appropriation	Expended
Permanent Construction	$25,246.71	$23,725.79
Working new streets, 1927 balance	577.77	577.77
Relocation street corners, 1927	1,302.41	28.40
Swan Ave. Drain, 1927 balance	229.73	229.73
Idlewell Bridge, 1927 balance	5,020.71	3,340.68
Care of Grass Plots, 1927 balance	796.23	649.14
Permanent Sidewalks	15,695.00	15,695.00
New Streets:		
Academy Avenue	2,260.00	2,086.56

Corner Cottage and Commercial Streets	3,000.00	2,999.48
Corner Washington and Middle Streets	500.00	21.12
Filomena Street	700.00	691.48
Tremont Street drain and sidewalk	600.00	559.69
Main Street sidewalk	3,591.79	3,591.79
Princeton Avenue Drain	2,150.00	2,057.41
Evans Street drain	1,175.00	1,175.00
Total of Appropriations,	$78,313.35	
Amount Expended		$71,722.02
Balance Unexpended		$6,591.33

IN CONCLUSION

The problem of sidewalk snow plowing is one that is becoming more serious each year, due to the lack of horses for this work. It will be but a short time before this work will have to be done by tractor plows. At the present time in East Weymouth a sidewalk tractor is needed to care for two routes that were formerly plowed with horses.

I wish to express my appreciation for the generous co-operation of the Board of Selectmen and to the Department employees for their support during the past year.

Respectfully submitted,

IRVING E. JOHNSON,
Superintendent of Streets.

NO SCHOOL SIGNAL

2-2-2 - 2-2-2

At 7.30 A. M., No session in any school during the morning.
At 8.00 A. M., No session in grades I to IV, inclusive, during the morning.
At 11.45 A. M., No session in grades I to IV, inclusive, during the afternoon.
At 12.45 P. M., No session in any grade during the afternoon.

GENERAL ANNOUNCEMENTS

MEETINGS OF THE COMMITTEE

Regular meetings of the School Committee are held the first Tuesday of each month at the High School Building at 7.30 P. M.

ENTRANCE AGE

No child shall be admitted to school in September unless he has reached the age of five on or before the first day of April preceding. Children entering for the first time will be admitted only during the first two weeks of school.

BIRTH CERTIFICATES

A birth certificate is required for entrance to the first grade.

VACCINATION

No child shall be allowed to enter the first grade without a certificate of successful vaccination.

Quotation from State Law—Chapter 76—Section 15

"An unvaccinated child shall not be admitted to a public school except upon presentation of a certificate like the physician's certificate required by Section 183 of Chapter III."

EMPLOYMENT CERTIFICATES

No child between the ages of fourteen and sixteen shall be allowed to leave school until a signed promise of employment card has been presented to the principal of the building in which he is attending school. Employment certificates are issued by Mr. Charles Y. Berry, at the Hunt School, Weymouth, every week day except Saturday, between the hours of nine and twelve.

REPORT OF THE SCHOOL COMMITTEE

To the Citizens of Weymouth:

During 1928 much material progress has been made.

In January the newly completed building at the Pratt School was opened, with four class rooms, an assembly hall serving both buildings, and a central heating plant.

At the opening of school in September the north wing at the High School, with twenty class rooms and the connected boys' gymnasium, construction of which was commenced in October, 1927, was ready. All the upper grades of East Weymouth are now attending here. The school is designated "High School—Junior Annex." All but two of these rooms are presently needed.

In November the portable formerly used at the Pratt, through the aid of a special appropriation, was erected, fitted and equipped on the lot at Middle and Washington Streets called the "Old Town House Lot." This school, called the "Center Portable," is attended by more than fifty pupils, first to fourth grades.

In December the new school at Pond Plain, not yet formally named, but properly called the "Pond School," was completed, and on January 2, 1929 it was comfortably filled with single classes of grades one to six, most of whom have transferred from the Nevin. The closing of the portable at the Nevin is thus permitted.

Among other important physical improvements have been the reconstruction in stone and concrete of the porches at the Old Pratt, and extensive grading of the grounds; a complete new heating and ventilating system at the Washington; and extensive filling and surfacing of the yard at the Nevin. The excellent sanitary drainage system at the High School was done as a part of the construction of the new north wing. It also serves the needs of the Town Office.

The prevailing annual increase in school attendance of about two hundred seems likely to continue. Conditions at the Landing have been unsatisfactory for some time, and new construction will be necessary. The Old Hunt School, with one exception is the only school in town needing exterior repair, and interior arrangements are poor. The building itself had better be discarded and removed. It cannot be economically or suitably rearranged, and years ago its removal was planned. Opportunity will be given at the annual Town Meeting to take up the matter of new and additional class rooms at the Hunt. We recommend that any action will include provision for an assembly gymnasium, similar in size and style to the boys' gymnasium at the High School.

A congested condition prevails at the Bicknell, where all class rooms, including the sewing room, are filled. Another class regularly meets in the assembly hall. Construction of new houses continues at North Weymouth, and the same are promptly occupied by new families. Erection of an addition to the Bicknell School cannot be long postponed. Such matter will also be in order at the annual Town Meeting.

Estimates for the coming year allow for the natural increase in the number of pupils and teachers, and an appropriate amount for maintenance and further improvement of buildings and grounds.

	Expenditures for 1928	Estimates for 1929
Administrative Salaries	$ 4,541.66	$ 5,000.00
Other General Salaries	1,911.00	2,150.00
Other General Expense	1,560.68	1,700.00
Teachers' Salaries	196,951.61	227,300.00
Text Books & Supplies	19,234.62	18,000.00
Transportation	16,717.80	17,000.00
Support of Truants	60.86	250.00

EDWIN R. SAMPSON

REPORT OF THE SUPERINTENDENT OF SCHOOLS

Members of the School Committee:

I take pleasure in submitting for your consideration and approval the forty-third annual report of the Superintendent of the Weymouth Public Schools. It is the twentieth in the series of reports that it has been my honor and privilege to present to you, who direct and determine the policies of our educational system.

Although the past year has been one of progress, it has been characterized by the consolidation of the gains made previously. The completion and organization of twenty-eight new class rooms, the search for and placing of new teachers, the rearranging of the pupils in the old buildings, and the distribution of pupils among the new, together with the complications and readjustments which such changes cause, have consumed the greater part of the time and energy of this department. For this reason, I shall confine myself to a brief record of what has been accomplished, and to a few recommendations as to future needs, leaving to the principal of the High School, the supervisors, and the heads of special departments, the discussion of those things that more nearly concern them and the progress of their work. I bespeak for their reports your careful attention.

BUILDING PROGRAM

The building program which was undertaken nearly two years ago has been completed. The Pratt School, with its four rooms, hall and provision for heating the old building nearby, was finished just one year ago. The High School—Junior Annex, with its twenty class rooms, gymnasium, locker rooms, sewing room, and rooms for special activities, was completed the first of September. The Pond School, with its six rooms, hall, and three rooms which may be used for either class or special activities, has just been accepted.

All of these buildings represent the highest type of construction that we have yet undertaken, and they have been planned with the idea of eliminating, as far as possible, future expense. In the Junior Annex the corridors have terrazzo or cork tile floors with salt-glazed bricks for dadoes. The sanitaries are similarly constructed of terrazzo and brick. These materials make it possible to keep the most used parts of the building clean and healthful. The gymnasium is one of the finest in Massachusetts, and with its light, airy locker rooms, makes work within its walls a pleasure.

In the two elementary schools, the natural slope of the ground has been utilized to give halls of ample height, with stages, kitchens and dressing rooms. Full sized windows permit light and air to enter, and they are free from those defects commonly associated with basement rooms. The walls of finished brick preclude the danger of defacement by the children. The class rooms are made to seat not more than thirty-five. These new buildings have made it possible to reduce the number of pupils per teacher in those parts of the town affected by them.

In last year's report mention was made of the necessity of immediate action to improve conditions in the Hunt School group. We have four grades in the old Hunt School, a building little suited for school purposes, three grades in the Lincoln School, which is one of the oldest buildings in town and which has been divided into long narrow rooms to accommodate the overflow from the other two buildings. The

seventh grade now occupies two rooms, and next year when it becomes the eighth, it will need two, although the present eighth uses but one. This gives a total of eight rooms which should be cared for in new construction. To provide for new growth and such additional accommodations as a modified junior high school might require, twelve rooms would be none too small a unit to construct. In addition, a hall, in the nature of a gymnasium, should be provided. I believe the people in those parts of the town where halls have been provided appreciate their value, both for school and public purposes. In Ward III we have no means of assembling the children to listen to lectures, to see pictures, or to benefit by any form of large-group instruction. Neither have we any way of exhibiting the children's work to their parents by means of special day activities.

The Bicknell School, which was completed less than three years ago, now has one hundred pupils more than the building was intended to accommodate. Since September, both the sewing-room and the auditorium have been used for class purposes, the overflow of the first and second grades being placed in one, and of the third and fourth in the other. In order to provide for the rapid growth in that part of the town, it will be necessary to construct the eight additional rooms called for in the original plans earlier than was at first contemplated. It is always a good policy to have building construction keep up with growth. Any one familiar with conditions in town will realize that delay means accumulated building later on.

In accordance with a vote of the Town taken on September 24th, the two-room portable at the Pratt School was moved to the old town house lot at he corner of Middle and Washington Streets. This school was opened on November 26th, with an enrolment of thirty-four in the first and second grades and twenty-one in the third and fourth grades.

The Franklin School, a four-room building, and the Pond School, a one-room building, have been closed.

REPAIRS

Aside from the minor repairs which always occur and must be provided for, the following major undertakings are worthy of mention.

Washington School

Installation of a steam heating system, with univents in all rooms.

Pratt School

Grounds graded, buttress walls of old building re-set, and wooden steps and platforms to entrances replaced with cement.

Nevin School

Grading of the grounds and painting exterior of building.

Hunt School

Interior of building painted and repaired.

Lincoln School

Interior of building painted and repaired.

High School

Exterior of old building and south wing painted outside. One corridor painted and ceiling whitened. Seven class rooms, one fire well, and lunch room painted and ceilings whitened. Partition doors installed for shutting off hall from rest of building.

REPAIRS RECOMMENDED FOR 1929

High School

Interior of original building renovated. One corridor in south wing painted and ceilings whitened.

Washington, Jefferson, Humphrey, Shaw Schools

Painted one coat outside.

Old Pratt School

Exterior stuccoed, boiler and partition walls removed from basement and new toilets installed. (Recommended last year.)

Adams School

Interior re-arranged to provide for four class rooms instead of two. Balance of basement excavated and cemented.

SALARY SCHEDULE

The new salary schedule which has been prepared embodies as far as possible those features which have been found helpful elsewhere in the state. Briefly stated the provisions are as below noted.

During the first three years the teacher receives an annual increase of $100.00, with an additional increase of $50.00 at the end of the third year, provided approved courses amounting to thirty hours of college standard work have been done within the three years.

During the next three years the teacher likewise receives an annual increase of $100.00 with an additional $50.00 at the end of the sixth year, provided thirty hours of college standard work have been done within the previous three years.

Above the regular maximum of $1600.00 for elementary grades, $50.00 increases will be given on the completion of each thirty hours of college standard work, not more than one increase to occur in any one year, and the total increases not to exceed $200.00.

The same general rules apply to the High School, with the exception that $1800.00 is the regular maximum for women, and $2000.00 the super-maximum

Entrance salaries are based on the number of years of training, two years being the minimum. Each year above that entitles a teacher to $100.00 additional.

Principals and supervisors have no fixed rating, but are paid according to the number of rooms over which they have supervision, or the amount of work they are required to do.

The aim has been to have the teachers supplement normal or college training with further courses planned to assist in their individual work and keep them abreast of educational advancement. The number of those seeking professional improvement this year is very gratifying, and the character of the courses chosen is highly commendable. I am submitting below a list in order that we may have a record of what is being done.

CHANGES IN THE TEACHING FORCE

We have lost very few teachers during the year. Our chief problem has been the securing of new ones for additional positions. Of the new appointees eight are college graduates, four graduates of three-year Normal School courses, and eight have two years of training. Ten have previous experience, ranging from four to thirteen years.

In the death of Miss Alice W. Dwyer the High School lost one of its strongest, as well as most beloved teachers. Conscientious in her work, sympathetic in her attitude toward the pupils, she had gained the respect and good will of all in the school. For many years, in addition to the regular work of her department, she had given of her time and strength to extra curricula activities. The plays at graduation were her particular field of endeavor, and received favorable comment from all who listened and appreciated their worth. Miss Dwyer's loss will be felt seriously, not only in the department over which she had charge, but also in those activities which mean so much to the life of a school.

TEXT BOOKS

The increased cost of supplies and text books, as recorded in the financial statement, was due partly to the opening of new rooms, and partly to a more liberal policy in the replacement of old or soiled books. When one considers that in the original equipment of a room from ten to twenty sets of readers are sometimes required, in addition to the sets of arithmetics, geographies, spellers, and so forth, the total cost is large.

We have introduced new music readers in the first eight grades, new spellers in the seventh and eighth grades, and new physiologies in the fourth to eighth grades, inclusive. There is always a demand for supplementary readers, and these have been supplied in practically all grades.

A beginning has been made of furnishing the High School Library with suitable reference books and magazines. Since this library will serve more than twelve hundred pupils of the Junior and Senior High Schools, its shelves should be well stocked with literature carefully selected and adapted to the needs of all pupils and every department.

Nearly a century ago Horace Mann, the greatest American educator, wrote:—

> "How can this flood of pernicious reading be stayed? It must be done, if done at all, in the expressive language of Dr. Chalmers,—'by the expulsive power of a new affection.' A purer current of thought at the fountain can alone wash the channels clean. For this purpose I know of no plan as yet conceived by philanthropy which promises to be so comprehensive and efficacious as the establishment of good libraries in all our school districts, open respectively to all the children in the State, and within half an hour's walk of any spot upon its surface."

PENMANSHIP

At the time the Palmer Method of Penmanship was introduced a supervisor was employed for a number of years to outline and direct the work. The results were excellent, but as soon as all the teachers had become familiar with the system, and in consideration of the fact that all the young teachers coming from the Normal Schools were being trained in that or the Doner System, supervision was dropped for the sake of economy.

Recently there has been a falling off in the quality of the writing. For the sake of stressing the subject, Miss Katherine C. Fogarty has been employed to give her entire time to supervision. Penmanship is an important subject. In fact, pupils are more apt to be judged by their ability to write easily and well than by any other subject in the curriculum. Miss Fogarty has been one of our most successful teachers in the grades and this promotion, while deserved by her, should be of great value to the children.

HIGH SCHOOL

(Report of Mr. F. W. Hilton, Principal.)

Our High School accommodations have been greatly improved by the recent addition. We have been allowed to occupy six new recitation rooms and also a very commodious gymnasium with lockers and showers for the use of the boys. This has been very much appreciated. The number of students in the High School proper has had

a normal increase in spite of the fact that our last graduation sent out more than the usual number.

The general statistics are as follows:

Sources of entering class:—

Schools	Boys	Girls	Total	Trade School	Grand Total
Athens	10	18	28	3	31
Bicknell	11	17	28	4	32
Humphrey	26	51	77	16	93
Hunt	23	24	47	9	56
Nevin	19	23	42	3	45
Pratt	9	7	16	4	20
Shaw	5	7	12	3	15
Other Schools	30	32	62	25	87
	133	179	312	67	379

Classification of the Students according to Courses:—

	Freshmen	Sophomores	Juniors	Seniors	Total
Classical	84	55	34	33	206
Technical	37	22	26	19	104
Business	131	106	70	50	357
General	25	24	23	16	88
Agricultural	9	3	6	1	19
Practical Arts	26	16	14	8	64
	312	226	173	127	838
Post Graduates				2	2
Automobile Repair	21	13			34
Carpentry	18	10	7		35
Printing	11	4	3		18
Shoemaking	17	10			27
	67	37	10		114
Grand Total	379	263	183	129	954

Progress is only a measure of effort and the two are as closely allied in education as elsewhere through life. The attitude of the students and teachers toward maintaining high standards has been very satisfactory and reports from our graduates in higher institutions of learning have been gratifying. We believe that the Business and Practical Arts Courses have been considerably strengthened and are making very satisfactory progress. In the Trade School the Carpentry Department has completed another dwelling house and garage as its principal project for the year. The amount and quality of the work accomplished in all departments has been quite satisfactory. The entire shop work is productive rather than practice work, or as nearly so as we can make it in the different departments. Some idea of the extent to which this is true is shown in the following table:

Productive shop labor:—

Department	Year	Per cent. of shop time devoted to productivelabor
Automobile	1	90. %
Carpentry	1	93.6%
	2	100. %
	3	100. %
Printing	1	73.2%
	2	95.1%
	3	93.6%
Shoemaking	1	100. %
	2	100. %

While our most important duty is to teach the fundamentals, giving a reasonable variety of subject matter and a good foundation on which to build, we recognize that it is also the duty of a school to direct the attention of its students toward worth while activities. We have done considerable along this line and feel that there is growing demand for these outside curricula activities.

In athletics we have developed the usual number of teams and have had large groups in the various sports. In addition to this we are doing considerable work in the gymnasium, both corrective and recreational. The classes range from thirty to sixty pupils and occupy the full time of two instructors. For the past two years we have given a thorough physical examination to the incoming members of the freshman class, which should give a fair basis for determining the fitness of the various children for different athletic activities.

While the Director of Music will probably have a full report on this subject, I cannot refrain from expressing considerable satisfaction for the increased interest which is being developed toward band and orchestral music, both in the High School and in the lower grades. It gives a favorable outlook for future development in this line.

For some time past we have thought that the opportunity for developing a school library had been sadly neglected. The chief difficulty has been one of expense. This year, for the first time, a real start is being made which will give to our school this much needed facility. We hope that all students will thoroughly familiarize themselves with our library facilities for reference work so that they may be able to make use of public libraries wherever they may be. We know that such training will be of inestimable value to those going to higher institutions of learning and there are times when practically every person would find it beneficial. We wish to express our appreciation for the co-operation that has been so freely given by our Town Library.

Other activities that have special interest and deserve mention are: our school paper, public debating group, and literary clubs. Through the agency of these organizations many students are putting into practical use the ideas and theories which they have received in class-room work, thus acquiring greater facility and greater confidence in their own powers.

Awards granted to the members of the Class of 1928

Catholic Club Scholarship,	Alma Roche
Monday Club Scholarship,	Valerie Hersey
Alumni Scholarships,	Ruth Henley
	Warren Fabyan
Teachers' Association Scholarships,	Paula Kantala
	John Ghiorse
Medal for Meritorious Progress,	Gift of the Class of 1921
	Marie Ghiorse

Washington and Franklin Medal for Excellence in American History — John Ghiorse

In closing we wish to express our appreciation for the gift of three pictures, "Oath of Knighthood", "Lincoln Memorial", and "Original Colored Etching" by Chaban, voted by the Class of 1928 as a graduation gift.

AGRICULTURE

(Report of Mr. Hilmer S. Nelson, Director of Norfolk County Agricultural School, Weymouth Branch.)

When we speak of the agriculture that is being taught in the Weymouth High School, we associate such teaching with vocational agriculture where the student learns by doing. Upon signing the enrollment card the student, with the aid of his parents, binds himself to an agreement that he must carry during the four years a suitable home project or a supplement that is equivalent to a home project in the form of supervised agricultural work, either on his own farm or on an approved farm. All projects must be approved by the instructor in order that a satisfactory standard of work may be maintained. A proper correlation should exist between the study of the class room, the home, and the supervised farm project. We strive very earnestly to accomplish this because vocational agriculture emulates a working agriculture.

As the calendar year of 1928 comes to a close, we look back over the months and find a very interesting series of results. On June 21, 1928 four seniors were graduated. In the fall we find three of them entering the Massachusetts Agricultural College for four years study of advanced agriculture. The other senior (the first girl to complete the course) entered the Boston School of Practical Arts. We are glad to know that our graduates follow the vocation for which they have prepared. Of the eleven that have graduated since 1925, eight (or 73%) are furthering their efforts in agriculture.

The opening of school on September 4, 1928 showed an enrollment of eighteen students, divided as follows:

Seniors	1
Juniors	6
Sophomores	3
Freshmen	9
Total	19

There has been no loss of membership up to January 1, 1929. In comparing enrollments for the last four years we find little variation:

1925	17
1926	18
1927	20
1928	19

The project year, which extends from October 15, 1927 to October 15, 1928, has brought forth some interesting project accomplishments, as follows: 4 gardens, 4 combinations of garden and poultry, 1 combination of a garden and popcorn, another of dairy and sweet corn, another of garden and flowers, and 2 poultry The eleven garden projects totaled 2¾ acres with an average size of about ¼ of an acre; six poultry projects of 158 birds had a flock average of about 26 birds.

From our School Register, beginning September 6, 1927 and ending June 21, 1929, we notice the following interesting statistics:—

Total Membership	
Average Membership	19.48
Average Daily Attendance	18.39
Total Membership	198
Average Memberships	19.48
Per Cent. of Attendance	93.79

There have been included in our course of studies two very practical and interesting subjects—floriculture and forestry. In floriculture, three of the four periods each week are spent in practical work at the greenhouse of Mr. M. P. Ford, of East Weymouth. The seniors and juniors have no set class assignments, but take up seasonal work like the practical florist. An abundance of experience has been acquired, and at this point I wish to thank Mr. Ford for his generous support of this entirely new project, which, I believe, is the only one that has been or is in practical use in the state. Our Forestry project is also practical and has been assigned to the sophomores and freshmen. A six-acre forest, bordering on the shores of Weymouth Great Pond has been allotted to us by the Water Department of the Town of Weymouth. Every Tuesday morning three periods have been used to work on this project with the various phases of forestry management and reforestation. Many thanks are extended to Mr. Stevens and his Department for their splendid co-operation.

Items of Interest:—

1. The Weymouth Agricultural Club, a real functioning body of the Department, has been most energetic. Our adherence to and close co-operation with the county and state 4-H Club work has been most helpful.
2. Our weekly news items featured in the two Weymouth papers, have brought many favorable comments. Much credit must be given to the student editor, Arthur L. Garland, for his successful efforts. We extend our thanks to Mr. Prescott, of the Weymouth Gazette and Transcript, and to Mr. Mulready, of the Weymouth Item, for the generous allowance of space in their newspapers.
3. The students greatly appreciate the donation of $15.00, given to them by the Monday Club. As a result of this gift, an aquarium is already in use.
4. Nine fairs and shows were attended during the year, and the results of judging and exhibiting were very good. Trips were made to Boston Poultry Show, Union Agricultural Meeting at Worcester, High School Day at Amherst, Norfolk County Fair at Weymouth, Eastern States Exposition at Springfield, Topsfield Fair, New England Fair at Worcester, Brockton Fair and the Norfolk County Poultry Show at Walpole.

PHYSICAL EDUCATION FOR BOYS IN THE HIGH SCHOOL

Report of Oral A. Page, Instructor of Physical Education

The boys' work in physical education this year has been wonderfully stimulated by the addition of the new gymnasium and a complete set of apparatus, so that Weymouth now has one of the best equipped indoor plants of any school in the State. The gymnasium has a spacious floor, high ceiling, and balcony seats on either side of the floor for spectators. The well lighted locker room contains five hundred box lockers to accommodate the gymnasium suits and sixty large lockers for the street clothes used alternately by each class.

The shower bath facilities consist of a line of gang showers operated by one control to the desired temperature and finishing with two cold showers. Each boy is required to take a shower bath at the end of each class and as he leaves the shower room he is handed a clean towel to dry himself in the drying room. He leaves this towel in a clothes hamper as he passes out to the dressing room. The towels are sent regularly to the laundry. This towel service is greatly appreciated by the boys as well as their parents. It eliminates the customary disagreeable odor from the locker room as no soiled towels are stored there and the boys are required to keep their gym suits clean at all times.

The new apparatus added this year includes the following suspended apparatus:-climbing ropes, rope ladders, flying rings, and a wall swing-up horizontal ladder. These pieces offer opportunity for exercises from the hanging and climbing positions so valuable to strengthen the chest and straighten the spine and improve posture. Wands, mats, parallel and horizontal bars, a horse, a buck, and a volley ball outfit were also added, as well as balls and other play material for playing of mass games, so that variety can be given in the program and a boy can develop skill in apparatus work and tumbling.

The gymnasium work is preceded by a thorough physical examination of the student to find out whether it is safe for him to take gym work and to discover any defects which may be remedied by corrective exercises. The pupils are weighed and measured regularly to check up on their rate of growth, general health, and nutrition. They are also checked for posture. These measurements are stimulating a keener interest in student health and show some improved posture. Parents could help out the posture drive a great deal by insisting on correct sitting, standing, and walking positions in the home.

The gymnasium work for the boys who are passed by the medical examination consists of setting-up exercises, marching tactics, apparatus work, tumbling, group games, and mass athletics. The course plans to provide the boys with two periods a week of physical exercise; stimulate interest in good health and cleanliness; promote discipline and execution of orders given: provide opportunity to develop skill in handling the body; appreciation for playing the game according to rules and abiding by decisions; and a keen interest in healthy living and true sportsmanship.

For those with remedial defects, corrective classes are organized in small groups. There is a special room for this work with apparatus to help nature in building a sounder body. Notices are sent to the parents of any defects which should be handled under their supervision such as removal of diseased adenoids and tonsils; eye examination for glasses; and visits to the dentist for necessary work on the teeth.

The work is required of all boys in the seventh and eighth grades and of all freshmen and sophomores in the High School. It is elective for juniors and seniors. Nearly 90 % of the juniors elected gymnasium and 25% of the seniors. The boys in the Trade School also take gymnasium at least one period per week wherever their program permits. For those whose program does not permit, a special class is run every Tuesday afternoon after school for all Trade School boys wishing to get the work ,

During the fall, cross country running was started for those boys

not playing football. Other after school activities include track in the spring, and class basketball during the winter for the mass of boys who do not get opportunity to play on the school teams. A grammar School league has also been organized. Each school in town may send a team to the High School gymnasium once each week during the winter.

The boys coming from the grammar schools are also given opportunity to play mass games, engage in relay races, and do some apparatus work. The following schools have taken advantage of this opportunity:- Hunt, Pratt, Shaw, Bicknell, and Athens.

Plans are already under way for a boys' demonstration for the parents, so that they may see what the school provides for this valuable part of the children's education. The parents are cordially invited to this demonstration and to inspect the new gymnasium.

The boys out for the school athletic teams have a large dressing room by themselves. This is equipped with full length lockers, individual warm and cold showers, and a drying room. There is also a dressing room, similarly equipped, for the visiting teams.

To supplement the two periods of physical work each week there should be added one period for health training and instruction. The only way to reach the personal lives of all the people is through the training of the children in the public schools. The only successful way to obtain health is to earn it through healthy living. This instruction program should have the following goals:

1. To establish health habits and standards.
2. To instill a practical knowledge relating to cleanliness and sanitation, food, fresh air, rest, exercise, games, sports, recreation, causes and control of disease.
3. To inspire them with the highest ideal of school and community, and to impress upon their minds those things that make for health, beauty, self betterment, and proper use of leisure.
4. To develop the pupil's sense of responsibility for his own health, his family's health and his community's health.

Instruction should include body structure, its function and care; mental hygiene in relation to the nervous system; posture; nutrition; first-aid and home hygiene.

I also recommend the full time addition of a school nurse to be under the supervision of the school physician. The school now numbers more than 1200 students and 60 instructors and employees. There should be a skilled person in attendance for first-aid emergencies, student sickness, suspected contagious diseases, supervision of rest rooms, and follow up health work in the student's home.

I further recommend the immediate development of the field opposite the High School for a play area. This would provide opportunity for outdoor gymnasium classes in the fall and spring, and provide space for mass athletics for the large number of students whose ability does not permit them to play on the school teams. Class leagues could be organized for outdoor sports and material could be developed for school teams. Tennis courts should be included and the field should be large enough to provide space for both boys and girls. The school needs now the same opportunity for outdoor recreation and athletics which the two fine gymnasiums so well provide indoors.

AUTO MECHANICS

Report of Lewis H. Bacon, Jr., Instructor

The Auto-Mechanic Department maintains its interest. This is its second year. A large class of freshmen raised the number of students to thirty-two.

The actual repair work is carried on in a shop run as near to real working conditions as a school can be. The work is upon machines brought in by students and citizens, and includes repair and breakdown as well as general maintenance type jobs. One of the jobs that appeal to the students is the maintenance of two dump trucks owned by the School Department and used for grading, carting ashes, etc.

It is of interest to note the increasing importance of the automobile and truck industry in the United States. In 1928. it is estimated that 4,640,000 cars and trucks were produced in this country, valued at wholesale at $3,045,000,000. Compare this to the 1927 output (wholesale value) of $2,700,705,743. In Massachusetts 751,499 cars and trucks were registered in 1928. These figures plainly show the growth in the last two years.

Freshmen receive practical instruction in repairs, and as the classes advance, more technique and theory are introduced. The modern tendency toward flat-rates and machine work versus hand work is brought out in the course to make the school shop realistic and to prepare the student for the working conditions of real life. The features of tool-room, time cards, job sheets, and stock charges train the boys to think in the ways of the garage repairmen.

The mechanical equipment of the shop is modern and includes the latest type of devices used in high grade repair shops.

With a knowledge of the fundamentals and familiarity with the apparatus likely to be met in garages, the student is prepared to win his place when he is thrown upon his own responsibility. We do not mean to stop at this point, however. The aim of the Vocational School of Weymouth is to make better craftsmen, and the student goes out with a good foundation of academic subjects, emphasizing mathematics, English, science, and drawing.

It is interesting to know that the auto-repair class from the agricultural course has increased.

Trips to the industrial plants awaken the interest and broaden the knowledge of the students.

CARPENTRY

Report of King O. Windsor, Instructor in Carpentry

The object of the Carpentry Course as offered at this school is to give boys fourteen years of age and older a secondary, or high school education by means of offering instruction in Carpentry under actual trade conditions, and some of the general educational subjects taught in high schools.

About one-half of the boy's time of a 35 hour week is spent under working conditions as actually found in the trade where he is required to learn and meet trade standards of work with respect to quality and quantity of output. This instruction is directed by skilled journeymen carpenters.

The course of instruction covers three years of which practically the whole of the first year is spent in the shop where the beginner is taught to acquire some skill in the use of hand tools and bench

work, later learning the operations and uses of various woodworking machines.

The second and third years are spent outside of the shop in the actual construction of garages, dwellings, concrete form work, remodeling, etc., this work entailing the use of the steel square, blueprint reading, estimating, laying out and other related subjects in which instruction is given at the proper time.

Upon the satisfactory completion of this course the student is graduated with a diploma. This work is recognized in the trade, and may be applied as the equivalent of about one-half of the time required to be spent as an apprentice in the carpentry trade. He is also well compensated for his labors as his earning capacity is greater in having received this type of instruction. Many of the graduates of this course are a credit to the department since their services are in demand by local and nearby builders.

This department has built several houses since its organization in 1924. In fact, the building which now houses the Trade School was built by the students of this course. During the past year the boys have built a five room bungalow in North Weymouth, and two two-car garages, this in addition to considerable repair work and remodeling for the School Department. While in the shop the younger boys have busied themselves with the rebuilding of a quantity of school desks, making tables, chairs, shelves, cabinets, and other furniture. The greater portion of this work was done for the School Department.

The shop covers about 3500 square feet of floor space. In addition to the usual standard work benches found in a up-to- date plant, all of the machines are of standard types, individually driven. A blower system connected with each machine keeps the shop free from shavings and dust. A well stocked tool room and finishing room completes the equipment.

ELEMENTARY SUPERVISOR

(Report of Miss Myra G. Keep, Supervisor of Elementary Grades

"Men are what they are in their leisure time."

We aim, therefore, to turn the children's thoughts and interests toward wholesome activities. Recreation is intended to the mind as whetting is to the scythe, to sharpen the edge, which otherwise would grow dull and blunt. The different types of physical exercises were admirably demonstrated by the pupils of North Weymouth at their Field Day, June 12th. The division, all directed by pupil leaders, contested for first place in marching, gymnastic lessons, story plays, relief drills, mimetic plays, singing games, contest games, and stunts. As an incentive the Weymouth Teachers' Association presentcd ten dollars to the school winning the most points, to be used to buy athletic equipment. The judges, Miss Grace B. Simmons, Miss Ethel Carnochan, and Mr. Oral Page, decided that the pupils of the Bicknell School excelled in gymnastic training,while those of the Athens School won the contest games. The prize was, therefore, divided because the score proved to be twenty-one to twenty-one.

"Clean play increases and trains one's strength and helps one to be more useful to one's country."

The welfare of our country depends upon those who try to be

FIELD DAY JUNE 12, 1928

MIMETIC GAMES

STORY PLAY

physically fit for their daily work. The educators of today are co-operating with the health workers to further the good health of the children and the community. It is only through the development of correct personal health habits that a healthy community can be achieved. Each week some personal health habit is stressed with the emphasis upon practical and natural activities, such as health records, sleeping long hours, eating vegetables, and playing in the sunshine.

A new set of health books furnish a stimulus for class work. An interest in the attainment of health is urged, while the word "disease" is seldom mentioned, thereby maintaining a wholesome point of view. "Truth is the Story behind the facts."

Stories aid in training fine characters, stabilizing emotions, and enriching vocabularies. Henry T. Bailey says. "It is more natural for the fur rug to speak than it is for the children to understand the happenings of to-day." The child may live in a fairyland ruled by the voice of the imaginary King and follow the customs of the imaginary people. Later, the stories of real life, featuring success, are paramount. In the older child ideals and habits of service are cultivated by stories of heroes. More time is now given by our teachers to Story Telling. An extensive graded list of useful and interesting stories with their sources has been prepared to assist the teacher in her choice.

The living teacher is continually taking advantage of any help or inspiration placed within her reach.

The East Weymouth teachers were hostesses at a Demonstration Day. One visiting teacher said, "I am going back to my room to really teach, for I have seen and received many new ideas."

Last Spring, twenty-seven teachers received pleasure and power from the cultural course in Literature, "Its Forms and its Modes." The lessons were taught by Professor Matthew Copithorne, of the Massachusetts Institute of Technology, under the direction of the State University Extension.

This Fall we turned to a methods course, "Teaching Elementary English." Mrs. Anna Ray, formerly of Salem Normal School, taught thirty-six teachers the value and need of sentence sense. You will find many Weymouth teachers' names enrolled in other University Extension Courses, as well as in other schools.

The teachers of this vicinity had the rare chance to see the educational exhibits and demonstrations, likewise hear some of the speeches and discussions by the noted educators at the National Education Association Conference held in Boston last Spring. One of the keynotes of many speeches agreed with a Weymouth policy, "Enrichment of the curriculum rather than rapid advancement or acceleration."

The Norfolk County Teachers' Association held an inspiring meeting dealing with the subject of "Citizenship." If our America is to become ever greater and better, her citizens must be loyal and devotedly faithful in every relation of life.

The fifth grade pupils have organized their classes into towns, voting for the name, and forming their own government. Again in the subject of History, we are stressing natural activities; as registering, voting by ballot and open vote, and carrying on regular town meetings. The children have manifested an active interest in this type of history.

"Character alone is the final test of our schools and of our civilization. Every school subject and every school activity should have some bearing on the development of character."

DENTAL CLINIC

Report of Miss Alice A. Conroy, Dental Hygienist

The Clinic has been located in each elementary school building during the year with the exception of the James Humphrey and Shaw Schools. Owing to the increased enrollment it was impossible to cover the entire district. I suggest in order to meet this condition that the work be confined to the first six grades. The purpose of a prophylactic clinic in the schools is prevention and education. The present Junior High pupils have all had clinic instruction since first entering school. I feel we can now eliminate them and concentrate on the first six grades.

When the portable equipment is set up in a building, every child is given a slip to take home. This tells the parents that their children may have their teeth cleaned, if they so wish, by signing their names to the slips and returning them to the teacher with the small sum of fifteen cents. Eighteen hundred children received treatment during the year. Chart cards are kept on file noting date, number of visits, presence of caries and other points of interest. Slips are sent home at this time, notifying the parents when decayed teeth are found. Marked improvement is due in great part to the prompt attention given these notices. Credit is also due the teachers. They teach the simple tooth truths, and do much to maintain the interest throughout the year. Two sizes of tooth brushes may always be obtained at the clinic for a small sum.

Much attention is given the six year molars. Upon examination of the four six-year molars of a group of thirty-five third grade children, only eight had molars free from dental decay. Nine others had one tooth decayed and the remaining number had two, three, or all four molars involved. The fact that these teeth are not recognized as permanent teeth by the majority of parents proves the importance of early dental supervision in the schools.

DRAWING

(Report of Miss Evelyn Silvester, Supervisor of Drawing)

During the year of 1928 several interesting things have taken place. We hope they are real steps forward.

Early in the year an unused stereoptican lantern was located and assigned to our use. This has been a great help in our efforts to give more visual education, and frequent use has been made of it.

Series of lantern slides borrowed at times from the Worcester Art Museum have afforded the children much information and pleasure. While the subject matter of these slides correlates with other studies at times, our presentation is particularly from the Art point of view. Efforts to show the slides at the time the subject matter may prove of greatest point increases the interest.

With this in mind, in October nature subjects were shown of"Concealing Coloration" of animals and birds. Miss Brassill kindly cooperated in some of these showings, adding much to our out-door information from her wide range of knowledge.

Other slides of the animal group gave pictures by Charles Living-

ton Bull, that wonder animal illustrator. He is famous for his simple powerful compositions of great beauty. The work of Anna Vaughn Hyatt, Frederick Rath, Gutzun, Solon Borglum and other animal sculptors were included as well. From some of these works the children attempted some quick memory drawing. They found it interesting to try this, but very difficult. It was excellent practice.

When working on a Japanese booklet in the eighth grades we had some very beautiful colored slides of Japan from which we made quite complete sketches. While at work on a booklet of chairs of different periods of history a series of slides covering many types of period furniture were shown. By this last work we hope to give the children a standard of the beautiful from which to draw if ever they need to consider some item of house furnishing.

As the sixth grades study the stories of "King Arthur" and his "Knight," the pictures of the "Quest of the Holy Grail" by Edwin Abbey added to their interest.

Other slides shown were

1. Pilgims and Plymouth
2. American History by American Artists
3. Mural Paintings in Public Buildings

showing historical development of United States

The seventh grades had a most enjoyable and instructive problem, making costume masks. Seldom has a problem been carried through with greater enthusiasm or more satisfactory results. Some research was made to secure pictures of totem poles, primitive carvings and of masks used in native ceremonials of many far countries. Possible designs were worked out by each child in color. The class work was then displayed and the design best adapted to working out was selected to be actually made. Class instruction was given of all the steps of the process of making from the clay model, the plaster mould to the paper-mache, painted mask. These masks, when done are perfectly suited to use in stage dramatics.

Due to the opening of so many new rooms the visiting schedule has been changed from the old one of every two weeks to every three. In many ways this is not as satisfactory, but with the always appreciated cooperation of the teachers we hope to carry on.

MANUAL TRAINING

(Report of Miss Alice L. Tucker, Supervisor of Manual Training)

The principal aim in teaching Manual Training is not to turn out carpenters, but to help to broaden the child's outlook on life, to develop patience and perseverance, to teach him to be accurate, careful and, most of all, to think. The boy is first taught to draw and read a plan from which he afterward works. Then he saws his wood and begins the article.

The first problem contained exercises in sawing, narrow surface planing, gauging, end squaring, and boring. When the object was finished, the boy checked up to see how closely he had kept to his standard measurements. The second problem involved the use of turning saw and spokeshave, as well as the drawing of an ellipse. The third problem brought in broad surface planing, reviewing the previous exercises, and also required the fastening together of two pieces of wood with screws, while the fourth was the making of a box. Each

boy was allowed to choose the kind. Some made bird houses some window boxes, while both handkerchief and knife and fork boxes were also popular.

As the time allowed was only one and a quarter hours a week, many of the children were not able to complete more than these four articles, although some of the more proficient made several extra things.

The eighth grade boys were taught simple joinery and made articles containing half lap, mitre, dowel, and groove joints, a few making mortise and tenon. Tabourets, picture frames, radio tables, telephone stands and stools, magazine racks, book ends, foot stools, medicine cabinets and tool chests were made. Each boy was also required to rub up at least five tools on the oil stone.

We wish more time might be given for the work, as in the short space allowed it is impossible to accomplish what is desired.

MUSIC

(Report of Mr. James W. Calderwood, Supervisor of Music)

On January 16 the Weymouth High School Orchestra gave its annual concert before the Monday Club. Again on December 2 it played before that same body. This second appearance was made a couple of months earlier than usual in the season, this at the request of the Club. On both occasions the orchestra received much praise for its playing.

On April 12 and 13 the High School boys and girls gave the operetta, "Lelawala", by Cadman, in the Assembly Hall. This double performance was in response to a demand from the public and promises to be an established custom.

The High School Band has grown in numbers, being now a well balanced organization of twenty-five players. On December 12 it played before the Weymouth Rotary Club and proved to the listeners that at last the Weymouth High School has a real band.

Besides this appearance, it furnished music for two nights (Nov. 22 and 23) at the Parish House in So. Weymouth.

Both band and orchestra have regular weekly rehearsals.

In September a new series of Music text books published by Ginn & Co. was supplied in all the grades of our schools. Both teachers and pupils have found this new material attractive and are showing increased enthusiasm in the subject of Music.

Due to the growth of the entire school system in Weymouth Mr. Vance W. Monroe was, in September, elected to the position of Assistant Supervisor of Music therein and is now rendering most acceptable service.

SCHOOL GARDENS

(Report of Miss Sarah E. Brassill, Supervisor of School Gardens)

Supervising the garden work is made easy by the almost universal desire to plant something in the spring and to watch it grow. To offset this, there are the weather conditions that no gardener can control, and the pests that a gardener must learn to control, if his enthusiasm is to lead to success. Two hundred and nineteen pupils reported gardens. So much for the enthusiasm! Weather conditions in 1928 tried the skill of experienced growers. There was the handicap.

.....

Not all gardens could be visited. Preference was given to those pupils who already had some experience in past seasons, and to those new comers who were willing to keep records of their work and to report results. The public and competitive test of work done is made at the Weymouth Fair. At that time the State Official who judged the work praised the quality of the vegetables shown. Meanwhile we had held several meetings to plan our work, had visited one another's gardens, had taken a trip to the Massachusetts Agricultural Experiment Station, and had held a field day at which a specialist from the experiment station had given us a lesson on judging vegetables and later had conducted a judging contest. The county club leader spent one day a month with us.

A new feature of our display at the fair, the educational exhibit prepared by groups of boys with the idea that being able to illustrate what was helpful and what was harmful to the work we were trying to do, was of great value. Four such exhibits were prepared; one on fruit growing which attracted general attention; one on the work of the squash borer and its control (by an out of town group); one on suitable garden tools; and one on garden weeds. We are indebted to a local hardware firm for the loan of many garden tools. Later another firm in another part of the town offered us the use of a show window for a harvest display. This was of especial value as it probably reached many who had not seen the fair exhibit. Other exhibits were held in connection with the Home Beautiful Exhibit at N. Weymouth, and at the High and Pratt schools.

One significant result of our year's work is that garden clubs are reorganizing at the end of the season to study through the winter in preparation for the next year's work. In the class room, wherein all have an equal opportunity, emphasis is placed on the use made of the lessons rather than on memorizing of the points taught. This use shows itself in the home gardens and in the various other forms of voluntary activity. Another very encouraging fact is that in gardening and elsewhere young people who have been associated with the work for some time are lending a hand in leadership of younger groups. We have had the help of many teachers in past years. This year, in addition, we have the help of three young women and two young men who are out of school, of two members of the agricultural department and of one young grammar school boy who is leading, very acceptably, a group of still younger boys.

Both boys and girls have taken part in judging contests in vegetables, poultry and canning exhibits. Poultry boys have shown at Boston, Walpole and Weymouth. Food, canning and clothing were shown at Weymouth. We have now twenty-five groups including a few members below the seventh grade and many high school pupils who keep up their interest beyond the eighth grade. For the help and support that has made the work possible we are duly grateful.

SCHOOL NURSE

(Report of Miss Anna A. MacDavitt, R. N., School Nurse)

In September early inspection of the children is necessary in order to eliminate those who are physically unfit to associate with the others. Well begun is only half done, and in order to see that a proper standard

is maintained each school should be visited at least once a week. As there are sixteen buildings, this is often difficult to accomplish. However, the teachers aid materially by their splendid co-operation.

Weight cards introduced last year are proving a success. Many children below normal weight are so anxious to have a gain recorded that they now pay more attention to proper health rules. There are six children now ten or more pounds under weight receiving milk during the recess period free of charge.

Although no special arrangement has been made for an Eye Clinic this year, we still have the benefit of clinic rates for those deserving glasses.

Special attention has been given to the problem of pediculosis (head lice) with better results. When it has been necessary to exclude a child printed instructions have been sent to the parents. If the child did not return to school within a week, a home visit was made.

Impetigo has been more prevalent than in former years. Fifty children have been treated, twenty-three of whom were excluded.

The following statistics may be of interest:

	Pupils
Examinations in schools	2208
General inspection	3000
Dressings in schools	149
Weighed and measured	736
Assisted doctors with examinations	166
Taken home	37
Taken to doctors	29
Taken to dentist	2
Taken to hospital	3
Taken to oculist	9
Taken to camp	3
EXCLUDED FOR	
Pediculosis	62
Colds and sore throats	25
Impetigo	23
Scabies	9
Ring worm	4
Chicken pox	1
Diphtheria	1
CONTAGION FOUND IN THE SCHOOLS	
Pediculosis	58
Impetigo	48
Scabies	6
Ring worm	4
Chicken pox	1
Diphtheria	1
Examinations in homes	15
Home visits	174
CONTAGION FOUND IN THE HOMES	
Pediculosis	4
Scabies	3
Impetigo	2
Deserving home permits	9

During the school year the following number of pupils were absent for causes noted:

Measles	330
Chicken pox	82
Mumps	42
Scarlet fever	34
Whooping cough	13
Diphtheria	4

SEWING

(Report of Miss Marjorie E. Skinner, Supervisor of Sewing)

The only change made this year in the sewing course was to increase the amount of work done on the sewing machine. We are somewhat handicapped in this work, due to the fact that the classes are so large and we have so few sewing machines at each building.

It is necessary for every girl to have some knowledge of the hand stitches. For this reason we begin in the seventh grade with the fundamental stitches and their uses. These stitches are applied to a gingham sewing bag, which is decorated with either a design or a monogram done in cross stitch.

When these bags are completed the study of the sewing machine and the commercial pattern is taken up. To apply this knowledge they make two or three pieces of underwear.

The eighth grade first made an apron which reviews the uses of patterns, hand and machine stitching.

A short time was used making Christmas gifts such as bags, napkins, aprons, bean bags, dust cloths and holders.

The rest of the year was spent making underwear and dresses, the first dress being very simple and the second more elaborate with set-in sleeves.

ATTENDANCE

In accordance with our previous custom, the building making the highest record, and fifteen rooms making a record above 96%, are noted below:

Highest Building		*Per Cent.*
James Humphrey		96.95
Highest Rooms		*Per Cent.*

Net amount deposited on folders at the Bank, in addition to the amount deposited on bank books, $3,681.49

CONCLUSION

In conclusion, I wish to express my appreciation for the latitude that you have allowed me in the performance of my duties, and for the hearty support which you have given during a year within which the growth of our school population and the many changes that it has occasioned have placed a heavy burden upon all within the organization and have required radical changes to meet present needs.

Respectfully submitted,

PARKER T. PEARSON

Superintendent of Schools.

APPENDIX
(Changes in Teaching Force, 1928)

RESIGNATIONS

High School	Susan Avery, Art.
	Ethel P. Carnochan, Physical Education
	Ruth M. Ford, Domestic Science
	Frances A. Wheeler, Latin
Athens School	Helen D. Shea, Grade I
James Humphrey School	Dorothy C. Hilton, Grade VII
Edward B. Nevin School	Mary H. Benson, Grade VIII Assistant Principal
	Blanche W. Crowell, Grade II

APPOINTMENTS

High School	Flora H. McGrath (Mrs.), English
	Oral A. Page, Physical Education
	Sheila M. Gross, Librarian

ODE TO THE CLASS OF 1928

Andrew J. Morrisey

The day is breaking, and our vigil done,
And we, the maiden knights of this new day,
Are going forth, our labor just begun,
To overcome our foes as best we may.

We now set out with courage as our sword,
 More potent than Excalibur of yore,
And conscience as our only coat of mail,
 An armor stronger than King Arthur wore.

No longer are there dragons to be slain,
 Or heathen hordes that come from o'er the seas,
But other terrors,—meaness, falsehood, sin.
 What loss is fame, if we but conquer these?

Music by Frieda M. Bryant

NEW POND SCHOOL

REPORT OF THE SCHOOL BUILDING COMMITTEES

High School—North Wing

To the Citizens of Weymouth:

Work on the new north wing at the High School commenced in October, 1927, was practically completed before July, 1928.

Considerable drainage and sanitary work was done during the summer, and in the fall much grading was done. The sanitary system was carefully designed and laid out by Mr. Russell H. Whiting, and was executed by Mr. A. C. Tropano. Certain unfinished details still remain, including the grading planned to furnish the assembly area for the proposed memorial, the foundation for which is now under construction. When this work is completed, as it is expected to be within a few months, a suitable place will have been provided for large assemblies, and the general appearance of the group of buildings at the High School will be greatly improved.

Parker T. Pearson was chosen Secretary of the Committee following the death of E. Clifton Barker.

This report is not intended to be the final report of the Committee. A summary of all expenditures, 1927 to January 1, 1929, is as follows, and there are some small balances for work already done which still remain unpaid and which do not appear below:

EXPENDITURES FOR WEYMOUTH HIGH SCHOOL EXTENSION

CONSTRUCTION:		
James Miles & Son Co. general contract	$176,101.15	
Terrazzo floors, cork tile, face brick for gymnasium, drainage, removal of ledge, etc.	14,681.21

Appropriation		$300,000.00

LEGION MEMORIAL FIELD

The balance of the appropriation of 1927 was available for further work in 1928. During the summer several acres designed for baseball have been filled with gravel from adjoining land. For the growing of proper sod thereon a further application of light loam is desirable. About twelve thousand more yards of filling should be placed upon the field in order that the whole thirteen acres may be sufficiently raised above natural water level to ensure efficient drainage.

Along the line of Commercial Street the installed drains run close to the surface, and it is in this area that the heavier fill is needed. The small balance now available will allow for a little incidental work.

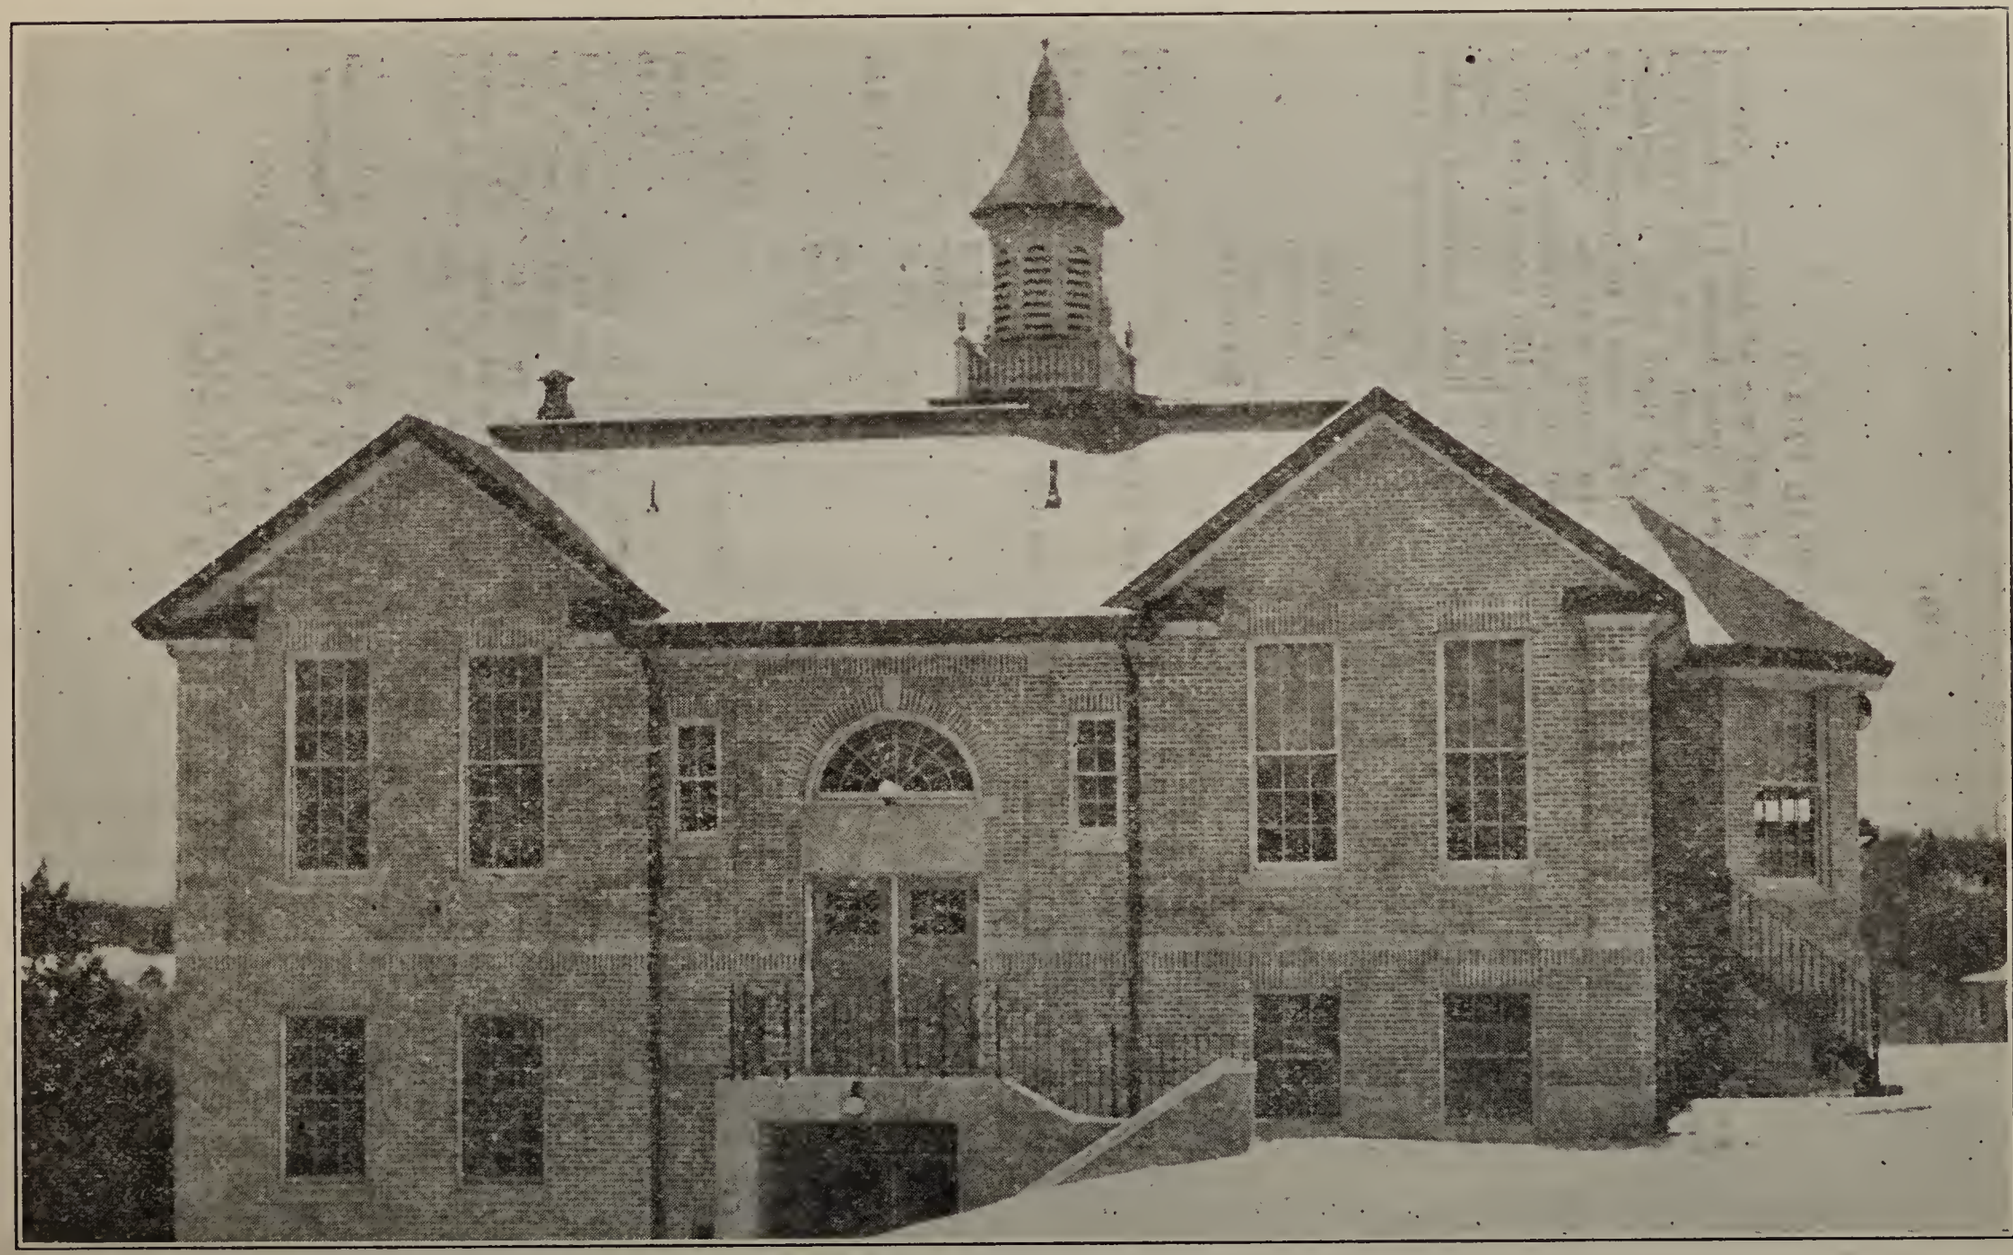

A summary of appropriations and of all expenses on this project from 1924 to 1928 inclusive, is as follows:

1924	Appropriation	$200.00	
1925	Appropriation	10,906.00	
1927	Appropriation	10,000.00	
	Total	$21,106.00	
EXPENDED:			
1924	R. H. Whiting, surveys		$19.30
1925	Purchase of land, surveys and legal expense		3,040.13
1926	Labor, mostly on drainage	$4,088.95	
	Materials and incidentals	3,710.47	7,799.42
1927	Labor and services, mostly on clearing and grading	4,424.85	
	Surveys	124.94	
	Gravel in bank	500.00	
	Incidentals	78.28	
			5,128.07
1928	Materials, filling	435.50	
	Labor and services	4,557.87	
	Surveys and incidentals	45.56	
			5,038.93
	Total expense, 1924 to 1928 inclusive		21,025.85
	Total appropriations		21,106.00
	Balance, unexpended		$80.15

As the field is now readily accessible in all its parts, we believe that the time is opportune for its completion as an athletic field during the coming year. In any event, provision should be made for the placing thereon of at least ten thousand yards of filling, with sufficient loamy substance to allow the growth of grass. Such work could as well be done by the School Committee as by the undersigned Committee.

NEW PRATT SCHOOL

PRATT SCHOOL AND POND SCHOOL

To the Citizens of Weymouth:

The Pratt School was substantially completed during the year 1927, although some of the payments therefor, with a portion of the work, carried over into the past year. The difficult but desirable grading work done at this school was from school maintenance funds, and not from construction account. A complete summary of the cost of the new Pratt School follows:

EXPENDITURES FOR NEW PRATT SCHOOL

CONSTRUCTION:		
Cark & Smith, general contract		$50,528.68
HEATING AND VENTILATING:		
Stubbs Bros., general contract		9,700.00
ELECTRIC WIRING & MATERIALS:		
E. N. Fisher, labor and material	$1,517.38	
Holtzer-Cabot Electric Co. fixtures, gongs, bells, etc	410.75	
Weymouth Light and Power Co., clocks	332.50	
		2,260.63
FURNITURE & EQUIPMENT:		
Allen Shade Holder Co., shades	91.98	
A. P. W. Paper Co., fixtures	24.50	
Edward E. Babb & Co., furniture, shades, etc.	2,234.75	
Kenny Bros. & Wolkins, furniture	446.49	
Laing Bros. Co., wardrobes,	1,200.00	
Mass. Reformatory, teachers' desks, etc.	901.60	
Old Colony Gas Co., service	105.55	
Louis Whitford, labor	14.20	
		5,019.07
INSURANCE:		
A. E. Barnes & Co., insurance	180.00	
Earl C. Fowler, bonds	145.50	
Robert W. Sheehan, bonds	765.45	
		1,090.95
MISCELLANEOUS:		
E. C. Barker, committee expense	5.00	
George H. Hiatt, heating	100.00	
Weymouth Water Dept., service	237.41	
Russell H. Whiting	55.44	
		397.85
Total Expenditures		68,997.18
Balance Unexpended		2.82
Appropriation		$69,000.00

Plans and location for the Pond School were finally adopted in the Spring, and bids opened on May 15. The contract was awarded to the lowest bidder, James Miles & Sons Co., of Worcester, at the basic price of $59,887.00, subject to optional deductions and additions. Similarly the heating contract was awarded to Stubbs Bros., of Boston, at $10,300.00.

The work was satisfactorily completed in December and on Januard 2nd, the school was opened with six class rooms in use. In the basement of this building are three additional rooms, suitable for classes, if need be, and an assembly hall, capable of seating four hundred. The stair wells are fire proof, and the unit system is used for heating and ventilating.

Other large items of expense incurred in constructing the school were the installation of water and gas, and building of roadways both

from Pond Street and from Great Pond road. Some of the latter work was borne by the School Department.

Following the death of E. Clifton Barker, secretary of this Committee, Mr. Francis W. Rea was elected secretary, in his stead.

Both the Pratt and Pond Schools are the architectural work of Mr. Howard B. S. Prescott of Boston and Arlington, the architect of both wings at the High School, to whom the Committee are greatly indebted for his faithful cooperation.

Reference to the report of the Town Accountant will show such expenditures as had been made previous to January 1, 1929.

EDWARD CLIFTON BARKER

In the death of Edward Clifton Barker, which occurred April 28, 1928, the Town of Weymouth has lost a citizen whose efforts for the public good were for many years quietly but effectively exercised.

During a considerable period he served as Secretary of the Appropriation Committee. In 1924 he was appointed a member of the Building Committee in charge of constructing the South Wing of the High School, and the acquisition and development of Legion Memorial Field. In 1927 he was appointed a member of the Building Committee for the Pratt and Pond Schools, and was continued on the Committee of the High School in charge of the North Wing.

For all these Committees he served efficiently and faithfully as Secretary, and until such time as his illness made activity impossible he was in attendance at meetings and ever was ready for consultation and advice. His illness was of long duration. He lived to see the last project of the several Committees, the school at Pond Plain, definitely commenced by the approval of plans and selection of site.

The undersigned, citizens of Weymouth, and fellow Committee members with him, wish here to record their deep respect for his memory, and their recognition, from their own knowledge, of the many and valuable services cheerfully and freely given by him to the Town of Weymouth.

Trustees of Weymouth Fore River Bridge,

Gentlemen:

I have examined the accounts of William L. Foster, Treasurer of the Trustees of Weymouth Fore River Bridge, for the year 1928, reconciled the bank account, and I hereby certify that the same are correct with proper vouchers.

(Signed) J. IRVING BOTTING,
Town Accountant.

Hingham, January 21, 1929.

REPORT OF THE BOARD OF PUBLIC WELFARE

To the Inhabitants of the Town of Weymouth:

Unemployment has made greater demands for assistance the last year than ever before, and we receive the same reports all over the state, while some cases are citizens from the outside, we feel that the reports show that they are worthy cases. The children are not to blame for the conduct of their parents and we cannot see the children suffer.

We have aided 108 families consisting of 462 persons that have a settlement in Weymouth. We have also aided for other cities, towns and state 41 families, consisting of 223 persons.

Miss Margaret Hyland was appointed Welfare Worker. She investigates every case and reports to the Board and we feel that her judgment is excellent and her work commendable.

Mr. and Mrs. Clifford A. Berry still continue as Superintendent and Matron of our Town Infirmary. They have proven themselves worthy of the positions they hold. The Town should congratulate Mr. and Mrs. Berry for the way and manner that they have conducted our Town Infirmary.

H. FRANKLIN PERRY
WINSLOW M. TIRRELL
FRED E. WAITE
EDWARD R. SAMPSON
WILLIAM B. CHALKE, Jr.
Baord of Public Welfare.

REPORT OF VISITOR FOR BOARD OF PUBLIC WELFARE

During the year 1928, under the direction of the Board of Public Welfare, I have continued visiting the families receiving aid and those calling for aid.

I have made 272 calls in the different parts of the Town; have had many calls at my office and numerous telephone calls.

Owing to the present unemployment condition existing in Weymouth, illness, widowhood, old age and men not earning enough to maintain their homes, unparalleled demands are being made for aid. Considerable time has been given to each applicant applying for aid to ascertain the true situation and need of each family, as well as to their settlement.

Young married men, eager and able to work to support their families, have been unable to find positions, and the Board has canvassed the Town seeking employment for them before giving aid.

A written report of each visit has been made weekly by me to the Board of Public Welfare.

MARGARET A. HYLAND

WEYMOUTH INFIRMARY REPORT FOR 1928

(Formerly Known as Town Home)

To the Honorable Board of Public Welfare:

I herewith submit annual report of the Weymouth Infirmary for the year 1928.

There are three women and thirteen men residing at the Infirmary. The following table shows the details for the entire year:

Number of residents January 1, 1928	15
Number admitted during the year	9
Number discharged during the year	7
Loss by death	1
Number of residents December 31, 1928	16

George Alden Nash, who had lived at the Home about thirty years, died on November 5, 1928.

With two exceptions, the men and women are in fairly good physical condition and those who are able to do some work, are very helpful in general work about the farm. A very successful garden last summer furnished us with green vegetables and some winter vegetables. The purchase of a small flock of chickens last Spring, proved a very satisfactory investment.

CHANGES AND ADDITIONS

The old barn, which was sold, has been demolished. A two-car Garage has been built with a large portion of the work being done by ourselves. The old weather vane was saved and tops the garage.

GIFTS: In th men's club room, known as the Smoke House, a radio with speaker has been installed, also a small one-tube radio in the Infirmary for the use of the men who cannot leave their room. These are the gifts of individuals interested in the Infirmary and add greatly to the comfort of the men as well as being of mental benefit. Other gifts from public spirited individuals include dahlia bulbs and bedding plants which make it possible at small expense to beautify the

grounds during the summer. To all the donors our hearty thanks has been extended.

Christmas was celebrated with a tree and party on Christmas Eve, with the kind assistance of members of your honorable Board, with the regulation feast on Christmas Day. Practical gifts and goodies were donated to the men and women by thoughtful citizens and organizations, and were much appreciated. We wish here to publicly thank all who co-operated with Mrs. Berry and myself in bringing Christmas cheer to the family at the Infirmary.

In closing my second annual report, I wish to thank the members of the Welfare Board for theiir helpful co-operation during the past year.

Respectfully submitted,

CLIFFORD A. BERRY,
Superintendent.

East Weymouth, December 31, 1928

FOUTEENTH ANNUAL REPORT OF THE SECRETARY OF THE WEYMOUTH VISITING NURSE ASSOCIATION

Another year, perhaps one of the most strenuous years of our existence has drawn to a close, and we find ourselves established in our permanent home in our new Municipal Building. This last year, with our added expense of maintaining a clinic room, has kept us all on our toes and there have been many card parties, food sales and entertainments given. We have managed to keep our heads above water but we start the new year in little harder circumstances than usual. This is due partly to the fact that our Annual drive for membership was postponed this year from fall to spring, hoping for more success when there were fewer drives and calls on the public.

Our Child Welfare Clinic, entering on its fourth year, has grown steadily. Clinics have been held every week with scarcely an exception. The Child Welfare Committee has been very regular in having two women there weekly to help the nurse and Doctor Fitzgerald. We were very happily situated in our clinic rooms in Jackson Suare, but when we heard that our request for rooms in the new Town Office Building had been granted we were more than delighted. We feel that now the Town recognizes that we are a part of it and that we are striving to help better the conditions among our townspeople.

In the spring it was thought best by all to turn our Nurse's car in and get a new one. The Pontiac people gave us the best offer and so in April we purchased a Pontiac Coupe. In May we had our regular Tag Day with Mrs. Menchin in charge. The date was changed on account of so many Tag Days coming in June.

Eleven monthly meetings of the Board of Directors have been held with our faithful and energetic president, Mrs. Stevens presiding.

Our two nurses, Mrs. Pratt and Miss Wilbur have carried on faithfully.

Fifty-one clinics have been held with the attendance for the year

reaching a total of 1179 babies. Of these 183 were new during the year 1928. The largest number cared for was 36 in one day in October.

660 patients were cared for by the nurses during this year, with a total of 5603 calls. Of these patients 72 were Tubercular cases; 148 were Metropolitan Life Insurance cases and 62 were John Hancock Life Insurance cases.

2752 of these calls were free calls with 273 patients helped and 91 families.

Respectfully submitted,
ELIZABETH JONES LUNT, Secretary.

Report of the Electric Lighting Committee

Weymouth, Dec. 31, 1928.

To the Honorable Board of Selectmen -

Your Committee, with the approval of the Town Counsel,renewed our contract, with a few minor revisions, with the Weymouth Light and Power Co. to continue one year to April 1, 1929.

The important event of the year was the signing of a supplementary agreement whereby all 40 c.p. lamps were discontinued and replaced with 60 c.p. lamps. As about 1200 of our 1300 light are of this variety, we are now receiving nearly 50 per cent more light. Also by this agreement the prices of all lamps were reduced so that the total additional cost to the Town was under $300. and we were able to do this well within our appropriation of $31,000.

During the year, we have placed in Columbian, Commercial Jackson and Lincoln Squares, 24 new 1000 c.p. bracket lights. We now have 49 of these fixtures which cost $95.00. per year. We also have installed about 100 60 c.p. lights whose yearly cost is $20.90. We have, after trial of different types of fixtures, installed 15 Boulevard Lights on Bridge Street between Quincy Bridge and Bicknell Square. We are using a 250 c.p. bulb in these fixtures and they are giving reasonable satisfaction.

We recommend the following budget for 1929.

Maintenance of present lights	$32116.06
125 new 60 c.p. lights (6 months)	$ 1306.25
	$33422.31

Respectfully submitted,
JOSEPH A. FERN, Chairman
AIFRED S. TIRRELL
WILLIAM B. NASH. Jr.
JOSEPH KELLEY
J. HERBERT LIBBEY, Clerk.

REPORT OF THE REGISTRARS OF VOTERS

To the Honorable Board of Selectmen of the Town of Weymouth
Gentlemen:

The Board of Registrars of Voters respectfully submit the following report:

Annual Report

OF THE

Water Department

WEYMOUTH, MASS.

1928

REPORT OF THE WATER COMMISSIONERS

January 1, 1929

The Board organized March 19, 1928, with the election of Frank H. Torrey as chairman, George E. Bicknell, clerk and John H. Stetson, treasurer.

The appointments for the year were as follows: Superintendent, Fred O. Stevens Registrar and Collector, Marshall T. Tirrell; Town Accountant, Emerson R. Dizer.

The new additional services have been nearly equal to 1926 and 1927..

For details, see report as submitted by the Superintendent.

The Town of Weymouth, on March 7, 1927, under Article 56, in the warrant for the annual Town Meeting, accepted the following Act:

To see if the Town will accept the provisions of Chapter 391, Acts of 1923, as amended by Chapter 413, Acts of 1924, making water rates a lien on the property

It is important that the owner as well as the purchaser of real estate, inform himself as to any lien that may have been placed upon the property before any deeds are passed.

The Registrar and Collector will furnish such information.

The most important and difficult work before the Board at the present time is the acquisition of the land bordering Great Pond, for the purpose of water supply protection.

We find that there has been some misunderstanding as to the scope of this work and the methods employed and we wish if possible, in this report, to make the entire matter clear.

It is not necessary at this time to consider the advisability of taking the land. The taking has been urged for years by this board, the State Department of Health, the local Board of Health, the Planning Board and a large majority of the citizens of the town.

In 1927, at the request of Finance Committee we prepared a plan for financing this taking from the income of the water department by means of a bond issue of $15,000 per year for ten years, the interest on these bonds, funds for their retirement, and any additional cash required to complete the takings, to come from the revenue of the department.

By this plan the entire purchase is financed by the water department without resort to the tax levy.

The annual meeting of 1927 authorized the purchase or taking of about 41 acres on the shore parallel to Pond street. This was approved by the Department of Public Health and the matter of the purchase turned over to the Town Counsel.

On the matter of price he found, as expected, a wide difference of opinion. Some owners set a price which seemed to us entirely reasonable and with these, nine in number, a prompt settlement was made. Others seemed a trifle high and their cases were left open for further discussion. A few of the owners set prices that were entirely unreasonable, and it has seemed from the start that these cases would eventually have to go to a jury.

We felt it our duty to obtain control of these properties as soon as possible, and so, early in February 1928, filed a taking on the entire 41 acres.

In filing this taking it was necessary to name some amount as an award and on advice of counsel we used, merely as a nominal figure, the assessed valuation; not with any intent to seek a settlement at

this extremely low figure, but with the understanding that the matter of price was still open for discussion and adjustment.

It should be obvious that the sole aim and desire of this Board is to determine if possible the full just value of these properties and to settle accordingly.

This determination of fair value is the difficult feature of the entire project. The assessed valuation is admittedly low. Due to the restrictions of the State Department of Health in effect since 1903, the property nearest the shore cannot have the value of unrestricted shore property. Recent booms in real estatee, now somewhat deflated, have given, we think, some mistaken conceptions of the real value of land for development purposes.

Our disposition is, to meet the land owners a little more than half way, and even in cases which come to trial there is no reason why the contest should not be a friendly one.

The annual Town Meeting of March, 1928, authorized the purchase or taking by eminent domain of a strip of land of varying width, practically encircling the pond and including, with a few minor exceptions the entire area needed for water supply protection.

The State Department of Health approves this project in general and stands ready to give its specific approval of each parcel as acquired.

It is the intention of the Board to acquire immediately such portions of this larger area as are offered at a reasonable price. We have at present several such offers which will be taken up as soon as the necessary formalities have been complied with.

We request the following appropriations from our income of the coming year:

Maintenance and Operation	$28,000.00
Minor Construction	20,000.00
Replacement	5,000.00
Equipment	3,000.00
Commercial Expense	6,200.00
General Salaries	2,075.00
Interest	4,582.50
Bond Retirement	16,500.00
	$85,357.50

Respectfully submitted,

FRANK H. TORREY
GEORGE E. BICKNELL
GEORGE W. PERRY

REPORT OF SUPERINTENDENT

To the Board of Water Commissioners:

The following tabes and summaries, covering in detail the work of the department for the year ending December 31, 1928, are respectfully submitted:

FRED O. STEVENS,
Superintendent.

SUMMARY OF STATISTICS

Year Ending December 31, 1928

In form recommended by New England Waterworks Association.

Weymouth Waterworks, Weymouth, Mass.

Population, 1925: Winter, 17,200 Summer, 20,800*
Date of construction: 1885.
By whom owned: Town of Weymouth.
Source of Supply: Weymouth Great Pond.
Mode of Supply: Pumping to reservoir and gravity.
Capacity of reservoir: 700,000 gallons.

PUMPING STATISTICS

1. Pumping Machinery:
 No. 1 Allis-Chalmers Single Stage Centrifugal Pump, driver by 70 H. P. G. E. Motor.
 No. 2. Worthington 2 Stage Centrifugal Pump, driven by 70 H. P. G. E. Motor.
 No. 3. DeLaval Single Stage Centrifugal Pump driven by 150 H. P| Sterling Gasoline Engine.

Capacity of Pumps:

No. 1. 1,700,000 gallons per 24 hours.
No. 2. 1,400,000 gallons per 24 hours.

* Estimated

No. 3. 2,600,000 gallons per 24 hours.
2. Total pumpage for year with Gasoline Pump 160,000 gallons.
3. Electric current used, K. W. H. 145,703.
4. Total pumpage for year with electric pumps, 180,569,100 gallons.
5. Average static lift of pumps, 108 feet.
6. Average total lift of pumps, 156 feet.
7. Cost of current per million gallons, $25.69
8. Cost per million gallons raised one foot, $0.165
9. Cost of pumping per million gallons based on total expense, $45.77

STATISTICS RELATING TO DISTRIBUTION

Mains

1. Kind of Pipe: Cast iron, wrought iron, lead and lead lined.
2. Sizes: From one inch to fourteen inches.
3. Extended: 18,471 feet.
4. Replaced small wrought iron with cast iron, 1488.0
5. Total now in use, 99.6 miles
6. Length of pipes less than 4 inches in diameter, 21.7miles (Mostly summer lines.)
7. Number of hydrants added during year, 16
8. Number of hydrants now in use, 510
9. Number of stop-gates added during year, 36
10. Number of stop-gates now in use 808
11. Number of stop-gates smaller than 4 inches, 149
12. Number of blowoffs, 19
13. Range of static pressure on mains, 18 to 105 pounds

Services

14. Kind of pipe: Cast iron, cement lined, wrought iron, lead and lead lined.
15. Sizes ¾ inch to 8 inches
16. Extended, 8,267 feet
17. Discontinued, none.
18. Total in use, 24.98 miles.
19. Number of services added, 333
20. Total services Dec. 31, 1928, 6,396
21. Average length of services added during year, 18.7 feet.
22. Number of meters added, 334 discontinued none
23. Number of meters now in use, 4027
24. Percentage of services metered, 63.1

STATISTICS OF CONSUMPTION

1. Population: Winter, 19,000; Summer, 22,000; Average 20,420
2. Total consumption for 1928, 420,024,100 gallons
3. Average daily consumption: 1,147,606 gallons
4. Gallons per day per capita: 56.2
5. Total through commercial meters, 72,007,785 gallons
6. Domestic consumption, (2)-(5): 358,016,315
7. Gallons per day per capita, based on (6): 48.2
8. Total through meters: 193,741,860 gallons
9. Per cent. accounted for by meters: 46.1

* Estimated.

Respectfully submitted,

JOHN H. STETSON,
Treasurer.

Weymouth, January 25, 1929.

I have examined the accounts of John H. Stetson, Treasurer of the Water Department and find them correct. The records of the Collector's Department have been checked during the year and I am satisfied that the report of that department is correct.

EMERSON R. DIZER,
Town Accountant.

REPORT OF THE TOWN ACCOUNTANT

East Weymouth, Mass., Jan 31, 1929.

To the Board of Selectmen and Board of Public Welfare:

Gentlemen:

I submit herewith the 27th annual report of the accounting department showing the financial transactions of the several branches of town activities.

As the town accepted Sec. 55 of Chap. 41, G. L. on Oct. 3, 1927 my appointment was made by the Selectmen in conformity to this section and the offices of Town Auditors was abolished.

The result of this action places the auditing responsibility wholly upon this department.

The accounts of the several town officials have been examined from time to time and always found in order. All cash balances have been verified as required by law and always found correct.

The accounts of the Tax Collector's have been thoroughly audited and notices forwarded to all those whose accounts apear open on the books. In so far as I have received no information that any of the items have been questioned I am satisfied that the accounts are correct.

The balance uncollected on tax commitments as of Dec. 31, 1928 was $222,266.35 which has been reduced to less than $190,000.00 at this date.

During the year 1928 the sum of $61,000.00 was paid for debt reduction and as no authorization was made for further borrowing the borrowing capacity of the town was increased by $144,997.61 making the sum that may be borrowed within the debt limit $354,999.60.

The gross surplus of the town as of Dec. 31, 1928 was $198,829.51.

The Balance Sheet, Debt Statement, Municipal Property Account and Recapitulation of Apropriation Accounts are appended to and made a part of this report.

The new quarters afforded the department in the new Town Hall makes possible more satisfactory and efficient handling of the accounting work.

It is always a pleasure to meet any of the people interested in the finances of the town, and I trust there will be no hesitancy at any time in calling at the office for whatever information may be desired.

My appreciation is extended to all those who have in any way assisted in the work of this office and especially to my secretary, Miss Mary E. Ford, whose efficient and faithful application to the many duties of the office have contributed so much to the successful completion of the accounting work of this year.

Respectfully,

EMERSON R. DIZER,

Town Accountant

JOHN H. STETSON,

Treasurer

Weymouth, January 14, 1929

Weymouth, Jan. 25, 1929.

I have examined the accounts of the Town Clerk, Town Treasurer and Sealer of Weights and Measures finding them all correct. The securities of the Town were examined and found to be as stated in the report of the Town Treasurer. The books of the several officials agree, as to money received and expended, with the records in the Accountant's office.

EMERSON R. DIZER,
Town Accountant.

REPORT OF SELECTMEN

To the Inhabitants of the Town of Weymouth:

At the annual Town election held March 12th, 1928 the following Selectmen were elected: Edwin R. Sampson, Fred E. Waite, H. Franklin Perry, William B. Chalke, Jr., Winslow M. Tirrell.

The Board took the oath of office before Town Clerk, Clayton B. Merchant, on the morning of the 13th and organized with the choice of H. Franklin Perry, Chairman and Winslow M. Tirrell, Clerk.

Emerson R. Dizer was appointed Town Accountant.

Irving E. Johnson was appointed Superintendent of Streets.

Frederic Gilbert Bauer was appointed Town Counsel.

Daniel Sullivan was appointed Inspector of Animals.

Constables Appointed: Charles W. Baker, L. Lawrence Brennan, Edward F. Butler, George W. Conant, John W. Coyle, Thomas Fitzgerald, George W. Hunt, Arthur H. Pratt, Joseph Sewall, Willie F. Tirrell, Louis Ells.

MINOR OFFICERS

Public Weighers: C. Lewis French, Michael F. Dwyer, Michael H. Lane, John Q. Manuel, James B. French, Kenneth Holbrook, F. Cecil Manuel, Thomas McCue, Donald Clark, John Day, Wilfred H. Bartlett, Edward Rayburn, James D. Bosworth, Clara Mitchell, Loretta Cope, J. Leonard Bicknell, Jacob Harmes, Evelyn Grundstrom, Herbert K. Cushing Charles A. Leavitt, Wallace D. Cowing, Walter L. Bates, Grace Stancomb, Susan R. Worthen, Patrick H. Shea, Earle F. Bates, Arthur W. Newcomb, Russell T. Bates, Augusta Virta, Charles C. Fortier, Helen Fortier, Joseph Sullivan, Harry Mullen, Anthony L. Cassesse, Paul Valenciento, Peter J. Hunt, Henry Wilkins.

Survey as of Wood, Lumber and Bark: Edward I. Loud, Augustus Dennison, Edward Hinds, William A. Holbrook, F. Cecil Manuel, John Q. Manuel, Walter L. Bates, Patrick H. Shea, Thomas H. Hannaford, Bowdoin B. Smith, Herbert W. Holbrook.

Fence Viewers: Arthur H. Pratt, Edward F. Butler.

Field Drivers

James P. Maguire, Charles H. Coyle, Elbert Ford.

Electric Light Committee

Joseph A. Fern, J. Herbert Libby, Joseph Kelly, William B. Nash, Jr., Alfred S. Tirrell.

Lockup Keeper

Arthur H. Pratt.

Marshall P. Sprague appointed Registrar of Voters for three years. Mr. Sprague died April 14, 1928 and at a meeting held April 28th John F. Reardon was appointed to fill the vacancy until April 1, 1931.

E. Ralph Blanchard appointed Harbor Master, April 2, 1928.

At the last Annual Town Meeting the Town voted $1,000.00 to care and keep in good order burying grounds within the Town which two or more bodies are interred and which are not properly cared for. Ashwood Cemetery, adjoining Hunt School on Broad Street was thought by the Board to be the first to clean up. The grounds have been cleared of bushes, dead trees, etc., a heavy wire fence has been placed around the plot, the School Department paying for one-half of the fence adjoining the school property. The Selectmen recommend that an amount of money be raised and appropriated for 1929.

Pleasant Street Widening

At the last annual Town Meeting the Selectmen were instructed to prepare plans for the widening or a proposed new layout on Pleasant Street from Washington to Pine Streets.

We would make the following report as to the cost on the widening of the Street, using the old layout nd also the proposed new layout, moving the store now occupied by W. B. Chalke & Sons and continuing through the meadow back of the church property of Bradford Hawes and then continuing on Pleasant Street to Pine Street.

Total cost of construction and land damage of old location from Washington to Pine Street—$42,250.50

Total cost of construction and land damage for new layout—$46,838.50.

H. FRANKLIN PERRY
WINSLOW M. TIRRELL
